

Humorous Speech Contest Judge S Guide And Ballot

A handbook for students and coaches, providing rules, guidelines, and models for participation in forensics competition. Gives an overview of speechmaking plus an individual chapter analysis of each type of speech. On a historic space mission, five female American astronauts soar into the galaxy, only to discover that their intended destination has mysteriously changed to an unknown planet. They land on Planet Eartha, which is very similar to Planet Earth, except its population is 98 percent female and it's ruled by ten powerful female leaders known as Supreme Highnesses. These women use their superpowers as part of their mission to address concerns on Earth, including social injustice, mistreatment of underserved populations, religious hypocrisy, and exploitation of young girls. When the Supreme Highnesses decide to bring five of the worst offenders from Earth to Eartha for a period of reckoning, they designate the astronauts to help fulfill this mission. These five evil individuals, who become known as the Travelers, believe they are selected for the journey to Eartha through a lottery sponsored by America's National Space Center. They think they're the luckiest people on Earth -- until they arrive at their destination and discover what the Supreme Highnesses have planned for them. Will their sins come back to haunt them in painful, unimaginable ways? Can they even survive the retribution that awaits them on this powerful, unfamiliar planet? The ultimate lesson the Travelers learn is one that all people on Earth today would do well to heed: Never underestimate the power of women on a mission to bring justice to those who have used inequality and exploitation for personal gain. The Quiet Journey is one person's life story told in amusing and authentic memoirs from 1936 until 2000. The author, writing to his grandchildren, shares candid childhood stories about Saturday afternoon movies, reading contests, and thrashing runs. The memoirs capture a glimpse of attending a one room rural school, growing up on a farm, and living without electricity. Older readers may recall their own memories of catching and killing a rooster for Sunday dinner, or playing fox and geese in the snow. Others may identify with the author as he tells of his first date and learning how to dance. A few may even remember the surprises that awaited them at college. Those who served in the navy during the 1950s may have experienced challenging shore patrol duty in places like Olongapo, Philippines, or visited Hiroshima and Nagasaki, Japan. In addition, former sailors may remember some of their more amusing experiences when at sea. All of these experiences are captured in *The Quiet Journey*, along with humorous and challenging experiences of teaching in Urbana, Postville, Story City, and Dubuque, Iowa. However, everyone reading *The Quiet Journey*, will sense the importance of the second half of the twentieth century.

When John Gould was young, a boy learned about the sea--and arithmetic and knots and geography and life--from the old deep-water men living out their lives in snug harbors. He grew up knowing the woods; the way a church supper smells; the way the Ladies Aid bargained together before a food sale. The friendly, close-knit community life and the deep family affection gave him a foundation of sound sense to last through the years ahead. This is a book to read and reread. You will be glad to know that once, in Maine, a boy could have this kind of childhood; and you might be envious because you did not.

This authoritative history shows how forensics, as practiced in the United States, was an uneasy fusion of contradictory premises that began as a significant part of the tradition of American public address. Forensics in America: A History is significant in providing a context for understanding the role forensics may play in the 21st Century. The book expands the study of American public address, focuses on the pedagogy of forensics training, and explores cultural dimensions of forensics activities.

Memoirs 1936 to 2000

NEW YORK TIMES BESTSELLER • Finalist for the PEN/USA Award in Creative Nonfiction, the Thurber Prize for American Humor, and the Audie Award in Biography/Memoir *This Random House Reader's Circle edition includes a reading group guide and a conversation between Firoozeh Dumas and Khaled Hosseini, author of The Kite Runner! "Remarkable . . . told with wry humor shorn of sentimentality . . . In the end, what sticks with the reader is an exuberant immigrant embrace of America."*—San Francisco Chronicle *In 1972, when she was seven, Firoozeh Dumas and her family moved from Iran to Southern California, arriving with no firsthand knowledge of this country beyond her father's glowing memories of his graduate school years here. More family soon followed, and the clan has been here ever since. Funny in Farsi chronicles the American journey of Dumas's wonderfully engaging family: her engineer father, a sweetly quixotic dreamer who first sought riches on Bowling for Dollars and in Las Vegas, and later lost his job during the Iranian revolution; her elegant mother, who never fully mastered English (nor cared to); her uncle, who combated the effects of American fast food with an army of miraculous American weight-loss gadgets; and Firoozeh herself, who as a girl changed her name to Julie, and who encountered a second wave of culture shock when she met and married a Frenchman, becoming part of a one-couple melting pot. In a series of deftly drawn scenes, we watch the family grapple with American English (hot dogs and hush puppies?—a complete mystery), American traditions (Thanksgiving turkey?—an even greater mystery, since it tastes like nothing), and American culture (Firoozeh's parents laugh uproariously at Bob Hope on television, although they don't get the jokes even when she translates them into Farsi). Above all, this is an unforgettable story of identity, discovery, and the power of family love. It is a book that will leave us all laughing—without an accent. Praise for Funny in Farsi "Heartfelt and hilarious—in any language."—Glamour "A joyful success."—Newsday "What's charming beyond the humor of this memoir is that it remains affectionate even in the weakest, most tenuous moments for the culture. It's the brilliance of true sophistication at work."—Los Angeles Times Book Review "Often hilarious, always interesting . . . Like the movie My Big Fat Greek Wedding, this book describes with humor the intersection and overlapping of two cultures."—The Providence Journal "A humorous and introspective chronicle of a life filled with love—of family, country, and heritage."—Jimmy Carter "Delightfully refreshing."—Milwaukee Journal Sentinel "[Funny in Farsi] brings us closer to discovering what it means to be an American."—San Jose Mercury News*

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Achilles in California is a modern retelling of the Achilles legend, based closely on the Iliad of Homer. Set in a California high school in late 1963, the story centers on the football team, and the players and coaches have their analogues in Homer's epic. Mark Panokotonkis, 'Achilles', is the campus hero, and Larry Terhune, 'Patroklos', is his diametric opposite, the pimply, scruffy, despised and self-despising manager of the team. The gradual coming together of these two opposites, the bonding of Achilles and Patroklos, is the unusual story that unfolds, ultimately precipitating a personal crisis for both boys that coincides with a national crisis. The story ends on November 22, 1963, the real death of a real hero marking the symbolic death of a mock hero.
