»pasticcios« since the 18th-century, these operas have long been considered inferior patchwork. The volume collects essays that reconsider the pasticcio, contextualize it, define its preconditions, look at its material aspects and uncover its aesthetical principles.

This edited volume aims to problematise and rethink the contemporary European migrant crisis in the Central Mediterranean through the lens of the Black Mediterranean. Bringing together scholars working in geography, political theory, sociology, and cultural studies, this volume takes the Black Mediterranean as a starting point for asking and answering a set of crucial questions about the racialized production of borders, bodies, and citizenship in contemporary Europe: what is the role of borders in controlling migrant flows from North Africa and the Middle East?; what is the place for black bodies in the Central Mediterranean context?; what is the relevance of the citizenship in reconsidering black subjectivities in Europe? The volume will be divided into three parts. After the

Scholars should not ignore these "dark sides" of politics, however unpleasant they may be, since they influence the world in a multitude of harmful ways. The first volume in this two-volume collection focuses on the history of underground neo-fascist networks in the post-World War II era; neo-fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s; and

A range of global case studies are included, all of which focus on the lesser known activities of certain secular extremist milieus. This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics.

"Mafia" has become an indigenous South Asian term. Like Italian mobsters, the South Asian "gangster politicians" are known for inflicting brutal violence while simultaneously upholding vigilante justice—inspiring fear and fantasy. But the term also refers to the diffuse spheres of crime, business, and politics operating within a shadow world that is popularly referred to as the rule of the

mafia, or "Mafia Raj." Through intimate stories of the lives of powerful and aspiring bosses in India, Pakistan, and Bangladesh, this book illustrates their personal struggles for sovereignty as they climb the ladder of success.

Ethnographically tracing the particularities of the South Asian case, the authors theorize what they call "the art of bossing," providing nuanced ideas about crime, corruption, and the lure of the strongman across the world.
