IB Business Management Course Book 2014 edition

IB Biology Course Book

Oxford Ib Diploma Programme

For the Ib Diploma

Developed for the 2007 course outline. This study guide for the IB Diploma Physics exam was expertly written by a chief examiner and covers all the Core and Optional materials at both Standard and Higher level. Highly illustrated, this guide contains clear, concise review of processes, terms and concepts, with practice exercises modeled on exam question types. This guide is perfect as both a study aide for coursework and as a review guide for the IB examination.

IB Physics Course Book for the IB Diploma OUP Oxford

Build confident critical thinkers who can process and articulate complex ideas in relevant, real-life contexts. The enquiry-based approach actively drives independent thought and helps learners connect ideas and frameworks while pushing them above and beyond typical TOK boundaries. Completely mapped to the new 2013 syllabus.

The College Physics for AP(R) Courses text is designed to engage students in their exploration of physics and help them apply these concepts to the Advanced Placement(R) test. This book is Learning List-approved for AP(R) Physics courses. The text and images in this book are grayscale.

This comprehensive and engaging text, developed in cooperation with the IB, follows the new curriculum for first assessment in 2022. With accessible, engaging lessons students will actively relate economics to real-world issues and the global economy. The international examples and case studies encourage students to analyse economics in terms of present-day challenges and concerns. Conceptual links are provided to help students

understand the over-arching big questions that relate economics to the multi-faceted challenges of the world economy including how it works and changes over time. Through inquiry-based tasks and links to TOK and ATL activities students will gain a deep understanding of economics. Practice activities will develop the skills required to succeed in the IB assessment including exam-style questions and data response questions. Clear explanations will help students achieve assessment success. About the Series: Oxford's IB Diploma Course Books are essential resource materials designed in cooperation with the IB to provide students with extra support through their IB studies. Course Books provide advice and guidance on specific course assessment requirements, mirroring the IB philosophy and providing opportunities for critical thinking.

Mathematics – Analysis and Approaches

Comprehensively updated for the latest syllabus, for first teaching September 2017, and developed directly with the IB, the second edition of this popular Psychology Course Book provides thorough coverage of all core and optional units at Standard and Higher Level, as well as assessment preparation support. Engaging, full-colour activities and in-depth, international case studies bring the theory to life, while structured opportunities for critical thinking and concept-based learning help to develop enquiring and independent learners. Clear and accessible language, a robust reference section, support for the Internal Assessment and TOK links ensure that all learners progress through the DP Psychology course with confidence.

Following an approach that supports the new 2007 syllabus (to be first examined in 2009) and including the wider aims of the IB this book makes connections to TOK, international-mindedness and the IB learner profile. It has been written by a former chief examiner for IB Diploma Programme Physics and has been extensively reviewed by teachers, consultants and the IB. With features and activities that encourage active learning and critical thinking, students will find this book stimulating and engaging.

Equipping teachers and learners to succeed in Global Politics from day 1, this student Course Book has been developed directly with the IB. Helping to develop politically engaged learners who can think critically about the changing 21st Century world, you can rely on it providing the most comprehensive coverage of this subject. Embracing a truly concept-based approach, fully in line with the syllabus, and structured around the central theme of People, Power and Politics, it ensures learners develop critical understanding of big picture political issues, problems and solutions. Fully cover the syllabus - written by syllabus developer and UNESCO Chair in Human and Cultural Rights Max Kirsch and developed directly with the IB Adopt a fully concept-based approach - the truly concept-based structure drives trans-disciplinary understanding Build critical thought - student-centered activities drive exploration and analysis Relate politics to the real world - a rich base of current, engaging case-studies ensures subject material is immediately relevant to learners own experiences Equip learners for assessment - assessment support directly from the IB accurately prepares students to achieve in exams

Directly linked to Oxford's bestselling DP Science resources, this new Course Preparation resource thoroughly prepares students to meet the demands of IB Diploma Programme Physics. Ideal for students who have studied non-IB courses at pre-16 level, the text introduces learners to the IB approach, terminology and skills.
