"Simply wonderful." —Los Angeles Times Acclaimed writer Julia Alvarez's brilliant and buoyant and beloved first novel gives voice to four sisters recounting their adventures growing up in two cultures. Selected as a Notable Book by both the New York Times and the American Library Association, it won the PEN Oakland/Josephine Miles Award for books with a multicultural perspective and was chosen by New York librarians as one of twenty-one classics for the twenty-first century. Ms. Alvarez was recently honored with the 2013 National Medal of Arts for her extraordinary storytelling. In this debut novel, the García sisters—Carla, Sandra, Yolanda, and Sofía—and their family must flee their home in the Dominican Republic after their father's role in an attempt to overthrow a tyrannical dictator is discovered. They arrive in New York City in 1960 to a life far removed from their existence in the Caribbean. In the wild and wondrous and not always welcoming U.S.A., their parents try to hold on to their old ways, but the girls try find new lives: by forgetting their Spanish, by straightening their hair and wearing fringed bell bottoms. For them, it is at once liberating and excruciating to be caught between the old world and the new. How the García Girls Lost Their Accents sets the sisters free to tell their most intimate stories about how they came to be at home—and not at home—in America. "A joy to read." —The Cleveland Plain Dealer

Pioneering in the comparison of standard language teaching in Europe, the International Mother tongue Education Network (IMEN) in the last twenty-five years stimulated experts from more than fifteen European countries to participate in a range of research projects in this field of qualitative educational analyses. The volume "Research on mother tongue

education in a comparative international perspective – Theoretical and methodological issues” documents theoretical principals and methodological developments that during the last decades shaped IMEN research and may enlarge the fundamentals of comparative qualitative research in language education in a seminal way. The topics of this volume include: • IMEN’s aims, points of departure, history and methodology; • research on the professional practical knowledge of MTE-teachers; • innovation, key incident analysis and international triangulation; • positioning in theory and practice. Also included: the IMEN bibliography 1984-2004 which supplies a complete picture of IMEN research activities from the beginning.

Ego Identity: A Handbook for Psychosocial Research contains an integrated presentation of identity theory, literature reviews covering the hundreds of research studies on identity, a discussion of the techniques of interviewing for psychosocial constructs, and model Identity Status Interviews and scoring manuals for three age groups: early- and middle-adolescence, the college years and adulthood. Special attention is devoted to questions of the personality and social patterns associated with differing approaches to the task of identity formation, the processes and patterns of identity development, and the similarities and differences with which females and males form their sense of identity. Theory and research on Erikson's concept of intimacy is presented, including the Intimacy Status Interview and scoring manual. This handbook is also designed to serve as a model for those interested in developing and using interview techniques for any of the other Eriksonian stages of psychosocial development. This book is ideal for researchers of ego identity and intimacy, practitioners and graduate students in developmental, personality, and social psychology as well as to psychiatrists.

This new edition addresses sustainability and spirituality as the core of holistic learning, and the teaching activities provide context and processes for writing that encourage activating multiple intelligences. It also has a cross-disciplinary quality and could be used in a number of educational settings.

What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors

- *Give a comprehensive explanation of why EQs are so important;*
- *Explore seven defining characteristics of EQs;*
- *Distinguish between topical and overarching questions and their uses;*
- *Outline the rationale for using EQs as the focal point in creating units of study; and*
- *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions. Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.*

Even students capable of writing excellent essays still find their first major political science research paper an intimidating experience. Crafting the right research question, finding good sources, properly summarizing them, operationalizing concepts and designing good tests for their hypotheses, presenting and analyzing quantitative as well as qualitative data are all tough-going without a great deal of guidance and encouragement. Writing a Research Paper in Political Science breaks down the research paper into its constituent parts and shows students what they need to do at each stage to successfully complete each component until the paper is finished. Practical summaries, recipes for success, worksheets, exercises, and a host of handy checklists make this a must-have supplement for any writing-intensive political science course. New to the Fourth Edition: A non-causal research paper woven throughout the text offers explicit advice to guide students through the research and writing process. Updated and more detailed discussions of plagiarism, paraphrases, "drop-ins," and "transcripts" help to prevent students from misusing sources in a constantly changing digital age. A more detailed discussion of "fake news" and disinformation shows students how to evaluate and choose high quality sources, as well as how to protect oneself from being fooled by bad sources.

Additional guidance for writing abstracts and creating presentations helps students to understand the logic behind abstracts and prepares students for presentations in the classroom, at a conference, and beyond. A greater emphasis on the value of qualitative research provides students with additional instruction on how to do it. Literacy researchers interested in how specific sites of learning situate students, the ways they make sense of their worlds are asking new questions and thinking in new ways about how time and space operate as contextual dimensions in the learning lives of students, teachers, and families. These investigations inform research questions related to history, identity, methodology, in-school and out-of school spaces, and local/global literacies. An engaging blend of methodological, theoretical, and empirical work featuring well-known researchers on the topic, this book provides a conceptual framework for extending existing conceptions of context and provides unique and ground-breaking examples of empirical research.

Reflections on Language Teacher Identity Research is the first book to present research understandings of language teacher identity (LTI) from a broad range of research fields. Drawing on their personal research experience, 41 contributors locate LTI within their area of expertise by considering their conceptual understanding of LTI and the methodological approaches used to investigate it. The chapters are narrative in nature and take the form of guided reflections within a common chapter structure, with authors embedding their discussions within biographical accounts

their professional lives and research work. Authors weave discussions of LTI into their own research biographies, employing a personal reflective style. This book looks to future directions in LTI research, with suggestions for research topics and methodological approaches. This is an ideal resource for students and researchers interested in language teacher identity as well as language teaching and research more generally.

This book is about how genres affect the ways students understand and engage with their disciplines, offering a fresh approach to genre by using affordances as a key aspect in exploring the work of first year undergraduates who were given the task of reworking an essay by using a different genre.

Working within a social semiotic frame of reference, it uses the notion of genre as a clear, articulated tool for discussing the relationship between knowledge and representation. It provides pedagogical solutions to contentions around 'genres', 'disciplines', 'academic discourses' and their relation to student learning, identity and power, showing that, given the opportunity to work with different genres, students develop new ways of understanding and engaging with their disciplines. Providing a strong argument for why a wider repertoire of genres is desirable at university, this study opens up new possibilities for student writing, learning and assessment. It will appeal to teachers, subject specialists, researchers and postgraduates interested in higher education studies, academic literacies, writing in the disciplines and applied linguistics.

This engaging text shows students what markers look for in their work and helps them to develop the

skills they need to produce a first-class essay. It focuses on all the core elements of effective essay writing, including devising a question, critical thinking, engaging with the literature and structuring an essay. Chapters include clear and concise guidance on meeting marking criteria, illustrated with real students' essays from a range of disciplines, and activities which encourage students to put their new skills into practice. This is an essential resource for all university students for whom essays and coursework form part of their assessment. It is also ideal for further education students and those preparing for university-level study.

Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

Global and cosmopolitan since the late nineteenth century, anglophone South Asian women's writing has flourished in many genres and locations, encompassing diverse works linked by issues of language, geography, history, culture, gender, and literary tradition. Whether writing in the homeland or in the diaspora, authors offer representations of social struggle and inequality while articulating possibilities for resistance. In this volume experienced instructors attend to the style and aesthetics of the texts as well as provide necessary background for students. Essays address historical and political contexts, including colonialism, partition, migration, ecological concerns, and evolving gender roles, and consider both traditional and contemporary genres such as graphic novels, chick lit, and Instapoetry. Presenting ideas for courses in Asian studies, women's studies, postcolonial literature, and world literature, this book asks broadly what it means to study anglophone South Asian women's writing in the United States, in Asia, and around the world.

The dialogue has disappeared as a mode of writing philosophy, and philosophers who study Plato today often ignore the form in which Plato's work appears in favor of reconstructing and analyzing arguments thought to be conveyed by the content of the dialogues. A distinguished classicist here offers an approach to understanding Plato that tries to do full justice to the form of Platonic philosophy, appreciated against the background of Greek literature and history, while also giving proper due to the important philosophic content of the dialogues. The book deals in turn with Plato's relation to and portraits of Socrates, the literary and philosophical character of the dialogues (including the problems of interpreting a philosopher who never speaks in his own name), and the modes of argumentation employed in the dialogues as well as some of their major

themes.

Writers of creative non-fiction are often expected to be able to recreate reality, to

deal with, or even access, a singular truth. But the author, like any human, is not an automaton remotely tasked with capturing a life or an event. Whether we tell stories and understand them as fiction or non-fiction, or whether we draw away from these classifications, writers craft and shape writing all writing. No experience exists on a flat plane, and recounting or interpreting events will always involve some element of artistic manipulation: every instance, exchange, discussion, event is open to multiple interpretations and can be described in many ways, all of which are potentially truthful. Writing Creative Non-Fiction: Determining the Form contains essays and original writing from novelists, poets, songwriters, musicians and academics. The book covers topics that range from explorations of the role of the author, definitions and representations of the form, self and illness, to the spectral elements of non-fiction and its role in historical narratives. The essays included in this volume address everything from memoir, biography and autobiography to a discussion of musical approaches to criticism and a non/fiction interview. The book identifies key writers including Christopher Isherwood, David Shields, B. S. Jonson, James Frey, Åsne Seierstad, John D'Agata, W. G. Sebald, Jonathan Coe, Hilary Mantel, James Kelman, Liz Lochhead and Arthur Frank and is essential reading for students, researchers and writers of creative non-fiction. For scholars interested in the intersection of writing and online instruction, *Writing in Online Courses: How the Online Environment Shapes Writing and Practice* examines both the theoretical and practical implications of writing in online courses. The essays in this collection reflect upon what the authors have learned about the synergistic way that writing helps to shape online instruction and how online instruction helps to shape the writing process. From the vantage point of different disciplines, the authors examine how the writing process is revealed and changed when it is placed at the center of an online learning environment. These scholars and practitioners attest to the multiple ways that teaching online has enabled them to rethink how writing functions in their classes, allowing them to pursue educational goals and student outcomes that may have been more difficult or even impossible to pursue in the traditional classroom. Perfect for courses in: *Writing and Emerging Technologies, English Online, Topics in Composition and Rhetoric, Approaches to Teaching Writing, Technology in the Classroom, Educational Technology for Teaching and Learning, Foundations of Distance Education, Composition Theory, Introduction to Rhetoric and Composition, Writing and the Teaching of Writing.*

Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, *College Essay Essentials* is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.
