"A crossword dictionary with all the words solvers need and none of the ones they do not need! When it comes to puzzle dictionaries, it is the quality of what's inside that counts. Who needs a plethora of synonyms that never appear in an actual crossword? So, authors Kevin McCann and Mark Diehl analyzed thousands of crosswords to amass an up-to-date list of words that regularly turn up in today's top puzzles. To make the dictionary even easier to use, the most popular answers stand out in easy-to-see red, while charts highlight frequently sought-after information such as Oscar winners and Popes' names. Crossword fans will keep this right next to their favorite puzzles!"--Publisher's description.

Police officer Laura Langley's objective was clear: pose as art appraiser Ruby O'Toole and infiltrate suspected drug kingpin Joseph Merrill's organization. Yet thoughts of another man consumed her day and night. Joseph's mysterious employee Michael Corsi had a sensual stare that made Laura forget her purpose, his magnetism threatening her guarded heart. With the undercover investigation at stake, Laura had to resist the desire Michael awakened in her. Because she knew how deadly falling for a man who might be on the wrong side of the law could be. Then she discovered that she wasn't the only one masquerading. But with their covers nearly blown, would their passion survive another night?

Differentiating Instruction With Menus offers teachers everything they need to create a student-centered learning environment based on choice. Addressing the four main subject areas (language arts, math, science, and social studies) and the major concepts taught within these areas, these books provide a number of different types of menus that elementary-aged students can use to select exciting products that they will develop so teachers can assess what has been learned—instead of using a traditional worksheet format. Each book contains attractive reproducible menus, each based on the levels of Bloom's revised taxonomy, for students to use to guide them in making decisions as to which products they will develop after studying a major concept or unit. Using creative and challenging choices found in Tic-Tac-Toe Menus, List Menus, 2-5-8 Menus, Baseball Menus, and Game Show Menus, students will look forward to sharing their newfound knowledge throughout the year. Also included are specific guidelines for products, rubrics for assessing student products, and teacher introduction pages for each menu. This book includes menus that teach students about physical science, earth science, and scientists and the tools they use.
