Il Cavallo Di Troia

Italian music of the 1960s is one of the most unjustly neglected areas in the arena of twentieth-century classical music. This volume pays tribute to the astounding complexity of the music and libretti of five vocal compositions by leading experimental composers of the decade: Luigi Dallapiccola, Bruno Maderna, Luciano Berio, Giacomo Manzoni, and Armando Gentilucci. It highlights how the 'difficult' and unconventional methods of

*composition employed by these artists --
dodecaphony, total serialism, Webernian
minimalist techniques, aleatory and
electronic music -- displayed a refusal to
compete with the market-place values of
Italy's new capitalist society. At the
same time, the libretti's collage
arrangement of a plethora of European and
Oriental literary sources dating from the
sixteenth century BC onwards, reflected
the contemporary Neo-avant-garde rejection
of conventional literary practice, and
their preference for 'organised disorder',*

in Umberto Eco's phrase.

Using in-depth field research and analysis of case studies, Mafia Violence: Political, Symbolic, and Economic Forms of Violence in Camorra Clans focuses attention on the phenomenon of violence performed by Italian organised crime groups, devoting specific attention to the Camorra, which has been responsible since the mid-1980s for almost half of all mafia homicides documented in Italy. The Camorra has acquired increased visibility at an international level due to its intense use of violence and high level of dangerousness, but until now, the study of the different forms of violence

implemented by mafias has not received systematic attention at the scientific level. Hence, this book fills this gap by providing a both theoretical and empirical contribution toward the analysis of one of the most unknown – although highly visible and dangerous – dimension of mafias' action. This collection of work by distinguished scholars provides a unique overview of the multifaceted characteristics of violence currently performed by mafia groups in Italy by focusing on specific actors – i.e., Camorra clans – but also other traditional mafia organisations such as Cosa Nostra

and 'Ndrangheta; specific contexts – i.e., different territories and different markets, both legal and illegal; and specific practices and performances. Part I takes a diachronic and comparative perspective to provide an overview of mafias' violence during the past 30 years, focusing on the three most prominent criminal organisations active in Italy: Camorra, Cosa Nostra, and 'Ndrangheta. Based on the outcomes of a major project carried out by a research group at the University of Naples Federico II from 2015 to 2017, Part II looks at the use of violence by Camorra clans, incorporating

information from case studies, judicial files, law enforcement investigations, wiretappings, interviews with privileged observers, firsthand empirical data, and historical documents and social sciences literature. Using a multi-disciplinary approach drawing from criminology, sociology, history, anthropology, economics, political science, and geography, this book is essential reading for international researchers and practitioners interested in piecing together the full picture of modern organised crime.

From this imposing source, Thomas A. Pallen has

created a compendium of theatrical references augmented by related modern Italian scholarship. Vasari's Lives - daunting because of its sheer magnitude - has remained relatively obscure to English-speaking theatre historians.

This book compares the Italian Fascist and the Spanish Falangist political cultures from the early 1930s to the early 1940s, using the idea of the nation as the focus of the comparison. It argues that the discourse on the nation represented a common denominator between these two manifestations of the fascist phenomenon in

Mussolini's Italy and Franco's Spain. Exploring the similarities and differences between these two political cultures, this study investigates how Fascist and Falangist ideologues defined and developed their own idea of the nation over time to legitimise their power within their respective countries. It examines to what extent their concept of the nation influenced Italian and Spanish domestic and foreign policies. The book offers a four-level framework for understanding the evolution of the fascist idea of the nation: the ideology of the nation, the imperial projects of

Fascism and Falangism, race and the nation, and
the place of these cultures in the new Nazi
continental order. In doing so, it shows how these
ideas of the nation had significant repercussions on
fascist political practice.

Il cavallo di Troia
This book addresses perhaps the most famous

episode in Classical mythology: the Wooden Horse of Troy. Through analysis of words, images and wrecks, the author proposes a new interpretation of what Homer actually intended when he spoke of the 'hippos' used by the Greeks to conquer Troy: a particular ship type, used to pay tribute to Levantine kings.

Although Morrison, Doctorow, and Tabucchi vary in their stylisitic responses to these changes, their narratives propose a collective recovery of the past into a future-oriented present and serve as examples of how literature can intervene in history, rather than

merely reflecting and acquiescing to it.

Bruno Maderna, one of the most influential composers in the 20th century and a formidable conductor, was the oldest of a notable group of Italian composers who began their careers shortly before the Second World War. Many details of this biography are based on his correspondences and reports of his engagements across the world.

Die 'alternativen' Fassungen des trojanischen Mythos von Dictys und Dares gehören zu den interessantesten und zugleich rätselhaftesten Werken der Spätantike. Dennoch erhalten sie erst seit Kurzem die ihnen gebührende Aufmerksamkeit, und viele Fragen sind noch immer

ungelöst. Dies ist eines der ersten Bücher, das sich auf die
Beiträge verschiedener Gelehrter stützt, um die
Themengebiete in all ihren verschiedenen Facetten
umfassend zu behandeln, angefangen mit der heiklen Frage
nach den (wahren oder angeblichen) griechischen
Modellen, hin zum kulturellen Kontext, der erwarteten
Zielgruppe, Intertextualität, strukturellen Mustern, der
Erzähltechnik, Themen, Charakteren, Zielen, bis zu Stil

Werke.****************The 'alternative' rewritings of the
Trojan myth by Dictys and Dares are among the most

interesting and mysterious works of Late Antiquity: yet it is only recently that they have started getting due attention, and many issues about them still remain unsolved. This is one of the first books that relies on contributions by several scholars to comprehensively cover this subject in its various aspects, from the delicate question of (true or supposed) Greek models to cultural context, expected audience, intertextuality, structural patterns, narrative technique, themes, characters, aims, up to style and language. What emerges is a fuller and partly new view of the two works. The Greek and Roman novels can be seen as an important transitional moment in the trajectory from performance to

reading, from oralism to textuality, that has underpinned the history of discourse in European consciousness since the 5th century BC. In different and intriguing ways, they explore the contrast, tension, conflict, competition or dialogue between modes of discourse, which frame the novel's concern with identity and self-fashioning, as well as advertising innovation more generally. This volume brings together an international group of scholars interested in ancient and modern constructions of orality and writing and how they are reflected and manipulated in the ancient novel. The essays deal not only with questions of genre, oral poetics and traditions, but also with how various ways of pitting or

collapsing modes of representation can become loaded
articulations of wider world-views, of cultural, literary,
epistemological anxieties and aspirations. The contributors
focus in particular on issues surrounding theatricality,
gender identity, rhetorical performance, epistolarity,
monumentality and power in the ancient novel.

Nel 1200 a.C. una città d'oro si ergeva all'ingresso dello stretto dei Dardanelli, tra l'ambra dei campi di grano, in bella vista su una pericolosa linea di sangue che divideva due imperi rivali. Troia 'la ventosa' sorgeva proprio lì, sull'unico punto di passaggio tra il mar Egeo e il mar Nero. Quella posizione strategica era tutta la sua ricchezza e tutta la sua sciagura. Con il passo del romanzo, Barry Strauss racconta il conflitto più famoso della storia, la guerra immortale che

ci accompagna da sempre.

Presented here for the first time in English is a remarkable screenplay about the apostle Paul by Pier Paolo Pasolini,

legendary filmmaker, novelist, poet, and radical intellectual activist. Written between the appearance of his renowned film Teorema and the shocking, controversial Salò, or the 12O Days of Sodom, St Paul was deemed too risky for investors. At once a political intervention and cinematic breakthrough, the script forces a revolutionary transformation on the contemporary legacy of Paul. In Pasolini's kaleidoscope, we encounter fascistic movements, resistance fighters, and faltering revolutions, each of which reflects on aspects of the Pauline teachings. From Jerusalem to Wall Street and Greenwich Village, from the rise of SS troops to the death of Martin Luther King, Jr, here—as Alain Badiou writes in the foreword—'Paul's text crosses all these circumstances intact, as if it had foreseen them all'. This is a key addition to the growing debate around

St Paul and to the proliferation of literature centred on the current turn to religion in philosophy and critical theory, which embraces contemporary figures such as Alain Badiou, Slavoj Žižek and Giorgio Agamben.

It's a familiar story: a beautiful woman is abducted and her husband journeys to recover her. This story's best-known incarnation is also a central Greek myth—the abduction of Helen that led to the Trojan War. Stealing Helen surveys a vast range of folktales and texts exhibiting the story pattern of the abducted beautiful wife and makes a detailed comparison with the Helen of Troy myth. Lowell Edmunds shows that certain Sanskrit, Welsh, and Old Irish texts suggest there was an Indo-European story of the abducted wife before the Helen myth of the Iliad became known. Investigating Helen's status in ancient

Greek sources, Edmunds argues that if Helen was just one trope of the abducted wife, the quest for Helen's origin in Spartan cult can be abandoned, as can the quest for an Indo-European goddess who grew into the Helen myth. He explains that Helen was not a divine essence but a narrative figure that could replicate itself as needed, at various times or places in ancient Greece. Edmunds recovers some of these narrative Helens, such as those of the Pythagoreans and of Simon Magus, which then inspired the Helens of the Faust legend and Goethe. Stealing Helen offers a detailed critique of prevailing views behind the "real" Helen and presents an eye-opening exploration of the many sources for this international mythical and literary icon.
