The Coming of the Book

This volume explores how linguistic research can

Online Library Il Cinese Per Gli Italiani

support the teaching and learning of Chinese as a second language. It responds to a rapidly growing interest in the Chinese language all over the world, and answers the

Online Library Il Cinese Per Gli Italiani

need for a strong research background for the discipline. Without that, Chinese language learning remains only a unique experience and/or a useful education challenge. The

Online Library Il Cinese Per Gli Italiani

first section explores crucial issues about the structure and use of Chinese as a Second Language such as word-order, noun-noun compounds, meaning-making in writing,

Online Library Il Cinese Per Gli Italiani

pronunciation and stress and tone. The second section explores the learning of Chinese by seeking answer to questions about difficulties, expectations, beliefs, use of corpus and

Online Library Il Cinese Per Gli Italiani

learning how to express necessity. The authors coming from eight different countries demonstrate how existing knowledge has been generated, bring together different lines of research,

Online Library Il Cinese Per Gli Italiani

point out tendencies in the field, demonstrate and explain what tools and methods researchers can use to address major issues in the field, and give direction to what future research

should focus on.

Linguistic research and language teaching have generally been viewed as two separate types of academic endeavor. While linguists have been preoccupied with

pattern finding and theory building, language teachers often encounter issues that are not readily addressed by theoretical linguistic research. This collection, with eleven papers touching

Online Library Il Cinese Per Gli Italiani

upon a wide range of issues, stands out as one of the rare concerted efforts toward a meaningful integration of the two endeavors. Subject matters include tone, stress, word structure, grammatical

Online Library Il Cinese Per Gli Italiani

categories (e.g. classifiers), syntactic structures (including argument structure), discourse particles, implicit and explicit knowledge, conversational repair, and

learner corpus. With a diverse range of theoretical orientations, this collection serves to showcase some of the productive ways to create synergy between Chinese linguistic research

Online Library Il Cinese Per Gli Italiani

and language education. Conversational Chinese Dialogues is packed with over 100 dialogues in Chinese with both pinyin and English translations which makes this an excellent

immersion tool for Chinese (Mandarin) language learners.

Books, and the printed word more generally, are aspects of modern life that are all too

Online Library Il Cinese Per Gli Italiani

often taken for granted. Yet the emergence of the book was a process of immense historical importance and heralded the dawning of the epoch of modernity. In this much praised history of that

process, Lucien Febvre and Henri-Jean Martin mesh together economic and technological history, sociology and anthropology, as well as the study of modes of consciousness, to root the

Officially censored upon its Chinese publication, and the subject of a bitter lawsuit

blood-selling ring in contemporary China. Based on a real-life blood-selling scandal in eastern China, Dream of Ding Village is the result of three years of undercover work by Yan Lianke, who worked as an

Online Library Il Cinese Per Gli Italiani

assistant to a well-known Beijing anthropologist in an effort to study a small village decimated by HIV/AIDS as a result of unregulated blood selling. Whole villages were wiped out with no responsibility taken or

Relationships fall apart, marriages fail, couples break up – it happens to us all. Time corrodes passion and the routines of daily life kill the excitement that surrounds the emotion of the first encounter. The difficulty

Online Library Il Cinese Per Gli Italiani

of uniting sexual pleasure with love, which Freud considered to be the most common neurosis in any love life, has become emblematic of a truth that seems undeniable: desire is destined to die if its object is not constantly renewed, if we do not change partner,

Online Library Il Cinese Per Gli Italiani

if it is closed for too long in the restrictive chamber of the same bond. And yet what happens to these bonds when one of the two partners betrays the other, when the promise fails, when there is another emotional experience cloaked in secrecy and

Online Library Il Cinese Per Gli Italiani

deceit? What happens if the traitor then begs forgiveness? Are they asking to be loved again and, having declared that it is not like it used to be, now want everything to go back to how it was? Should we make fun of lovers in their attempts to make love last? Or

Online Library Il Cinese Per Gli Italiani

should we try to face up to the experience of betrayal, with the offence caused by the person we love most? Should we not perhaps attempt to praise forgiveness in love?

Learning Chinese can be frustrating and difficult, partly because it's very different from

Online Library Il Cinese Per Gli Italiani

European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them!

Online Library II Chinese Per Gli Italiani

Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own,

Online Library Il Cinese Per Gli Italiani

you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn

Online Library Il Cinese Per Gli Italiani

characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn

Online Library Il Cinese Per Gli Italiani

successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning,

Online Library Il Cinese Per Gli Italiani

researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and

Online Library Il Cinese Per Gli Italiani

independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by

Online Library Il Cinese Per Gli Italiani

watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning

Online Library Il Cinese Per Gli Italiani

yourself. This is what a few readers have said about the book: "The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in

my study." - Geoff van der Meer,
