

Il Mare Di Am Storie Di Una Famiglia Che Cambia Nel Mare Della Vita

The emergence of new and substantial human migration flows is one of the most important consequences of globalisation. While ascribable to widely differing social and economic causes, from the forced migration of refugees to upper-middle-class migration projects and the movement of highly skilled workers, what they have in common is the effect of contributing to a substantial global redefinition in terms of both identity and politics. This book contains contributions from scholars in the fields of law, social sciences, the sciences, and the liberal arts, brought together to delineate the features of the migration phenomena that will accompany us over the coming decades. The focus is on the multifaceted concept of 'border' as representing a useful stratagem for dealing with a topic like migration that requires analysis from several perspectives. The authors discuss the various factors and issues which must be understood in all their complexity so that they can be governed by all social stakeholders, free of manipulation and false consciousness. They bring an interdisciplinary and comparative perspective to the social phenomena such as human trafficking, unaccompanied foreign minors, or ethnic-based niches in the job market. The book will be a valuable guide for academics, students and policy-makers.

Originally published in 1982, this title supplies a complete verbal index, listing all the words in the texts with their locations, a word frequency table, and a field of reference which establishes a page/line reference system for locating each context. The user will look first in the word frequency table to see whether or not the word in question occurs in these works. Then they will turn to the verbal index to find the line and page on which it occurs, and finally, turning to the location in the field of reference, they will find the context for their word.

It has often been assumed that Europeans invented and had the exclusive monopoly over courtly and romantic love, commonly considered to be the highest form of relations between men and women. This view was particularly prevalent between 1770 and the mid-twentieth century, but was challenged in the 1960s when romantic love came to be seen as a universal sentiment that can be found in all cultures in the world. However, there remains the historical problem that the Europeans used this concept of love as a fundamental part of their self-image over a long period (traces of it still remain) and it became very much caught up in the concept of marriage. This book challenges the underlying Eurocentrism of this notion while exploring in a more general sense the connection between identity and emotions.

Microfossils are an abundant component of the sedimentary rock record. Their analysis can reveal not only the environments in which the rocks were deposited, but also their age. When combined, the spatial and temporal distribution patterns of microfossils offer enormous utility for archaeological and forensic investigations. Their presence can act as a geological 'fingerprint' and the tiniest fragment of material, such as a broken Iron Age potsherd, can contain a microfossil signature that reveals the geographical source of the materials under investigation. This book explores how microfossils are employed as tools to interpret human society and habitation throughout history. Examples include microfossil evidence associated with Palaeolithic human occupation at Boxgrove in Sussex, alongside investigations into human-induced landscape change during the Holocene. Further examples include the use of microfossils to provenance the source materials of Iron Age ceramics, Roman mosaics and Minoan pottery, in addition to their application to help solve modern murder cases, highlighting the diverse applications of microfossils to improving our understanding of human history.

Calvino and the Pygmalion Paradigm: Fashioning the Feminine in I nostri antenati and Gli amori difficili is the first book-length analysis of the representation of the feminine in Calvino's fiction. Using the structural umbrella of the Pygmalion paradigm and using feminist interpretative techniques, this book offers interesting alternative readings of two of Calvino's important early narrative collections. The Pygmalion paradigm concerns the creation by a male 'artist' of a feminine ideal and highlights the artificiality and narcissistic desire associated with the creation process. This book discusses Calvino's active and deliberate work of self-creation, accomplished through extensive self-commentaries and exposes both the lack of importance Calvino placed on the feminine in his narratives and the relative absence of critical attention focused on this area. Relying on the analogy between Pygmalion's pieces of ivory

and Barthes' 'seme' and drawing upon the ideas underlying Kristevan intertextuality, the book demonstrates that, despite Calvino's professed lack of interest in character development, his female characters are carefully and purposefully constructed. A close reading of Calvino's narratives, engaging directly with Freud, Lacan and the feminist psychoanalytical thinking of Kofmann, Kristeva, Kaplan and others, demonstrates how Calvino uses his female characters as foils for the existential reflections of his typically maladjusted and narcissistic male characters.

Wide-ranging stories offer glimpse into witchcraft, magic, Crusaders, astrology, alchemy, pacts with the Devil, chivalry, trial by torture, church councils, mercantile life, other elements of Middle Ages.

My book is not an ordinary story. It is the life story of an exceptional young artist that was born in the same area of Tuscany, Italy that gave birth to Leonardo da Vinci of Mona Lisa fame, Michelangelo of the David and the Sistine Chapel ceiling and Giacomo Puccini of La Boheme and Tosca. The young Artist Sculptor, full of art, music, love and great expectations, goes to give his love and skill in a different land with different culture and different people – the British. The young artist is a genius, but he is not understood by the people he meets. He sees things, he experiences things and he tells them. The reader should suffer what he has suffered. And only because he was not living in the land of his birth he was treated as a foreigner even after fifty years.

Carretera. Quattordici storie strada facendo

Le quattordici storie raccolte in Carretera, ambientate in mondi e culture geograficamente lontani, hanno un denominatore comune: il cammino. Il cammino, e quindi la strada, come topos, teatro di situazioni reali, ma anche metafora di un passaggio, di una svolta: in entrambi i casi, l'uomo che li ha attraversati non è più la stessa persona che ha iniziato quel cammino. È in viaggio che avviene il grottesco addio al celibato in Kattenkabinet, e strada facendo prende corpo la curiosità, innocente e un po' ridicola, della coppia di provincia di Christmas Miracle. La strada è il mare dei clandestini di Mare Nostrum e la lussuosa nave del protagonista del Compleanno del Faraone. La strada è il parco dove rintrona la fantasticità di Compagno di merenda, e l'ospedale nel quale la protagonista di Abracadabra s'imbatte in una sanità bulimica e surreale. Sulla strada s'incrociano le vicende dei personaggi di Conosci il Paese dove fioriscono i limoni? e lungo la via Vanni prende coscienza della tragedia che il suo Paese sta vivendo. Uomini e donne di ogni età e condizione sulla carretera, percorrendo un cammino personale e collettivo che si perpetua all'infinito. Carretera è anche il nome della storia ambientata in Sudamerica che dà il titolo alla raccolta.

This second volume of Italian Short Stories, with its parallel translations aims - as the first volume did - to exemplify the richness and variety of Italian writing of the twentieth century. In this volume, however, some of the language used is a little more advanced and the translations slightly less literal. Moravia and Calvino, both well known to British and American readers, appear again along with Italo Svevo, Comisso, Vittorini, Rigoni - Stern, Fenoglio and Pasolini so that the literature of both Rome and the provinces is fully represented. There are also discussions of the less familiar words and dialect expressions in the Italian text.

PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7, 1941 and September 15, 1945. It is designed as a companion reference to the seven-volume history of The Army Air Forces in World War II, edited by Wesley Frank Craven and James Lea Cate. The research was a cooperative endeavor carried out in the United States Air Force historical research center by the Research Branch of the Albert F. Simpson Historical Research Center. Such an effort has demanded certain changes in established historical methodology, as well as some arbitrary rules for presentation of the results. After International and US events, entries are arranged geographically. They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world, using the location of the headquarters of the numbered air forces as the basis for placement. For this reason, entries concerning the Ninth Air Force operating in the Middle East follow Twelfth Air Force. When that headquarters moves to England in October 1943, the entries are shifted to follow Eighth Air Force. The entries end with those numbered air forces which remained in the Zone of the Interior, as well as units originally activated in the ZI, then designated for later movement overseas, such as Ninth and Tenth Air Forces. The ZI entries do not include Eighth and Twentieth Air Forces, which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified. For these two units, original actions are shown either under AAF or in their intended geographic area of operations. All times and dates used are those of the area under discussion. The entry "1/2 Jun" indicates that an event occurred during the night of June 1 and 2, while "1-2 Jun" indicates an action over a period of time. In dealing with people, again arbitrary decisions were implemented. For military men below the general officer or equivalent level, full grade and name were used. For general officers and those of equal grade in US and foreign services, the complete rank (both that at the time first mentioned and the highest rank held prior to the end of the war) will be found in the index. Only an abbreviated rank (e.g., Gen or Adm) and last name are used in the text. The exception is where two general officers had the same last name; in such cases, the first name is also included. Similarly for civilian leaders, only the last name is used; the rank and title are given in the index. Location of all towns, islands, etc., is also made in the index. In all cases, attempts were made to cite the names used by the native population at the time of or immediately before the war. No names imposed by a conqueror are used. For example Pylos, Navarino Bay, is used. Further, as appropriate, native geographic terms are used: Shima for island in Japanese island groups, See for lak

Germany. However, two exceptions were made. In cases in which the place became infamous because of the actions of the conquering name is preferred-for example Auschwitz would be used rather than the Polish name of Oswiecim. Also, in larger international cities, such as Roma, Koln and Wien, the anglicized name is used. Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area, the coordinates are given in the index. In some cases, with no extant navigational aids of the attacking force-- a logical guess was made based upon all available evidence. In other instances, such as the bridge at Hay-ti-attacked so often by the Force-- a logical guess could not be made. In these cases, a question mark is placed in brackets after the index entry. Accent marks, such as umlauts, were omitted.

Una galleria di personaggi che hanno lasciato una traccia profonda nella storia della città Che Napoli sia «un paradiso abitato da diavoli» è un adagio che dal Medioevo in poi ha goduto di vasta e ampia fortuna. Ai nostri giorni sembra che l'antico detto stia più che mai ravvivandosi, specialmente per il degrado del vivere quotidiano, accompagnato da una sistematica inosservanza delle regole. A fare da contrappunto, la costante volontà di chi ancora vuole testimoniare la nobile e secolare storia della città e farne conoscere i complessi monumentali e gli incanti paesaggistici famosi nel mondo. Questo manuale si propone di raccontare la storia curiosa e insolita di tiranni ed eroi, di miserabili e santi di Napoli così da scoprire la trama intrigante e un poco pettegola della perfetta e potente immagine celestualmente infernale, talvolta burlona e boccaccesca, che la città ha assunto nel corso della sua storia. Una raccolta di agili, curiose e irriverenti biografie dei protagonisti della storia della città, che mostrano come Napoli non sia semplicemente vicoli, strade, palazzi, piazze, mare, ma anche e soprattutto le persone che vivendola le hanno dato vita. Napoli emerge dalle storie di coloro che l'hanno vissuta Tra i personaggi raccontati: • *Abbondanza, Marco. Nemo propheta in patria?* • *Bassolino, Antonio. Il sindaco controverso* • *Caravaggio, Michelangelo Merisi. L'inquietudine creativa* • *Carosone, Renato. 'O Sarracino della canzone napoletana* • *D'Acquisto, Salvo. This book is addressed to “ lovers of paradoxes ” and we have done our utmost to assemble a stellar cast of Neapolitan and American scholars, intellectuals, and artists/writers who are strong and open-minded enough to wrestle with and illuminate the paradoxes through which Naples presents itself. Naples is a mysterious metropolis. Difficult to understand, it is an enigma to outsiders, and also to the Neapolitans themselves. Its very impenetrableness is what makes it so deliriously and irresistibly attractive. The essays attempt to give some hints to the answer of the enigma, without parsing it into neat scholastic formulas. In doing this, the book will be an important means of opening Naples to students, scholars and members of the community at large who are engaged in “ identity-work. ” A primary goal has been to establish a dialogue with leading Neapolitan intellectuals and artists, and, ultimately, ensure that the “ deliriously Neapolitan ” dance continues.

This book analyses the European border at Lampedusa as a metaphor for visible and invisible powers that impinge on relations between Europe and Africa/Asia. Taking an interdisciplinary approach (political, social, cultural, economic and artistic), it explores the island as a place where social relations based around race, gender, sex, age and class are being reproduced and/or subverted. The authors argue that Lampedusa should be understood as a synecdoche for European borders and boundaries. Widening the classical definition of the term ‘ border ’ , the authors examine the different meanings assigned to the term by migrants, the local population, seafarers and associative actors based on their subjective and embodied experiences. They reveal how migration policies, international relations with African, Middle Eastern and Asian countries, and the perpetuation of new forms of colonization and imperialism entail heavy consequences for the European Union. This work will appeal to a wide readership, from scholars of migration, anthropology and sociology, to students of political science, Italian, African and cultural studies.
