*The Fascist regime under Mussolini regarded its youth as its best hope for the future. Young people were courted more assiduously than any other group in the society and their political socialization became a central concern of the government. Believe, Obey, Fight discusses the various tools used by the Fascist regime from 1922 to 1943 to shape the political values and environment of the young. Tracy Koon focuses on the secondary agents of socialization, including the party, the educational establishment, youth groups, and the media of political communication. She shows that the response to this socialization ranged from apparent consent to dissent and finally to open opposition. The regime employed several methods to produce consensus among the young. Koon's analysis begins with a discussion of the rhetorical style of Mussolini's message and the key political myths manipulated by his propaganda machine: fascism as continuing revolution and social justice, the glories of ancient Rome, the hygienic function of war and violence, the religious spirit of the new creed, and the omniscience of the leader. She then describes the pre-Fascist educational system, the "most Fascist" Gentile reforms of 1923, and the later revision of those reforms by zealous party men engaged in the Fascist regimentation of teachers and students and the militarization and politicization of curricula and textbooks. Equally important agents of socialization were the Fascist groups organized for young people from their earliest years through the university level, including the annual national competitions and forums in which members could express their ideas on a range of issues. The regime provided physical, military, sports, and political training to strengthen the new Fascist society. Fascist socialization did for a time create a superficial consensus by appealing to both the love of conformity that marks the very young and the economic fears that caused students to conform in the hope of jobs. But Koon argues that the regime's attempt to exert totalitarian control over the young deprived them of personal identity. As time passed, the contradictions of the regime became clearer, the chasm between Fascist rhetoric and reality more obvious. In the end, the majority of young people came to believe that the regime had given them nothing to believe in, no one to obey, and nothing for which to fight. Originally published in 1985. **This is the first unexpurgated English edition of Curzio Malaparte's legendary work *The Skin*. The book begins in 1943, with Allied forces cementing their grip on the devastated city of Naples. The sometime Fascist and ever-resourceful Curzio Malaparte is working with the Americans as a liaison officer. He looks after Colonel Jack Hamilton, "a Christian gentleman . . . an American in the noblest sense of the word," who speaks French and cites the classics and holds his nose as the two men tour the squalid streets of a city in ruins where liberation is only another word for desperation. Veterans of the disbanded Italian army beg for work. A rare specimen from the city's famous aquarium is served up at a ceremonial dinner for high Allied officers. Prostitution is rampant. The smell of death is everywhere. Subtle, cynical, evasive, manipulative, unnerving, always astonishing, Malaparte is a supreme artist of the unreliable, both the product and the prophet of a world gone rotten to the core.**

**In the summer of 1970 legendary but self-destructive director Orson Welles returned to Hollywood from years of self-imposed exile in Europe and decided it was time to make a comeback movie. Coincidentally it was the story of a legendary self-destructive director who returns to Hollywood from years of self-imposed exile in Europe. Welles swore it wasn't autobiographical. The Other Side of the Wind was supposed to take place during a single day, and Welles planned to shoot it in eight weeks. It took twelve years and remains unreleased and largely unseen. Orson Welles's Last Movie, by Josh Karp is a fast-paced, behind-the-scenes account of the bizarre, hilarious and remarkable making of what has been called "the greatest home movie that no one has ever seen." Funded by the Shah of Iran's brother-in-law, and based on a script that Welles rewrote every night for years, a final attempt to one-up his own best-work. It's almost impossible to tell if art is imitating life or vice versa in the film. It's a production best encompassed by its star, John Huston, who described the making of the film as "an adventure shared by desperate men that finally came to nothing."**

**Sweet, intense, and colorful is how Sicilian pastries will appear to the fortunate eyes seeing them for the first time. Those who have time to get to know them well, however, will also find it sensual, dramatic, and irreverent. Making pastries in Sicily is never a purely gastronomic issue; it may be a declaration of love, social ostentation of personal wealth, or even a way of mocking a defeated enemy. It is a gesture that involves countless intentions, coded and described in stories rooted in the mists of time. This anthology collects some of those stories and the most delicious Sicilian sweets, illustrated by poignant images and accompanied by some personal tips. The scents of childhood and cherished memories are bound together by one certainty: In Sicily, a sweet is never something that is just good to eat. It is a magical microcosm, an ancient tale, a legend that demands to be told.**

**NEW YORK TIMES BESTSELLER • Now a major motion picture directed by Martin Scorsese and starring Leonardo DiCaprio By day he made thousands of dollars a minute. By night he spent it as fast as he could. From the binge that sank a 170-foot motor yacht and ran up a \$700,000 hotel tab, to the wife and kids waiting at home and the fast-talking, hard-partying young stockbrokers who called him king, here, in Jordan Belfort's own words, is the story of the ill-fated genius they called the Wolf of Wall Street. In the 1990s, Belfort became one of the most infamous kingpins in American finance: a brilliant, conniving stock-chopper who led his merry mob on a wild ride out of Wall Street and into a massive office on Long Island. It's an extraordinary story of greed, power, and excess that no one could invent: the tale of an ordinary guy who went from hustling Italian ices to making hundreds of millions—until it all came crashing down. The book aims to introduce a research concept called "Humanities", as one possible attempt to overcome the current scientific, social and institutional crisis of the humanities. Such crisis involves their impact on, and role within, society; their popularity among students and scholars; and their identity as producers and promoters of knowledge. The modern western world and its economic policies have been identified as the strongest cause of such a crisis. Creating the conditions for, but in fact encouraging it. However, a self-critical assessment of the situation is called for. Our primary fault as humanists was that of stubbornly thinking that the world 's changes could never really affect us, as – we felt – our identity was sacred. In the light of these approaches, the main strengths of humanities have been identified in the ability to: promote critical thinking and analytical reasoning; provide knowledge and understanding of democracy and social justice; develop leadership, cultural and ethical values. The main problems of humanities are the lack economic relevance; the socio-institutional perception of them as “ impractical ” and unemployable; the fact that they do not match with technological development. Finally, the resulting crisis consists mainly in the absence (or radical reduction) of funding from institutions; a decrease in student numbers a decrease in interest; a loss of centrality in society. A Humanities (New Humanities) project should consider all these aspects, with self-critical assessment on the first line. The goal is to unify the various fields, approaches and also potentials of the humanities in the context, dynamics and problems of current societies, and in an attempt to overcome the above-described crisis. Humanities are introduced not as a theoretical paradigm, but in terms of an “ umbrella-concept ” that has no specific scientific content in it: that particularly means that the many existing new fields and research trends that are addressing the same problems (post-humanism, transhumanism, transformational humanities, etc.) are not

competitors of Numanities, but rather possible ways to them. Therefore, more than a theoretical program, Numanities intend to pursue a mission, and that is summarized in a seven-point manifesto. In the light of these premises and reflections, the book then proceeds to identify the areas of inquiry that Numanities, in their functions and comprehensive approach, seek to cover. The following list should also be understood as a statement of purposes for this entire book series. These, in other words, will be the topics/areas we intend to represent. Once elaborated on the foundations of Numanities, the book features a second part that presents two case studies based on two relatively recent (and now updated) investigations that the author has performed in the fields of musical and animal studies respectively. The two cases (and relative areas of inquiry) were selected because they were considered particularly relevant within the discussion of Numanities, and in two different ways. In the first case-study the author discussed the most typical result (or perhaps cause?) of the technophobic attitude that was addressed in the first part of the book: the issue of “ authenticity ” , as applied, in the author's particular study, to popular music. In the second case-study, he analyzes two different forms of comparative analysis between human and non-human cognition: like in the former case, this study, too, is aimed at a critical commentary on (what the author considers) redundant biases in current humanistic research – anthropocentrism and speciesism.

Italian poet, novelist, literary critic and translator Cesare Pavese (1908-1950) is generally recognized as one of the most important writers of his period. Between the years 1929 and 1933, Pavese enjoyed a rich correspondence with his Italian American friend, the musician and educator Antonio Chiuminatto (1904-1973). The nature of this correspondence is primarily related to Pavese's thirst to learn about American culture, its latest books, its most significant contemporary writers, as well as its slang. This volume presents an annotated edition of Pavese and Chiuminatto's complete epistolary exchange. Mark Pietralunga's brilliant introduction provides historical and cultural context for the letters and traces Pavese's early development as a leading Americanist and translator. The volume also includes an appendix of Chiuminatto's detailed annotations and thorough explanations of colloquial American terms and slang, drawn from the works of Sinclair Lewis, Sherwood Anderson, and William Faulkner. A lively and illuminating exchange, this collection ultimately corroborates critical opinion that America was the igniting spark of Pavese's literary beginnings as a writer and translator.

In the mold of his acclaimed History of Beauty, renowned cultural critic Umberto Eco ' s On Ugliness is an exploration of the monstrous and the repellent in visual culture and the arts. What is the voyeuristic impulse behind our attraction to the gruesome and the horrible? Where does the magnetic appeal of the sordid and the scandalous come from? Is ugliness also in the eye of the beholder? Eco ' s encyclopedic knowledge and captivating storytelling skills combine in this ingenious study of the Ugly, revealing that what we often shield ourselves from and shun in everyday life is what we ' re most attracted to subliminally. Topics range from Milton ' s Satan to Goethe ' s Mephistopheles; from witchcraft

and medieval torture tactics to martyrs, hermits, and penitents; from lunar births and disemboweled corpses to mythic monsters and sideshow freaks; and from Decadentism and picturesque ugliness to the tacky, kitsch, and camp, and the aesthetics of excess and vice. With abundant examples of painting and sculpture ranging from ancient Greek amphorae to Bosch, Brueghel, and Goya among others, and with quotations from the most celebrated writers and philosophers of each age, this provocative discussion explores in-depth the concepts of evil, depravity, and darkness in art and literature.

M. F. K. Fisher, whom John Updike has called our “poet of the appetites,” here pays tribute to that most enigmatic of ocean creatures, the oyster. As she tells of oysters found in stews, in soups, roasted, baked, fried, prepared à la Rockefeller or au naturel—and of the pearls sometimes found therein—Fisher describes her mother’s joy at encountering oyster loaf in a girls’ dorm in the 1890s, recalls her own initiation into the “strange cold succulence” of raw oysters as a young woman in Marseille and Dijon, and explores both the bivalve’s famed aphrodisiac properties and its equally notorious gut-wrenching powers. Plumbing the “dreadful but exciting” life of the oyster, Fisher invites readers to share in the comforts and delights that this delicate edible evokes, and enchants us along the way with her characteristically wise and witty prose. “Consider the Oyster marks M. F. K. Fisher’s emergence as a storyteller so confident that she can maneuver a reader through a narrative in which recipes enhance instead of interrupt the reader’s attention to the tales. She approaches a recipe as a published dream or wish, and the stories she tells here...are also stories of the pleasures and disillusionments of dreams fulfilled.”—PATRICIA STORACE, *The New York Review of Books* “Since Lewis Carroll no one had written charmingly about that indecisively sexed bivalve until Mrs. Fisher came along with her *Consider the Oyster*. Surely this will stand for some time as the most judicious treatment in English.”—CLIFFTON FADIMAN

Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell' autore e la storia collettiva della societa di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realta storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. This collection of poems and anonymous folktales in the Molisan dialect traces the unfolding of two stories which, although distinct, interweave and complete each other: the author's individual story and the story of a town in the South of Italy. The images of an apparently immobile and archaic world alternate with the events of a complex and tormented historical reality, in whose magma the new and the old clash and fuse."

*The Italian Metamorphosis, 1943-1968* is the first book to bring together all aspects of Italian visual culture from this fascinating period. *A beautiful gift edition of this classic fable about one man's quest to create a forest. In 1910, while hiking through the wild lavender in a wind-swept, desolate valley in Provence, a man comes across a shepherd called Elzéard Bouffier. Staying with him, he watches Elzéard sorting and then planting hundreds of acorns as he walks through the wilderness. Ten years later, after the war, he visits the shepherd again and sees the young forest he has created spreading slowly over the valley. Elzéard's solitary, silent work continues and the narrator returns year after year to see the miracle he is gradually creating: a verdant, green landscape that is a testament to one man's creative instinct. This edition of The State of World Fisheries and Aquaculture highlights the vital role of fisheries and aquaculture in both food and nutrition security as well as economic expansion. The sector remains a major supplier of high-quality animal protein and supports the livelihoods and well-being of more than ten percent of the world's population. International trade in fish has reached new peaks as overall production has continued to rise. Yet, as the document underlines, an array of problems--ranging from the need for more effective governance to that of ensuring environmental sustainability--threatens to undermine the sector's valuable contribution to alleviating hunger and reducing poverty. Using the latest available statistics on fisheries and aquaculture, this edition presents a global analysis of the sector's status and trends.*

*The last decade has seen an incredible growth in the production and distribution of images and other cultural artefacts. The internet is the place where all these cultural products are stored, classified, voted, collected and trashed. What is the impact of this process on art making and on the artist? Which kind of dialogue is going on between amateur practices and codified languages? How does art respond to the society of information? This is a book about endless archives, image collections, bees plundering from flower to flower and hunters crawling through the online wilderness. Every Business Is God's Business The notion that labor for profit and worship of God are now, and always have been, worlds apart, is patently false. The Early Church founders were mostly community leaders and highly successful businesspeople. The writing of the Gospels was entrusted to Luke, a medical doctor; Matthew, a retired tax collector; Mark, the manager of a family trust; and John, a food supplier. Lydia was "a dealer in purple cloth." Dorcas was a clothes designer. In this expanded version of the bestselling *Anointed for Business*, Ed Silvoso focuses on the heart of our cities, which is the marketplace. Yet the perceived wall between commercial pursuit and service to God continues to be a barrier to advancing His kingdom. Silvoso shows Christians how to knock down that wall--and participate in an unparalleled marketplace transformation. Only then can we see God's kingdom invade every corner of our world. Readers will appreciate Silvoso's passionate call to men and women in the workplace to rise to their God-appointed positions. The included study guide will enable the reader to put these revolutionary concepts into action. A stunningly illustrated metaphysical thriller by the European titan.

From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate.
