While large numbers of aeroplanes had been produced in America for the war effort overseas at the Western Front, it was found that that the British, French and Germans were far ahead of them when it came to flight technology, which led to a huge surplus of aeroplanes in the United States. The government's solution to recover some of the money was to sell the surplus stock off for as little as \$200 dollars each. With no licence being required to fly a plane, the offer attracted many ex-fighter pilots as well as civilians, who developed a new American pastime known as barnstorming. Part entertainers, part thrill-seekers, the barnstormers made their way across the country as solo acts and in groups called 'Flying Circuses'. The American flier Ormer Locklear wowed the crowds by climbing out of his aeroplane and walk along the wing, and it wasn't long before flying circuses held less appeal for spectators if it didn't have a wing-walking act. Handstands, jumps across planes, and even the odd game of tennis were attempted by barnstormers to attract larger paying audiences. In 1936, the US Government banned wing-walking under 1,500 ft, which doomed aerial stunting, and while a few wing-walking teams operated in the 1970s, it wasn't until barnstormer Vic Norman founded his famous AeroSuperBatics wing-walking team in the early 1980s that the sight of daredevils hand-standing and flying upside down on the wing was seen in Europe. Several teams around the world subsequently formed using aeroplanes such as the Boeing Stearman or the Curtiss 'Jenny' biplanes to wow crowds as a part of regular air displays, and their appeal has continued to rise since the 2000s.

Henry Walker was once a world-class magician, performing to sold-out shows in New York. But now he has been reduced to joining Musgrove's Chinese Circus (which at no point in its tour of the deep South has ever included a single

Chinese person) as the shambling Negro Magician, whose dark black skin and electric green eyes bewitch most audiences. But one balmy Mississippi night in 1954, Henry disappears in the company of three rowdy white teens and is never seen again. Wallace pieces together Henry's incredible vagabond life – from a deal with a bone-white devil known only as Mr. Sebastian, to the heartrending loss of his sister Hannah – and creates an enchanting tale of love, loss, identity, and the limitation of magic.

From a New York Times bestselling author and Caldecott-honor winning artist comes an exuberant illustrated story about playing dress up, having fun, and feeling free. The boy loves to be naked. He romps around his house naked and wild and free. Until he romps into his parents' closet and is inspired to get dressed. First he tries on his dad's clothes, but they don't fit well. Then he tries on his mom's clothes, and wow! The boy looks great. He looks through his mom's jewelry and makeup and tries that on, too. A sweeping intellectual history of the role of wealth in the church in the last days of the Roman Empire Jesus taught his followers that it is easier for a camel to go through the eye of a needle than for a rich man to enter heaven. Yet by the fall of Rome, the church was becoming rich beyond measure. Through the Eye of a Needle is a sweeping intellectual and social history of the vexing problem of wealth in Christianity in the waning days of the Roman Empire, written by the world's foremost scholar of late antiquity. Peter Brown examines the rise of the church through the lens of money and the challenges it posed to an institution that espoused the virtue of poverty and called avarice the root of all evil. Drawing on the writings of major Christian thinkers such as Augustine, Ambrose, and Jerome, Brown examines the controversies and changing attitudes toward money caused by the influx of new wealth into church coffers, and describes the spectacular acts of divestment by rich donors and their growing influence in an empire beset with crisis. He shows how the use of wealth for the care of the poor competed with older forms of philanthropy deeply rooted in the Roman world, and sheds light on the ordinary people who gave away their money in hopes of treasure in heaven. Through the Eye of a Needle challenges the widely held notion that Christianity's growing wealth sapped Rome of its ability to resist the barbarian invasions, and offers a fresh perspective on the social history of the church in late antiquity.

By the Winner of the Hans Christian Andersen Medal for Lifetime Achievement in Children's Literature Albert the Glassblower and Sofia are the loving parents of little Klas and Klara. Albert makes the most beautiful glass bowls and vases (unfortunately they are so impractical that no one will buy them), while Sofia supports the family by working in the fields. Every year Albert goes to the fair to try to sell his wares, and sometimes Sofia and the children go too. At the fair the family meets Flutter Mildweather, a weaver of magical rugs that foretell the future, and Klas and Klara come the attention of the splendid Lord and Lady of All Wishes Town, who have everything they want except for one thing: children. Full of curious and vivid characters—like the one-eyed raven Wise Wit, who can only see the bright side of life, and the monstrous governess Nana, whose piercing song can shatter glass—The Glassblower's Children also ponders such serious matters as what it means to find meaningful work and the difference between what you want and what you need. In The Glassblower's Children Maria Gripe has drawn on fairy tales and Norse myths to tell a thrilling story with a very modern sensibility.

This book explores the significant changes that took place in the classical world between the late second and early fourth centuries. A new elitism in religion had its parallel in society as a whole and a wide polarization of the wealthy and the poor developed, as unbridled ambition made the sharp distinction between the rulers and the ruled. --From publisher's description.
