Work, Identity, and Change in a Florentine Neighborhood

Vocabolario del vernacolo fiorentino-toscano con gli esempi delle voci da Dante ai moderni

Text and Context of the Tuscan Veglia

The Florentine poet Antonio Malatesti (1610-1672) earned a brief but significant mention in the earliest history of Italian literature for his contributions to the renewal of the sonnet form in two genres, enigmatography and dithyrambic poetry. In more recent times, his name has cropped up most frequently because of a sequence of fifty bawdy sonnets entitled La Tina, equivoci rusticali, which Malatesti dedicated and presented to the young John Milton on the occasion of his visit to Florence in 1638. The dedication manuscript disappeared soon after Milton's death and remained practically unknown until 1757, when it was found on a bookstall in London and copied as a curiosity. Then it disappeared again, and some scholars even suggested that it had never existed. The present critical edition is based on the rediscovered autograph manuscript dedicated to Milton. The sonnets are furnished with linguistic footnotes and preficed by a note on the author from a previously unknown copy by Giuseppe Baretti (1719-1789). A comprehensive introduction sheds light on the history of the manuscript, using new archival research, and it contributes to a wider understanding of Malatesti's minor but exemplary position in the history of seventeenth-century Italian literature.

Storia della famiglia de CRISTOFARO alta de RECCIA

For centuries, social life in rural Tuscany has centered around the veglia, an evening gathering of family and friends at the hearth. Folklore by the Fireside is a thorough and insightful study of this custom—from the tales, riddles, lullabies, and folk prayers performed as the small children are put to bed to the courtship songs and dances later in the evening to the anti-veglia male gossip, card games, and protest songs originating in the tavern. Alessandro Falassi skillfully correlates the veglia to the rites of passage and family values of an agrarian society. Although the impact of mass media and other factors has tended to weaken the tradition, even today Tuscan children are taught to behave and adolescents are guided along the conventional path to adulthood, courtship, and marriage through veglia folklore. This is the first work to deal systematically with Tuscan folklore from a semiotic and structural viewpoint and to examine the veglia as a means of handing down traditional values. It is important not only for its careful, detailed description but also for its rigorous methodology and theoretical richness.
