

## *Image Ibu Ibu Ngentot*

Supernova: The Knight, The Princess and the Falling Star presents a series of intertwined and unconventional love stories, straight and gay, with a bit of science and spirituality added to the mix. The major characters are young, urban, and technologically highly aware. They are caught up in major forms of contemporary social conflict. The work has been highly acclaimed. The poet Taufiq Ismail has written: "A renewal has taken place in Indonesian literature over the past decade. Supernova is an intelligent, unique and truly exciting exploration of science, spirituality and the nature of love." The literary critic Jacob Soemardjo suggests: "This is an attractive novel by a young writer. It is an intellectual work in the form of a work of pop art, set in the real world. It opposes old values with new ways of understanding, so that readers can see the world in a different way."

Explores how the mathematical principles of Game Theory can transform the business of family law and optimize client outcomes.

This is more than just a world-class photographer's record of his honeymoon, or a volume of pictures declaring his love - these exquisite photos are free of any inhibitions on the part of the photographer or his delectable model. They transmit sensuality and pure sexiness to the viewer. Looking at Luba's delicious body gives the reader a pang of carnal desire and makes them feel as though they are looking over Hegre's shoulder at one of the loveliest girls in the world, captured a hundred different ways.

And Other Arguments for Economic Independence

**How to Make Love Like a Porn Star, the mega-bestselling memoir, triumphant survival story, and cautionary tale that spent over six weeks on the New York Times bestseller list and rocketed adult film icon Jenna Jameson into the mainstream spotlight, is now in paperback and ebook for the very first time. Her unforgettable memoir, written with master storyteller Neil Strauss, is many things at once: a shocking sexual history; an insider's guide to the secret workings of the billion-dollar adult-film industry; and a gripping thriller that probes deep into Jameson's dark past. With never-before-seen photographs from Jenna's private collection, exclusive photos taken for this book, and original cartoon strips, this memoir is an unparalleled exploration of sexual freedom. In the underbelly of Las Vegas, a cesspool of warring biker gangs and seedy strip clubs, gawky, brace-faced Jenna Massoli was transformed into the bombshell Jenna Jameson. Today, Jenna is the biggest star in the history of adult movies, consistently ranked as one of the most beautiful women alive. But behind the glamour and the meteoric rise to fame was a path paved with tragedy and heartbreak. As a teenager—drawn into a dark and chaotic world where rape, abuse, and murder were commonplace—Jenna began her rapid downward spiral of addiction and degradation . . . while at the same time becoming the porn world's biggest crossover success story.**

*A spirited, deeply researched exploration of why capitalism is bad for women and how, when done right, socialism leads to economic independence, better labor conditions, better work-life balance and, yes, even better sex. In a witty, irreverent op-ed piece that went viral, Kristen Ghodsee argued that women had better sex under socialism. The response was tremendous -- clearly she articulated something many women had sensed for years: the problem is with capitalism, not with us. Ghodsee, an acclaimed ethnographer and professor of Russian and East European Studies, spent years researching what happened to women in countries that transitioned from state socialism to capitalism. She argues here that unregulated capitalism disproportionately harms women, and that we should learn from the past. By rejecting the bad and salvaging the good, we can adapt some socialist ideas to the 21st century and improve our lives. She tackles all aspects of a woman's life - work, parenting, sex and relationships, citizenship, and leadership. In a chapter called "Women: Like Men, But Cheaper," she talks about women in the workplace, discussing everything from the wage gap to harassment and discrimination. In "What To Expect When You're Expecting Exploitation," she addresses motherhood and how "having it all" is impossible under capitalism. Women are standing up for themselves like never before, from the increase in the number of women running for office to the women's march to the long-overdue public outcry against sexual harassment. Interest in socialism is also on the rise - whether it's the popularity of Bernie Sanders or the skyrocketing membership numbers of the Democratic Socialists of America. It's become increasingly clear to women that capitalism isn't working for us, and Ghodsee is the informed, lively guide who can show us the way forward.*

*Enthusiasm and determination with a healthy dose of entrepreneurial vision that is enhanced by rapid strides in technology has provided the platform for young Indians to become the makers of a new India. Millions of young Indians are entering the workforce annually with a continually major shift from rural to urban areas and a burgeoning middle-class with demands and expectations of quality health and education, further increasing the dependence on sustainable, viable and continuous growth.*

*DREAMS OFTEN DIE IN THE PROJECTS. These four women will do anything to escape the hood. Aisha has a loving husband who outfits her with all the accessories that scream "hood success." Now that*

*he's in jail, she may have to sell something more precious than her designer gear in order to maintain her image. Devani thinks sleeping with a pro athlete is her way out of the hood until her mother suggests the perfect scheme: become his baby momma. Will the plan force her man to commit? Molly is so in love with her husband that she doesn't care if she's the only white girl in the hood. After letting everyone walk all over her, however, she might be forced to give back all the abuse she's taken. Lexi has four broke baby daddies. Finally married to Mr. Right-in-Every-Way-But-in-the-Bedroom, she's determined to provide a good man for her kids. But can she fight her cravings for hot sex with her ex?*

*Meteor Showers and their Parent Comets is a unique handbook for astronomers interested in observing meteor storms and outbursts.*

*Spectacular displays of 'shooting stars' are created when the Earth's orbit crosses a meteoroid stream, as each meteoroid causes a bright light when it enters our atmosphere at high speed. Jenniskens, an active meteor storm chaser, explains how meteoroid streams originate from the decay of meteoroids, comets and asteroids, and how they cause meteor showers on Earth. He includes the findings of recent space missions to comets and asteroids, the risk of meteor impacts on Earth, and how meteor showers may have seeded the Earth with ingredients that made life possible. All known meteor showers are identified, accompanied by fascinating details on the most important showers and their parent comets. The book predicts when exceptional meteor showers will occur over the next fifty years, making it a valuable resource for both amateur and professional astronomers.*

*A user-friendly guide to the tricky art of short selling includes helpful charts and examples, a short-selling checklist, and the real know-how readers need to successfully incorporate short selling into their investing strategy.*

*A close-up look at the struggle for democracy in Hong Kong. Hong Kong in the Shadow of China is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy and hundreds of thousands of protesters occupied major thoroughfares to push for full democracy now. Fueling this struggle is deep public resentment over growing inequality and how the political system—established by China and dominated by the local business*

*community—reinforces the divide between those who have profited immensely and those who struggle for basics such as housing. Richard Bush, director of the Brookings Institution's Center on East Asia Policy Studies, takes us inside the demonstrations and the demands of the demonstrators and then pulls back to critically explore what Hong Kong and China must do to ensure both economic competitiveness and good governance and the implications of Hong Kong developments for United States policy.*

**An Amazon Bestseller! The Most Comprehensive Takedown of the Obama Presidency! “If you want to know why the history books will have a dim view of Barack Obama, this is the book to read.”—John Hawkins, Right Wing News and Townhall.com** The presumption of Barack Obama’s presidential greatness began before he even won the presidency. Now that he’s out of office, presidential “experts” and historians are ranking Obama as one of our nation’s greatest presidents, placing him amongst Washington, Lincoln, Jefferson, and Truman. Obama’s presidency was certainly consequential, but it was by no means great. Did Barack Obama really save America from another Great Depression? Did he really unite America or improve America’s global image? Did he really usher in a new era of post-partisanship and government transparency? Did he really expand health coverage while lowering costs and cutting taxes? Did he really make America safer and stronger than it was when he first took office? According to his supporters in the media, Hollywood, and academia, he did. But they are wrong. And they’re working aggressively to ensure their version of Obama’s legacy is written into the history books. How can you discover and protect the truth? Matt Margolis and Mark Noonan have compiled everything you need to know about the presidency of Barack Obama into a single source. First published in 2016, this book has now been updated to include the entirety of Obama’s presidency, and the shocking details that have come to light since he left office. **The Worst President in History: The Legacy of Barack Obama** compiles two hundred inconvenient truths about Obama’s presidency—the facts that define his legacy: his real impact on the economy; the disaster that is Obamacare; his shocking abuses of taxpayer dollars; his bitterly divisive style of governing; his shameless usurping of the Constitution; his many scandals and cover-ups; his policy failures at home and abroad; the unprecedented expansion of government power...and more. In his farewell address to supporters on January 11, 2017, Barack Obama declared, “By almost every measure, America is a better, stronger place than it was when we started.” This book destroys that narrative, putting Obama’s presidency into historical context and offering an avalanche of facts that simply cannot be ignored. All of these facts are now at

**your fingertips in a single source. *The Worst President in History: The Legacy of Barack Obama* is your ultimate guide to Obama's real presidential record—the record he'd like history to forget.**

**From GPO Bookstore's Website: Authors with diverse backgrounds in science, history, anthropology, and more, consider culture in the context of the cosmos. How does our knowledge of cosmic evolution affect terrestrial culture?**

**Conversely, how does our knowledge of cultural evolution affect our thinking about possible cultures in the cosmos? Are life, mind, and culture of fundamental significance to the grand story of the cosmos that has generated its own self-understanding through science, rational reasoning, and mathematics? Book includes bibliographical references and an index.**

Rigorously test and improve the security of all your Web software! It's as certain as death and taxes: hackers will mercilessly attack your Web sites, applications, and services. If you're vulnerable, you'd better discover these attacks yourself, before the black hats do. Now, there's a definitive, hands-on guide to security-testing any Web-based software: *How to Break Web Software*. In this book, two renowned experts address every category of Web software exploit: attacks on clients, servers, state, user inputs, and more. You'll master powerful attack tools and techniques as you uncover dozens of crucial, widely exploited flaws in Web architecture and coding. The authors reveal where to look for potential threats and attack vectors, how to rigorously test for each of them, and how to mitigate the problems you find. Coverage includes · Client vulnerabilities, including attacks on client-side validation · State-based attacks: hidden fields, CGI parameters, cookie poisoning, URL jumping, and session hijacking · Attacks on user-supplied inputs: cross-site scripting, SQL injection, and directory traversal · Language- and technology-based attacks: buffer overflows, canonicalization, and NULL string attacks · Server attacks: SQL Injection with stored procedures, command injection, and server fingerprinting · Cryptography, privacy, and attacks on Web services Your Web software is mission-critical—it can't be compromised. Whether you're a developer, tester, QA specialist, or IT manager, this book will help you protect that software—systematically.

In the *Sex and Race* series, first published in the 1940s, historian Joel Augustus Rogers questioned the concept of race, the origins of racial differentiation, and the root of the “color problem.” Rogers surmised that a large percentage of ethnic differences are the result of sociological factors and in these volumes he gathered what he called “the bran of history”—the uncollected, unexamined history of black people—in the hope that these neglected parts of history would become part of the mainstream body of Western history. Drawing on a vast amount of research, Rogers was attempting to point out the absurdity of racial divisions. Indeed his belief in one race—humanity—precluded the idea of several different ethnic races. The series marshals the data he had collected as evidence to prove his underlying humanistic thesis: that

people were one large family without racial boundaries. Self-trained and self-published, Rogers and his work were immensely popular and influential during his day, even cited by Malcolm X. The books are presented here in their original editions.

Strategic Management of Human Capital in Education offers a comprehensive and strategic approach to address what has become labeled as "talent and human capital." Grounded in extensive research and examples of leading edge districts, this book shows how the entire human resource system in schools—from recruitment, to selection/placement, induction, professional development, performance management and evaluation, compensation, and career progression—can be reformed and restructured to boost teacher and principal effectiveness in ways that dramatically improve instructional practice and student learning. Strategic Management of Human Capital in Education guides educators towards putting more effective teachers, teacher leaders, and principals in the country's schools—especially in poverty-impacted urban and rural communities—equipping those teacher and principals with instructional and leadership expertise, and rewarding and retaining those who are successful in attaining these objectives. Drawing from cases, experiences, and deliberations from a national task force, this book outlines a comprehensive framework for how to transform current human resource management practices into authentic, strategic talent management systems in order to improve student achievement.

**NEW YORK TIMES BESTSELLER • A moving memoir about the legendary author's relationship with her own mother. Emma Watson's Our Shared Shelf Book Club Pick! The story of Maya Angelou's extraordinary life has been chronicled in her multiple bestselling autobiographies. But now, at last, the legendary author shares the deepest personal story of her life: her relationship with her mother. For the first time, Angelou reveals the triumphs and struggles of being the daughter of Vivian Baxter, an indomitable spirit whose petite size belied her larger-than-life presence—a presence absent during much of Angelou's early life. When her marriage began to crumble, Vivian famously sent three-year-old Maya and her older brother away from their California home to live with their grandmother in Stamps, Arkansas. The subsequent feelings of abandonment stayed with Angelou for years, but their reunion, a decade later, began a story that has never before been told. In Mom & Me & Mom, Angelou dramatizes her years reconciling with the mother she preferred to simply call "Lady," revealing the profound moments that shifted the balance of love and respect between them. Delving into one of her life's most rich, rewarding, and fraught relationships, Mom & Me & Mom explores the healing and love that evolved between the two women over the course of their lives, the love that fostered Maya Angelou's rise from immeasurable depths to reach impossible heights. Praise for Mom & Me**

*& Mom "Mom & Me & Mom is delivered with Angelou's trademark good humor and fierce optimism. If any resentments linger between these lines, if lives are partially revealed without all the bitter details exposed, well, that is part of Angelou's forgiving design. As an account of reconciliation, this little book is just revealing enough, and pretty irresistible."—The Washington Post "Moving . . . a remarkable portrait of two courageous souls."—People "[The] latest, and most potent, of her serial autobiographies . . . [a] tough-minded, tenderhearted addition to Angelou's spectacular canon."—Elle "Mesmerizing . . . Angelou has a way with words that can still dazzle us, and with her mother as a subject, Angelou has a near-perfect muse and mystery woman."—Essence*

*This book presents a historical overview of the Indonesian film industry, the relationship between censorship and representation, and the rise of Islamic popular culture. It considers scholarship on gender in Indonesian cinema through the lens of power relations. With key themes such as nationalism, women's rights, polygamy, and terrorism which have preoccupied local filmmakers for decades, Indonesia cinema resonates with the socio-political changes and upheavals in Indonesia's modern history and projects images of the nation through the debates on gender and Islam. The text also sheds light on broader debates and questions about contemporary Islam and gender construction in contemporary Indonesia. Offering cutting edge accounts of the production of Islamic cinema, this new book considers gendered dimensions of Islamic media creation which further enrich the representations of the 'religious' and the 'Islamic' in the everyday lives of Muslims in South East Asia.*

END OF STORY ARC All good things, like sex, crime, and this arc of SEX CRIMINALS, come to an end. And this one ends with CHARACTERS doing THINGS and making CHOICES that CHANGE EVERYTHING! In terms of, y'know, the SEX CRIMINALS comic book.

Everything's still the same over in, like, Batman or whatever.

In order to save her sick older brother, Nian was sold to a wealthy family by her parents. For 9 years, Nian survived in the austere household until she suddenly met a mysterious white-haired girl who has the same surname as her. Is she a curse or a blessing?

China today is sexually (and in many other ways) a very repressive society, yet ancient China was very different. Some of the earliest surviving literature of China is devoted to discussions of sexual topics, and the sexual implications of the Ym and Yang theories common in ancient China continue to influence Tantric and esoteric sexual practices today far distant from their Chinese origins. In recent years, a number of books have been written exploring the history of sexual practices and ideas in China, but most have ended the discussion with ancient China and have not continued up to the present time. Fang Fu Ruan first surveys the ancient assumptions and beliefs, then carries the story to present-day China with brief descriptions of homosexuality, lesbianism, transvestism, transsexualism, and prostitution, and ends with a chapter on changing attitudes toward sex in China today. Dr. Ruan is well qualified to give such an overview. Until he left China in the 1980s, he was a leader in attempting to change the repressive attitudes of the government toward human sexuality. He wrote a best selling book on sex in China, and had written to and corresponded with a number of people in China who considered him as confidant and advisor about their sex problems. A physician and medical historian, Dr. Ruan's doctoral dissertation was a study of the history of sex in China.

What is this book about? The Java language has been growing from strength to strength since its inception in 1995. It has since proved to be both powerful and extraordinarily

easy to learn and use. This is what makes it ideal for the beginner. With dramatic changes to the handling of files, and the introduction of native support for XML, Java has been updated to work faster and to be current with the incredible rise of XML as a medium for communicating data. This edition of the Beginning Java books outlines everything the beginning programmer needs to know to program with the Java programming language and the 1.4 Java Developer Kit (JDK). With the release of JDK 1.4, programmers can look forward to the most stable edition yet, and even better performance than was available previously. Over the course of the book, you will build an example application called Sketcher — a simple drawing tool — that teaches you how to build an interactive user interface with Java, how to save and open files, how to use color, and how to respond to user input. What does this book cover? Teaches the Java language from scratch Object-oriented Programming in Java Handling errors and exceptions in applications Manipulating data and files Concurrent programming and threads A comprehensive introduction to Swing, the graphical user interface API for Java Printing in Java An introduction to XML Who is this book for? Ivor's inimitable style has proved to be a hit with nearly half a million people with its easy to learn approach and the many useful examples. Regularly voted the most popular Java programming book, this book teaches Java from scratch and assumes no previous knowledge. It is also suitable for those who have got some programming experience, especially C or C++, which will make learning easier.

A profound and moving journey into the heart of Christianity that explores the mysterious and often paradoxical lives and legacies of the Twelve Apostles—a book both for those of the faith and for others who seek to understand Christianity from the outside in. “Expertly researched and fascinating... Bissell is a wonderfully sure guide to these mysterious men... This is a serious book about the origins of Christianity that is also very funny. How often can you say that?” —The Independent Peter, Matthew, Thomas, John: Who were these men? What was their relationship to Jesus? Tom Bissell provides rich and surprising answers to these ancient, elusive questions. He examines not just who these men were (and weren't), but also how their identities have taken shape over the course of two millennia. Ultimately, Bissell finds that the story of the apostles is the story of early Christianity: its competing versions of Jesus's ministry, its countless schisms, and its ultimate evolution from an obscure Jewish sect to the global faith we know today in all its forms and permutations. In his quest to understand the underpinnings of the world's largest religion, Bissell embarks on a years-long pilgrimage to the supposed tombs of the Twelve Apostles. He travels from Jerusalem and Rome to Turkey, Greece, Spain, France, India, and Kyrgyzstan, vividly capturing the rich diversity of Christianity's worldwide reach. Along the way, he engages with a host of characters—priests, paupers, a Vatican archaeologist, a Palestinian taxi driver, a Russian monk—posing sharp questions that range from the religious to the philosophical to the political. Written with warmth, empathy, and rare acumen, *Apostle* is a brilliant synthesis of travel writing, biblical history, and a deep, lifelong relationship with Christianity. The result is an unusual, erudite, and at times hilarious book—a religious, intellectual, and personal adventure fit for believers, scholars, and wanderers alike.
