

Imagining Argentina Summary

A passionate, thought provoking exploration of walking as a political and cultural activity, from the author of the memoir *Recollections of My Nonexistence* Drawing together many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car-dependent and accelerated world.

An extraordinary, propulsive novel based on the true story of a family of Polish Jews who scatter at the start of the Second World War, determined to survive, and to reunite. It is the spring of 1939, and three generations of the Kurc family are doing their best to live normal lives, even as the shadow of war grows ever closer. Driven by an extraordinary will to survive and by the fear that they may never see each other again, the Kurcs must rely on hope, ingenuity, and inner strength to persevere.

This manual has been designed and written with the purpose of introducing key concepts and areas of debate around the "creative economy", a valuable development opportunity that Latin America, the Caribbean and the world at large cannot afford to miss. The creative economy, which we call the "Orange Economy" in this book (you'll see why), encompasses the immense wealth of talent, intellectual property, interconnectedness, and, of course, cultural heritage of the Latin American and Caribbean region (and indeed, every region). At the end of this manual, you will have the knowledge base necessary to understand and explain what the Orange Economy is and why it is so important. You will also acquire the analytical tools needed to take better advantage of opportunities across the arts, heritage, media, and creative services.

An uncanny exploration of desire, domestic space, isolation and voyeurism by a writer Borges loved--only now in English translation.

Markus Nehl focuses on black authors who, from a 21st-century perspective, revisit slavery in the U.S., Ghana, South Africa, Canada and Jamaica. Nehl's provocative readings of Toni Morrison's *A Mercy*, Saidiya Hartman's *Lose Your Mother*, Yvette Christiansë's *Unconfessed*, Lawrence Hill's *The Book of Negroes* and Marlon James' *The Book of Night Women* delineate how these texts engage in a fruitful dialogue with African diaspora theory about the complex relation between the local and transnational and the enduring effects of slavery. Reflecting on the ethics of narration, this study is particularly attentive to the risks of representing anti-black violence and to the intricacies involved in (re-)appropriating slavery's archive.

Upon its publication, *The Origin of Species* was critically embraced in Europe and North America. But how did Darwin's theories fare in other regions of the world? Adriana Novoa and Alex Levine offer here a history and interpretation of the reception of Darwinism in Argentina, illuminating the ways culture shapes scientific enterprise. In order to explore how Argentina's particular interests, ambitions, political anxieties, and prejudices shaped scientific research, *From Man to Ape* focuses on Darwin's use of analogies. Both analogy and metaphor are culturally situated, and by studying scientific activity at Europe's geographical and cultural periphery, Novoa and Levine show that familiar analogies assume unfamiliar and sometimes startling guises in Argentina. The transformation of these analogies in the Argentine context led science—as well as the interaction between science, popular culture, and public policy—in surprising directions. In diverging from European models, Argentine Darwinism reveals a great deal about both Darwinism and science in general. Novel in its approach and its subject, *From Man to Ape* reveals a new way of understanding Latin American science and its impact on the scientific communities of Europe and North America.

In 1964, Brazil's democratically elected, left-wing government was ousted in a coup and replaced by a military junta. The Johnson administration quickly recognized the new government. The U.S. press and members of Congress were nearly unanimous in their support of the "revolution" and the coup leaders' anticommunist agenda. Few Americans were aware of the human rights abuses perpetrated by Brazil's new regime. By 1969, a small group of academics, clergy, Brazilian exiles, and political activists had begun to educate the American public about the violent repression in Brazil and mobilize opposition to the dictatorship. By 1974, most informed political activists in the United States associated the Brazilian

government with its torture chambers. In *We Cannot Remain Silent*, James N. Green analyzes the U.S. grassroots activities against torture in Brazil, and the ways those efforts helped to create a new discourse about human-rights violations in Latin America. He explains how the campaign against Brazil's dictatorship laid the groundwork for subsequent U.S. movements against human rights abuses in Chile, Uruguay, Argentina, and Central America. Green interviewed many of the activists who educated journalists, government officials, and the public about the abuses taking place under the Brazilian dictatorship. Drawing on those interviews and archival research from Brazil and the United States, he describes the creation of a network of activists with international connections, the documentation of systematic torture and repression, and the cultivation of Congressional allies and the press. Those efforts helped to expose the terror of the dictatorship and undermine U.S. support for the regime. Against the background of the political and social changes of the 1960s and 1970s, Green tells the story of a decentralized, international grassroots movement that effectively challenged U.S. foreign policy.

AVAILABLE FOR THE FIRST TIME IN eBook! General Simon Bolivar, "the Liberator" of five South American countries, takes a last melancholy journey down the Magdalena River, revisiting cities along its shores, and reliving the triumphs, passions, and betrayals of his life. Infinitely charming, prodigiously successful in love, war and politics, he still dances with such enthusiasm and skill that his witnesses cannot believe he is ill. Aflame with memories of the power that he commanded and the dream of continental unity that eluded him, he is a moving exemplar of how much can be won—and lost—in a life.

In *Life Beside Itself*, Lisa Stevenson takes us on a haunting ethnographic journey through two historical moments when life for the Canadian Inuit has hung in the balance: the tuberculosis epidemic (1940s to the early 1960s) and the subsequent suicide epidemic (1980s to the present). Along the way, Stevenson troubles our commonsense understanding of what life is and what it means to care for the life of another. Through close attention to the images in which we think and dream and through which we understand the world, Stevenson describes a world in which life is beside itself: the name-soul of a teenager who dies in a crash lives again in his friend's newborn baby, a young girl shares a last smoke with a dead friend in a dream, and the possessed hands of a clock spin uncontrollably over its face. In these contexts, humanitarian policies make little sense because they attempt to save lives by merely keeping a body alive. For the Inuit, and perhaps for all of us, life is "somewhere else," and the task is to articulate forms of care for others that are adequate to that truth.

NAMED A TOP 10 BOOK OF 2018 BY NPR and THE WASHINGTON POST WINNER OF THE LOS ANGELES TIMES BOOK PRIZE IN CURRENT INTEREST FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE NONFICTION AWARD The instant New York Times bestseller, "A must-read for anyone who thinks 'build a wall' is the answer to anything." --Esquire For Francisco Cantú, the border is in the blood: his mother, a park ranger and daughter of a Mexican immigrant, raised him in the scrublands of the Southwest. Driven to understand the hard realities of the landscape he loves, Cantú joins the Border Patrol. He and his partners learn to track other humans under blistering sun and through frigid nights. They haul in the dead and deliver to detention those they find alive. Plagued by a growing awareness of his complicity in a dehumanizing enterprise, he abandons the Patrol for civilian life. But when an immigrant friend travels to Mexico to visit his dying mother and does not return, Cantú discovers that the border has migrated with him, and now he must know the full extent of the violence it wreaks, on both sides of the line.

"Detail[s] the grassroots interplay among the variety of ideologies, individuals, and organizations that made up the Chicano movement in San Antonio, Texas." --Journal of American History In the mid-1960s, San Antonio, Texas, was a segregated city governed by an entrenched Anglo social and business elite. The Mexican American barrios of the west and south sides were characterized by substandard housing and experienced seasonal flooding. Gang warfare broke out regularly. Then the striking farmworkers of South Texas marched through the city and set off a social movement that transformed the barrios and ultimately brought down the old Anglo oligarchy. In *Quixote's Soldiers*, David Montejano uses a wealth of previously untapped sources, including the congressional papers of Henry B. Gonzalez, to present an intriguing and highly readable account of this turbulent

period. Montejano divides the narrative into three parts. In the first part, he recounts how college student activists and politicized social workers mobilized barrio youth and mounted an aggressive challenge to both Anglo and Mexican American political elites. In the second part, Montejano looks at the dynamic evolution of the Chicano movement and the emergence of clear gender and class distinctions as women and ex-gang youth struggled to gain recognition as serious political actors. In the final part, Montejano analyzes the failures and successes of movement politics. He describes the work of second-generation movement organizations that made possible a new and more representative political order, symbolized by the election of Mayor Henry Cisneros in 1981. "A most welcome addition to the growing literature on the Chicana/o movement of the 1960s and 1970s." -Pacific Historical Review

Nobel Laureate and two-time Booker prize-winning author of *Disgrace* and *The Life and Times of Michael K*, J. M. Coetzee tells the remarkable story of a nation gripped in brutal apartheid in his Sunday Express Book of the Year award-winner *Age of Iron*. In Cape Town, South Africa, an elderly classics professor writes a letter to her distant daughter, recounting the strange and disturbing events of her dying days. She has been opposed to the lies and the brutality of apartheid all her life, but now she finds herself coming face to face with its true horrors: the hounding by the police of her servant's son, the burning of a nearby black township, the murder by security forces of a teenage activist who seeks refuge in her house. Through it all, her only companion, the only person to whom she can confess her mounting anger and despair, is a homeless man who one day appears on her doorstep. In *Age of Iron*, J. M. Named "The Book of the Year" by Lee Child in *The Guardian* From "master of the genre" (*The Washington Post*) and author of *Leaving Berlin*, a heart-pounding and intelligent espionage novel about a Nazi war criminal who was supposed to be dead, the rogue CIA agent on his trail, and the beautiful woman connected to them both. Seventeen years after the fall of the Third Reich, Max Weill has never forgotten the atrocities he saw as a prisoner at Auschwitz—nor the face of Dr. Otto Schramm. He was the camp doctor who worked with Mengele on appalling experiments and who sent Max's family to the gas chambers. As the war came to a close, Schramm was one of the many high-ranking former-Nazi officers who managed to escape Germany for new lives in South America, where leaders like Argentina's Juan Perón gave them safe harbor and new identities. With his life nearing its end, Max asks his nephew Aaron Wiley—an American CIA desk analyst—to complete the task Max never could: to track down Otto in Argentina, capture him, and bring him back to Germany to stand trial. Unable to deny his uncle, Aaron travels to Buenos Aires and discovers a city where Nazis thrive in plain sight, mingling with Argentine high society. He ingratiates himself with Otto's alluring but damaged daughter, whom he's convinced is hiding her father. Enlisting the help of a German newspaper reporter, an Israeli agent, and the obliging CIA station chief in Buenos Aires, he hunts for Otto—a complicated monster, unexpectedly human but still capable of murder if

cornered. Unable to distinguish allies from enemies, Aaron will ultimately have to discover just how far he is prepared to go to render justice. "With his remarkable emotional precision and mastery of tone" (Kirkus Reviews, starred review), Joseph Kanon crafts another "gripping and authentic" (The New York Times Book Review) thriller that you won't be able to put down.

Over the past fifteen years, writer, producer and director Christopher Nolan has emerged from the margins of independent British cinema to become one of the most commercially successful directors in Hollywood. From *Following* (1998) to *Interstellar* (2014), Christopher Nolan's films explore philosophical concerns by experimenting with nonlinear storytelling while also working within classical Hollywood narrative and genre frameworks. Contextualizing and closely reading each of his films, this collection examines the director's play with memory, time, trauma, masculinity, and identity, and considers the function of music and video games and the effect of IMAX on his work.

Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as "social practice." Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

Our Indigenous Ancestors complicates the history of the erasure of native cultures and the perceived domination of white, European heritage in Argentina through a study of anthropology museums in the late nineteenth and early twentieth centuries. Carolyn Larson demonstrates how scientists, collectors, the press, and the public engaged with Argentina's native American artifacts and remains (and sometimes living peoples) in the process of constructing an "authentic" national heritage. She explores the founding and functioning of three museums in Argentina, as well as the origins and consolidation of Argentine archaeology and the professional lives of a handful of dynamic curators and archaeologists, using these institutions and individuals as a window onto nation building, modernization, urban-rural tensions, and problems of race and ethnicity in turn-of-the-century Argentina. Museums and archaeology, she argues, allowed Argentine elites to build a modern national identity distinct from the country's indigenous past, even as it rested on a celebrated, extinct version of that past. As Larson shows, contrary to widespread belief, elements of Argentina's native American past were reshaped and integrated into the construction of Argentine national identity as white and European at the turn of the century. *Our Indigenous Ancestors* provides a unique look at the folklore movement, nation building, science, institutional change, and the divide between elite, scientific, and popular culture in Argentina and the Americas at a time of rapid, sweeping changes in Latin American culture and society.

Mario Vargas Llosa's brilliant, multilayered novel is set in the Lima, Peru, of the author's youth, where a young student named Marito is toiling away in the news department of a local radio station. His young life is disrupted by two arrivals. The first is his aunt Julia, recently divorced and thirteen years older, with whom he begins a secret affair. The second is a manic radio scriptwriter named Pedro Camacho, whose racy, vituperative soap operas are holding the city's listeners in thrall. Pedro chooses young Marito to be his confidant as he slowly goes insane. Interweaving the story of Marito's life with the ever-more-fevered tales of Pedro Camacho, Vargas Llosa's novel is hilarious, mischievous, and masterful, a classic named one of the best books of the year by the New York Times Book Review.

Jitterbug Perfume is an epic. Which is to say, it begins in the forests of ancient Bohemia and doesn't conclude until nine o'clock tonight (Paris time). It is a saga, as well. A saga must have a hero, and the hero of this one is a janitor with a missing bottle. The bottle is blue, very, very old, and embossed with the image of a goat-horned god. If the liquid in the bottle actually is the secret essence of the universe, as some folks seem to think, it had better be discovered soon because it is leaking and there is only a drop or two left.

In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

A unique and moving real-life story of the extraordinary bond between a young teacher and a penguin, this book will delight readers who loved *Marley & Me*, *Dewey the Library Cat*, *The Good Good Pig*, and any book by Jon Katz. In 1975, twenty-three-year-old Englishman Tom Michell follows his wanderlust to Argentina, where he becomes assistant master at a prestigious boarding school. But Michell's adventures really begin when, on a weekend in Uruguay, he rescues a penguin covered in oil from an ocean spill, cleans the bird up, and attempts to return him to the sea. The penguin refuses to leave his rescuer's side. "That was the moment at which he became my penguin, and whatever the future held, we'd face it together," says Michell in this charming memoir. Michell names the penguin Juan Salvador ("John Saved"), but Juan Salvador, as it turns out, is the one who saves Michell. After Michell smuggles the bird back to Argentina and into his campus apartment, word spreads about the young Englishman's unusual roommate. Juan Salvador is suddenly the center of attention—as mascot of the rugby team, confidant to the dorm housekeeper, co-host of Michell's parties, and an unprecedented swimming coach to a shy boy. Even through the collapse of the Perónist government and amid the country's economic and political strife, Juan Salvador brings joy to everyone around him—especially Michell, who considers the affectionate animal a *compadre* and kindred spirit. Witty and heartwarming, *The Penguin Lessons* is a classic in the making, a story that is both absurd and wonderful, exactly like Juan Salvador. Praise for *The Penguin Lessons* "I loved this book, and you will, too! It's as charming, heartwarming, and surprising as a penguin on a roof terrace. What's more, *The Penguin Lessons* teaches an important truth: that a single act of compassion can be repaid a thousand-fold." —Sy Montgomery, author of *The Good Good Pig* and the National Book Award finalist *The Soul of an Octopus* "[Tom Michell's] tone suits the material perfectly. . . . You believe every word. . . . No fool, this penguin. No fools, these publishers, who have unleashed such a delightful and charming book just in time for Christmas." —Daily Mail (U.K.) "Heart-warming is a wholly inadequate phrase to describe this captivating story that is pure delight from beginning to end." —The Bookseller (U.K.)

"During the late 20th and early 21st centuries, dictatorships in Latin America hastened the outward movement of intellectuals, academics, artists, and political and social activists to other countries. Following the coups that toppled democratically elected governments or curtailed parliamentary oversight, the incoming military or civilian-military administrations assumed that, by forcing those aligned with opposition movements out of the country, they would assure their control of politics and domestic public spheres. Yet, by creating or enlarging a diaspora of co-nationals, the authoritarian rulers merely extrapolated internal dissent and conflicts, emboldening opposition forces beyond their national borders. Displaced individuals soon had a presence in many host countries, gaining the support of solidarity circles and advocacy networks that condemned authoritarianism and worked along with exiles and internal resistance towards the restoration of electoral democracy. This is the first systematic analysis of the movement of individuals who have made a substantive mark on the development of post-authoritarian politics, society and culture in the Southern Cone of the Americas, specifically Argentina, Chile, Paraguay and Uruguay. It argues that political exile and expatriation have generated new awareness to the lack of convergence between national identities and the territorial boundaries of the nation-state, and also had profound effects on intellectual and political life in the countries of origin"--

Latin American athletes have achieved iconic status in global popular culture, but what do we know about the communities of women in sport? *Futbolera* is the first monograph on women's sports in Latin America. Because sports evoke such passion, they are fertile ground for understanding the formation of social classes, national and racial identities, sexuality, and gender roles. *Futbolera* tells the stories of women athletes and fans as they navigated the pressures and possibilities within organized sports. *Futbolera* charts the rise of physical education programs for girls, often driven by ideas of eugenics and proper motherhood, that laid the groundwork for women's sports clubs, which began to thrive beyond the confines of school systems. *Futbolera* examines how women challenged both their exclusion from national pastimes and their lack of access to leisure, bodily integrity, and public space. This vibrant history also examines women's sports through comparative case studies of Argentina, Brazil, Chile, Costa Rica, Mexico, and others. Special attention is given to women's sports during military dictatorships of the 1970s and 80s as well as the feminist and democratic movements that followed. The book culminates by exploring recent shifts in mindset towards women's football and dynamic social movements of players across Latin America.

The Future as Catastrophe offers a novel critique of the fascination with disaster. Analyzing the catastrophic imaginary from its historical roots to the contemporary popularity of disaster fiction and end-of-the-world blockbusters, Eva Horn argues that apocalypse always haunts the modern idea of a future that can be anticipated and planned.

"Not many living artists would be sufficiently brave or inspired to attempt reflecting in art what Borges constructs in words. Opposition to the Brazilian Military Dictatorship in the United States

A new novel with a dark political twist from "one of America's greats."* *Man in the Dark* is Paul Auster's brilliant, devastating novel about the many realities we inhabit as wars flame all around us. Seventy-two-year-old August Brill is recovering from a car accident in his daughter's house in Vermont. When sleep refuses to come, he lies in bed and tells himself stories, struggling to push back thoughts about things he would prefer to forget—his wife's recent death and the horrific murder of his granddaughter's boyfriend, Titus. The retired book critic imagines a parallel world in which America is not at war with Iraq but with itself. In this other America the twin towers did not fall and the 2000 election results led to secession, as state after state pulled away from the union and a bloody civil war ensued. As the night progresses, Brill's story grows increasingly intense, and what he is so desperately trying to avoid insists on being told. Joined in the early hours by his granddaughter, he gradually opens up to her and recounts the story of his marriage. After she falls asleep, he at last finds the courage to revisit the trauma of Titus's death. Passionate and shocking, *Man in the Dark* is a novel of our moment, a book that forces us to confront the blackness of night even as it celebrates the existence of ordinary joys in a world capable of the most grotesque violence.

As museums worldwide shuttered in 2020 because of the coronavirus, New York-based cultural strategist András Szántó conducted a series of interviews with an international group of museum leaders. In a moment when economic, political, and cultural shifts are signaling the start of a new era, the directors speak candidly about the historical limitations and untapped potential of art museums. Each of the twenty-eight conversations in this book explores a particular topic of

relevance to art institutions today and tomorrow. What emerges from the series of in-depth conversations is a composite portrait of a generation of museum leaders working to make institutions more open, democratic, inclusive, experimental and experiential, technologically savvy, culturally polyphonic, attuned to the needs of their visitors and communities, and concerned with addressing the defining issues of the societies around them. The dialogues offer glimpses of how museums around the globe are undergoing an accelerated phase of reappraisal and reinvention. Revisits a foundational moment in Argentine history to demonstrate how the crisis of modernity opened up new possibilities for imagining kinship otherwise. As Argentina rose to political and economic prominence at the turn of the twentieth century, debates about the family, as an ideological structure and set of lived relationships, took center stage in efforts to shape the modern nation. In *Argentine Intimacies*, Joseph M. Pierce draws on queer studies, Latin American studies, and literary and cultural studies to consider the significance of one family in particular during this period of intense social change: Carlos, Julia, Delfina, and Alejandro Bunge. One of Argentina's foremost intellectual and elite families, the Bunges have had a profound impact on Argentina's national culture and on Latin American understandings of education, race, gender, and sexual norms. They also left behind a vast archive of fiction, essays, scientific treatises, economic programs, and pedagogical texts, as well as diaries, memoirs, and photography. *Argentine Intimacies* explores the breadth of their writing to reflect on the intersections of intimacy, desire, and nationalism and to expand our conception of queer kinship. Approaching kinship as an interface of relational dispositions, Pierce reveals the queerness at the heart of the modern family. Queerness emerges not as an alternative to traditional values so much as a defining feature of the state project of modernization.

"*Argentine Intimacies* provides a valuable intervention in the fields of cultural studies, Latin American studies, LGBT/queer studies, literary studies, and photography studies. Pierce conducted extensive archival research on the historically significant Bunge family in Argentina and offers lucid, theoretically informed, and original readings of their lives and cultural productions." – Lawrence La Fountain-Stokes, University of Michigan

Since the 1927 release of Fritz Lang's pioneer film *Metropolis*, science fiction cinema has largely been regarded a Western genre. In *Simultaneous Worlds*, Jennifer L. Feeley and Sarah Ann Wells showcase authors who challenge this notion by focusing on cinemas and cultures, from Cuba to North Korea, not traditionally associated with science fiction. This collection introduces films about a metal-eating monster who helps peasants overthrow an exploitative court, an inflatable sex doll who comes to life, a desert planet where matchsticks are more valuable than money, and more. *Simultaneous Worlds* is the first volume to bring a transnational, interdisciplinary lens to science fiction cinema. Encountering some of the best emerging and established voices in the field, readers will become immersed in discussions of well-known works such as the *Ghost in the Shell* franchise and Neill Blomkamp's *District 9* alongside lesser-known but equally fascinating works by African, Asian, European, and South American filmmakers. Divided into five parts that cover theoretical concerns such as new media economies, translation, the Global South, cyborgs, and socialist and postsocialist cinema, these essays trace cinema's role in imagining global communities and power struggles. Considering both individual films and the broader networks of production, distribution, and exhibition, *Simultaneous Worlds* illustrates how film industries across the globe take part in visualizing the perils of globalization and technological modernity. Ultimately, this book opens new ways of thinking about world cinema and our understanding of the world at large.

The contributors to *Cumbia!* look at particular manifestations of cumbia through their

disciplinary lenses of musicology, sociology, history, anthropology, linguistics, and literary criticism.

"Beautifully lyric . . . [Lawrence Thornton's] prose is finely honed and his touch sure."—Chicago Tribune The year is 1936. The tide of fascism is overwhelming Europe. In Spain the Guardia Civil wages war on the citizens. Spanish-German novelist Joaquín Wolf leaves his adopted home in Paris for a short visit to Spain, where he will spend an evening that will change his life. For there he meets the great Spanish poet Federico García Lorca and in two brief hours they forge a close friendship. Within days Lorca is dead, executed by the civil guard, an event that sets Wolf on an irrevocable course as he joins the struggle against Franco. Wounded, Wolf returns to France to find German fascism threatening the city he loves. Banding together with a fiercely political group of writers named the Lorca Club, he again becomes a soldier of the resistance—this time using his most potent ammunition: words. Through the Lorca Club he meets Ursula Krieger, another exiled Berliner living in Paris, a survivor not only of war but of the bloodless horrors of postwar life. Though the scars of her past keep her from reaching out to him, Wolf's quiet, steadfast love vanquishes shame and pain. And while Lorca taught Wolf what must be fought against, even to the death, it is Ursula who teaches him what is worth fighting—and living—for.
