Abby Ellin was shocked to learn that her fiancé was leading a secret life. But as she soon discovered, the world is full of people who aren’t what they seem. From Abby Ellin’s first date with the Commander, she was caught up in a whirlwind. Within six months he’d proposed, and they’d moved in together. But soon, his exotic stories of international espionage began unravel. Finally, it all became clear: he was lying about who he was. After leaving him and sharing her story, she was floored to find out that her experience was far from unique. People everywhere, many of them otherwise sharp-witted and self-aware, are being deceived by their loved ones every day. In Duped, Abby Ellin studies the art and science of lying, talks to people who’ve had their worlds upended by duplicitous partners, and writes with great openness about her own mistakes. These remarkable stories reveal how often we encounter people whose lives beneath the surface are more improbable than we ever imagined.

This richly illustrated book explores over seven hundred years of European warfare, from the time of Charlemagne to the end of the middle ages (c.1500). The period covered has a distinctive character in military history. It was an age when organization for war was integral to social structure, when the secular aristocrat was by necessity also a warrior, and whose culture was profoundly influenced by martial ideas. Twelve scholars, experts in their own fields, have contributed to this finely illustrated book. It is divided into two parts. Part I seeks to explore the experience of war viewed chronologically with separate chapters on, for instance, the Viking age, on the wars and expansion of the eleventh and twelfth centuries, on the Crusades and on the great Hundred Years War between England and France. The chapters in Part II trace thematically the principal developments in the art of warfare; in fortification and siege craft; in the role of armoured cavalrymen; in the employment of mercenary forces; the advent of gunpowder artillery; and of new skills in navigation and shipbuilding. In both parts of the book, the overall aim has been to offer the general reader an impression, not just of the where and the when of great confrontations, but above all of the social experience of warfare in the middle ages, and of the impact of its demands on human resources and human endurance.

Impersonations: The Artifice of Brahmin Masculinity in South Indian Dance centers on an insular community of Smarta Brahmin men from the Kuchipudi village in Telugu-speaking South India who are required to don stri-vesam (woman’s guise) and impersonate female characters from Hindu religious narratives. Impersonation is not simply a gender performance circumscribed to the Kuchipudi stage, but a practice of power that enables the construction of hegemonic Brahmin masculinity in everyday village life. However, the power of the Brahmin male body in stri-vesam is highly contingent, particularly on account of the expansion of Kuchipudi in the latter half of the twentieth century from a localized village performance to a transnational Indian dance form. This book analyzes the practice of impersonation across a series of boundaries—village to urban, Brahmin to non-Brahmin, hegemonic to non-normative—to explore the artifice of Brahmin masculinity in contemporary South Indian dance.

*Skin Deep looks at the preoccupations of European-Australians in their encounters with Aboriginal women and the tropes, types, and perceptions that seeped into everyday settler-colonial thinking. Early erroneous and uninformed accounts of Aboriginal women and culture were repeated throughout various print forms and imagery, both in Australia and in Europe, with names, dates, and locations erased so that individual women came to be anonymized as 'gins' and 'lubras.' The book identifies and traces the various tropes used to typecast Aboriginal women, contributing to their lasting hold on the colonial imagination even after conflicting records emerged. The colonial archive itself, consisting largely of accounts by white men, is critiqued in the book. Construction of Aboriginal women's gender and sexuality was a form of colonial control, and Skin Deep shows how the industrialization of print was critical to this control, emerging as it did alongside colonial expansion. For nearly all settlers, typesetting Aboriginal women through name-calling and repetition of tropes sufficed to evoke an understanding that was surface-based and half-knowing: only skin deep. *** "Impressively researched, written, organized and presented...highly recommended for community and academic library Aboriginal Studies, Women's Studies, Australian Studies, and Colonial History reference collections." --Midwest Book Review, MBR Bookwatch: October 2016, Helen's Bookshelf [Subject: Cultural History, Aboriginal Studies, Women's Studies, Australian Studies, Colonial Studies]*

Provides the first literary and cultural-historical analysis of the most important third-century Greek epic, Quintus' Posthomerica.

Focusing on Glasgow’s earliest surviving music hall, the Britannia, later the Panopticon, this book explores the role of one of the city’s most iconic cultural venues within the cosmopolitan entertainment market that emerged in British cities in the nineteenth century. Shedding light on the increasing diversity of commercial entertainment provided by such venues – offering everything from music hall, early cinema and amateur nights to waxworks, menageries and freak shows – this study also encompasses the model of community-based, working-class music hall which characterised the Panopticon’s later years, challenging narratives of the primacy of city centre variety. Providing a comprehensive analysis of this dynamic popular theatre of the industrial age, Maloney examines the role of the hall’s managers, marketing and promotional strategies, audiences, and performing genres from the hall’s opening in 1859 until final closure in 1938. The book also explores stage representations of Irish and Jewish immigrant communities present in surrounding city centre areas, demonstrating the Britannia’s diasporic links to other British cities and centres in North America, thus providing a

multifaceted and pioneering account of this still extant Victorian music hall.
