Sisters Edna Barnes and Edith Johnson are senior citizens who like to solve mysteries in their own questionable ways. As the widows arrive in Chicago and head to their office, they are more than ready to take on their first official case as licensed private investigators. A short time later their cousin, Elmo Guardini, arrives in their office and asks the newly minted PIs to scrutinize the sleazy security guard who is

Courtney Carver shows us the power of simplicity to improve our health, build more meaningful relationships, and relieve stress in our professional and personal lives.

We are often on a quest for more—we give in to pressure every day to work more, own more, and do more. For Carver, this constant striving had to come to a stop when she was diagnosed with Multiple Sclerosis (MS). Stress

was like gasoline on the fire of symptoms, and it became clear that she needed to root out the physical and psychological clutter that were the source of her debt and discontent. In this book, she shows us how to pursue practical minimalism so we can create more with less—more space, more time, and even more love. Carver invites us to look at the big picture, discover what's most important to us, and reclaim lightness and ease by getting rid of all the excess things.

the Vatican and the Roman Catholic Church today. This brilliant piece of investigative writing is based on four years' authoritative research, including extensive interviews with those in power. The celibacy of priests, the condemnation of the use of contraceptives, the cover up of countless cases of sexual abuse, the resignation of Benedict XVI, misogyny among the clergy, the dramatic fall in Europe of the number of vocations to the priesthood, the plotting against Pope Francis – all these issues are clouded in mystery and secrecy. In the Closet of the Vatican is a book that reveals these secrets and penetrates this enigma. It derives from a system founded on a clerical culture of

secrecy which starts in junior seminaries and continues right up to the Vatican itself. It is based on the double lives of priests and on extreme homophobia. The resulting schizophrenia in the Church is hard to fathom. But the more a prelate is homophobic, the more likely it is that he is himself gay. 'Behind rigidity there is always something hidden, in many cases a double life'. These are the words of Pope Francis himself and with them the Pope has unlocked the Closet. No one can claim to really understand the Catholic Church today until they have read this book. It reveals a truth that is extraordinary and disturbing. ### You Are What You Wear

### The Transformation of Gay and Lesbian Life

Into the Closet examines the representation of cross-dressing in a wide variety of children's fiction, ranging from picture books and junior fiction to teen films and novels for young adults. It provides a comprehensive analysis of the different types of cross-dressing found in children's narratives, raising a number of significant issues relating to the ideological construction of masculinity and femininity in books for younger readers. Many literary and cultural critics have studied the cultural significance of adult cross-dressing, yet although cross-dressing representations are plentiful in children's literature and film, very little critical attention has been paid to this subject to date. Into the Closet fills this critical gap.

Cross-dressing demonstrates how gender is symbolically constructed through various items of clothing and apparel. It also has the ability to deconstruct notions of problematizing the relationship between sex and gender. Into the Closet is an important book for academics, teachers, and parents because it demonstrates how cross-dressing, rather than being taboo, is frequently used in children's literature and film as a strategy to educate (or enculturate) children about gender.

Explores the psychology behind style choices which explains why women do not dress their age, wear all the clothing they purchase, or dress to flatter their body shape, in order to help them develop a personal style and make life changes.

A literary and cultural history of the intimate space of the eighteenth-century closet—and how it fired the imaginations of Pepys, Sterne, Swift, and so many other writers Long before it was a hidden storage space or a metaphor for queer and trans shame, the closet was one of the most charged settings in English architecture. This private room provided seclusion for reading, writing, praying, dressing, and collecting—and for talking in select company. In their closets, kings and duchesses shared secrets with favorites, midwives and apothecaries dispensed remedies, and newly wealthy men and women expanded their social

networks. In *The Closet*, Danielle Bobker presents a literary and cultural history of these sites of extrafamilial intimacy, revealing how, as they proliferated both in buildings and in books, closets also became powerful symbols of the unstable virtual intimacy of the first mass-medium of print. Focused on the connections between status-conscious—and often awkward—interpersonal dynamics and an increasingly inclusive social and media landscape, *The Closet* examines dozens of historical and fictional encounters taking place in the various iterations of this room: courtly closets, bathing closets, prayer closets, privies, and the

"moving closet" of the coach, among many others. In the process, the book conjures the intimate lives of well-known figures such as Samuel Pepys and Laurence Sterne, as well as less familiar ones such as Miss Hobart, a maid of honor at the Restoration court, and Lady Anne Acheson, Swift's patroness. Turning finally to queer theory, *The Closet* discovers uncanny echoes of the eighteenth-century language of the closet in twenty-first-century coming-out narratives. Featuring more than thirty illustrations, *The Closet* offers a richly detailed and compelling account of an eighteenth-century setting and symbol of intimacy that

- \* the sexualised landscape of a New Zealand city
- \* the national census of Britain and the US

international travel guides and travelogues and refers to the work of Butler, Lefebvre and Foucault.
