

Individual Reserve Guide Air Force Reserve Command

This research paper will assess the challenges and potential inadequacies of today's military leaders in understanding the importance of coupling strategic visioning and strategic planning processes together to achieve military mission objectives. It focuses on our current National and Military Security Space Strategies, and the Air Force Reserve's vision for future involvement in support of those strategies. It begins by providing the historical background on the Air Force Reserve. It describes the historical roots of the Reserve associate unit and Individual Mobilization Augmentee (IMA) programs, and why even today there is a lack of collaborative effort between the two related Reserve programs. This research will explore the impacts of a leader's vision to influence and achieve strategic outcomes. In addition, this research will show how a sound, purposeful vision can encourage dissimilar and similar organizations to work together through the strategic planning process to achieve common objectives. Finally, a case study will be presented for readers who appreciate the utility of a roadmap that imparts a "how to" guide to create Reserve augmentation support to the active duty, using the Department of Defense's (DoDs) Planning Programming and Budgeting System (PPBS).

The Tongue and Quill

Department of Defense Dictionary of Military and Associated Terms

The Tongue and Quill has been a valued Air Force resource for decades and many Airmen from our Total Force of uniformed and civilian members have contributed their talents to various editions over the years. This revision is built upon the foundation of governing directives and user's inputs from the unit level all the way up to Headquarters Air Force. A small team of Total Force Airmen from the Air University, the United States Air Force Academy, Headquarters Air Education and Training Command (AETC), the Air Force Reserve Command (AFRC), Air National Guard (ANG), and Headquarters Air Force compiled inputs from the field and rebuilt The Tongue and Quill to meet the needs of today's Airmen. The team put many hours into this effort over a span of almost two years to improve the content, relevance, and organization of material throughout this handbook. As the final files go to press it is the desire of The Tongue and Quill team to say thank you to every Airman who assisted in making this edition better; you have our sincere appreciation!
