Harley-Davidson sales went into a tailspin with plunging production. The USA was in a deep recession. Adding to the perfect storm was the flood of Asian imports that many believe were being sold in the U.S. below their manufactured costs.

Bookmark File PDF Installation Guide Radio Sound Harley

Whether this was true or not, how did a small country a half-world away manufacture a quality product that was faster, handled better, and was less expensive?

Furthermore, these import motorcycles were more functional. Well, of course they did

because USA
motorcycle
manufacturing
offered old clunker
styling that was
slower, did not
handle well, and
broke down all the
time! And for all of
this, Harley-
Davidson ' s cost
more. Insulting if
one thinks about it.
It is not that the

Importantly, H-D dropped its lackadaisical attitude towards copyright infringement, particularly with knock-off products. Harley-Davidson became extremely aggressive against the counterfeiting of their trademarks.

at its finest. Think
about it! How could
a rusty old

had a little help
along the way with
two main
sociological factors:

1. The post World

The Motor Company updated technology both in their manufacturing venue and in the product itself. H-D balanced on a near-impossible fulcrum, maintaining tradition on one side and complying with environmental
