Time Is Greater Than Money

This Is Parenting on Your Own Terms
Chances are, you'd rather not forfeit your happy, rested life the moment you become a parent. As a mom, you may want to keep your career, but aren't sure how to balance it with housework and childcare. As a dad, you probably want to witness your child's milestones, but a demanding job may get in the way. And what about time for yourself (never mind your sex life)? Marc and Amy Vachon were determined to beat this scenario when their first child was born. They vowed to sidestep the world's expectations of new parents and create a parenthood model that worked for them. Their strategy was to share everything--the good and the bad. They became peers in each area of parenthood: childcare, housework, and breadwinning. They also made time for themselves, and for each other. They shared the burdens so nobody was overwhelmed, and the joys so neither missed out on the fun. Drawing on Marc and Amy's experiences, as well as those of dozens of ESP couples, Equally Shared Parenting shows you how to create a balanced life that is rarely experienced by today's parents. It's not just about who vacuums and who does the dishes, or who brings in the paycheck and who tends to the kids. You'll learn how to look at every aspect of parenthood, money, careers, and your individual needs, so you can build a life that works for you both.

The series, founded in 1970, publishes works which either combine studies in the history of philosophy with a systematic approach or bring together systematic studies with reconstructions from the history of philosophy. The Martha Stewart Cookbook is filled with recipes--1200 in all--for every kind of cook and every occasion. Some recipes invite you to stretch your cooking knowledge and expertise while others provide inspiration--and instruction--for what to have for dinner. Organized, in trademark style, for maximum practicality and ease of use, this major general-purpose cookbook features nineteen classically arranged chapters, from Basics, Breakfast, and Hors d'Oeuvres to Meat, Poultry, Fish and Shellfish and Desserts. For centuries, people have been fascinated by the power and secrets of mediums. And today, many are interested in making contact with the spirit world themselves--either to communicate with loved ones, heal the sick, or discover knowledge-- but don't know how. Yet, as Larry Dreller writes, "At birth we all are given the gift of seeing beyond this humble Earth plane into other dimensions, but as we grow older we cast this natural ability aside. Mediums did not lose this ability and are people who act as intermediaries between this world and the 'other side.'" Both an introduction to this phenomenon as well as a workbook that guides the reader through exercises to reawaken their abilities, the Beginner's Guide to Mediumship shows how to develop spiritual powers, conduct seances, harness the power of prophecy, comfort and heal others, see auras, and more. Drawing on his own experience, Dreller focuses on pure and practical day-to-day applications of mediumship and how they can enrich readers lives. This book constitutes the proceedings of the 16th International Conference on Business Process Management, BPM 2018, held in Sydney, Australia, in September 2018. The 27 papers presented in this volume were carefully reviewed and selected from 140 submissions. They were organized in topical sections named: reflections on BPM; concepts and methods in business process modeling and analysis; foundations of process discovery; alignments and conformance checking; process model analysis and machine learning; digital process innovation; and method analysis and selection.

Susy Smith wrote How to Develop Your ESP many years before she founded the Survival Research Foundation and also the Susy Smith Project at the Unviersity of Arizona which is now recognized as the center of Afterlife Codes research. It tells a lot more than just how to try to learn techniques of using telepathy, clairvoyance and precognition, for it also wants to help those who desire to learn to communicate with beloved friends and relatives who have passed on. Many aspects of the psychical field, such as healing, celebrity seances, psychic surgeons, possession, and physical phenomena are discussed here, with fascinating case histories throughout. Reading about how others have advanced their abilities, as well as the problems and experiences they have had, is informing and entertaining even for those who have no desire to personally work on their own ESP development. Be sure to visit the Afterlife Codes website of the Susy Smith Project at www.afterlifecodes.com.

Experiencer: Raised In Two Worlds: A True Account of Otherworldly Experiences

Webster's New World Dictionary

Experiencer: Raised in Two Worlds is a deeply personal non-fiction autobiography by long-time UFO investigator William Konkolesky, reflecting on his multiple childhood experiences of alien abduction. Beginning with a small gray with large black eyes being visiting him in his crib when he was only two years old and steadily increasing in frequency and intensity over the years, Konkolesky's contact experiences left him constantly confused and often terrified. While there are many books that discuss what researchers observe in children abductees, this book is actually what it is like to be one.
