 Written in the same conversational tone that made The Macintosh Bible such a success, this book takes the concept of the ultimate reference book one step further. With completely updated information, more graphics, and dramatically improved internal design, this book is destined to become the premiere general reference book for today's Mac enthusiasts. Why can't we convince others? And why won't people listen? We say great things to people. We offer great products to prospects. We share our vision and passion with others. And they don't believe us, they don't buy, and they don't share our vision and passion. We say great things, but people don't believe us or act on our message. Why? Well, we don't need more good things to say. Instead, we need to learn how to get people to believe and trust the good things we are saying already. It's not about the price. It's not about the salesman's breath. It is not about the leader's PowerPoint presentation. It is all about the magical first few seconds when we meet people. What happens? In the first few seconds, people make an instant decision to: 1. Trust us. Believe us. Or, in the first few seconds, people make an instant decision to: 2. Turn on the salesman alarm. Put on the "too good to be true" filter. Be skeptical. Look for "the catch." This decision is immediate, and unfortunately, usually final. Tom "Big Al" Schreiter shows us exactly how to build a bond of trust and belief with prospects in seconds. How? By talking directly to the decision-making part of the brain, the subconscious mind. In this book, "How To Get Instant Trust, Belief, Influence And Rapport" 13 Ways To Create Open Minds By Talking To The Subconscious Mind," we will learn easy four- and five-word micro-phrases and simple, natural techniques that you can master within seconds. Yes, this is easy to do! Our message should be inside of other people's heads, not bouncing off their foreheads. Our obligation is to get our message inside of their heads so they will have options and choices in their lives. Now, if we can't get people to trust and believe our message, then we will effectively be withholding our message from them. Use these short, easy, tested, clear techniques to build that instant rapport with other people. Then, everything else is easy. If you are a leader, a salesman, a network marketer, an influencer, a teacher, or someone who needs to communicate quickly and efficiently, this book is for you. Order your copy now!

I was able to land my dream job as the Entrepreneurship Director for Camp BizSmart, teaching at places like Stanford University. I got to host events and connect with major influencers like Venture Capitalists, Investors, and Entrepreneurs at VC firms on Sand Hill Road. Because of my network, I have to consistently turn down job opportunities from powerful people because I simply cannot do them all. I'm not saying this to brag. I'm sharing this with you to prove that ANY ONE can do this. When I graduated from school, I was a NOBODY. The best advice I got was: "Just go network!" But honestly, what does "networking" even mean? Does that mean I have to suck up to people for them to like or notice me? Why would business professionals want to talk to a young guy like me? I was confused. No one taught me how to network. I always imagined we had to exchange business cards with each other and talk about golf. Fast forward two years later, I have been blessed to be connected with many influential people including entrepreneurs, authors, investors, business professionals, creative artists, and so much more. I didn't grow up rich. My family isn't well-connected. I'm not blessed with any special talents. So how did I do it? I want to share exactly what I did to build my network so that you don't have to go through the hardships and struggles that I went through. In this book, it will show you step by step what mindset you should have, proven tactics on how to connect with people, and how to get started immediately. Regardless if you're a college student, graduate, working full-time, or even unemployed... These tips and techniques have been PROVEN to drive massive results. Networking is a massively useful skill that will open so many opportunities for you. Mastering networking would not only lead to more job offers and new connections but help build an awesome support group to motivate & inspire you. This precious skill is something that school will never teach you but all the secrets are here... What are you waiting for?)

 "One of the most interesting and useful books ever written on networking..."—Adam Grant Social Chemistry will utterly transform the way you think about "networking." Understanding the contours of your social network can dramatically enhance personal relationships, work life, and even your global impact. Are you an Expansionist, a Broker, or a Convener? The answer matters more than you think. . . . Yale professor Marissa King shows how anyone can build more meaningful and productive relationships based on insights from neuroscience, psychology, and network analysis. Conventional wisdom says it's the size of your network that matters, but social science research has proven there is more to it. King explains that the quality and structure of our relationships has the greatest impact on our personal and professional lives. As she illustrates, there are three basic types of networks, so readers can see the role they are already playing: Expansionist, Broker, or Convener. This network decoder enables readers to own their network style and modify it for better alignment with their life plans and values. High-quality connections in your social network strongly predict cognitive functioning, emotional resilience, and satisfaction at work. A well-structured network is likely to boost the quality of your own ideas, as well as your pay. Beyond the office, social connections are the lifeblood of our health and happiness. The compiled results from dozens of previous studies found that our social relationships have an effect on our likelihood of dying prematurely—equivalent to either smoking, Rich stories of Expansionists like Vernon Jordan, Brokers like Yo-Yo Ma, and Conveners like Anna Wittour, as well as personal experiences from King's own world of connections, inform this warm, engaging, revelatory investigation into some of the most consequential decisions we can make about the trajectory of our lives.
