The path to becoming a citizen of the United States of America can be arduous. My book lays out in great detail how immigrants can become U.S. citizens by simply following the guidelines laid out by the USCIS. This book shows the processes involved in becoming a U.S. citizen and explain what needs to be done each step of the way. Beginning with an initial application, to biometrics, to interview, and all the forms filled out along the way - the process of immigrating to the U.S. is clearly spelled out for anyone who has an interest in moving to the U.S., or bringing a family member into the U.S. You will see actual immigration forms that I used in my own process and the response received from USCIS at each leg of my journey, along with the timelines for each part of the application process. In addition to all this, there is a question and answer chapter that provides answers to some of the many questions that arise during the immigration process. Fun facts and other tidbits are also included.

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
