Barging in Europe

The present work, the result of some forty years of investigative research, is a logical progression from my previous books: the expose of the international control of monetary issue and banking practices in the United States; a later work revealing the secret network of organizations through which these alien forces wield political power-the secret committees, foundations, and political parties through which their hidden plans are implemented; and now; to the most vital issue of all, the manner in which these depredations affect the daily lives and health of American citizens. Despite the great power of the hidden rulers, I found that only one group has the power to issue life or death sentences to any American-our nation's physicians. I discovered that these physicians, despite their great power, were themselves subjected to very strict controls over every aspect of their professional lives. These controls, surprisingly enough, were not wielded by any state or federal agency, although almost every other aspect of American life is now under the absolute control of the bureaucracy. The physicians have their own autocracy, a private trade association, the American Medical Association. This group, which is headquartered in Chicago, Illinois, had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians. The trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books. I knew that they had already looted America, reduced its military power to a dangerously low level, and imposed bureaucratic controls on every American. I now discovered that their conspiracies also directly affected the health of every American. This conspiracy has resulted in a documented decline in the health of our citizens. We now rank far down the list of civilized nations in infant mortality and other significant medical statistics. I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through "charitable" organizations and then use these same organizations as key groups to bolster their Medical Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their "behavioural control" over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof of this operation may be the most disturbing revelation of my work.

The Silver Spoon Book of Pasta Veganist

What's wrong with Football today? In June 2011, Sepp Blatter was elected - uncontested - as president of Fifa once more. D attempts to halt the vote amidst allegations and accusations of corruption, the show went on. As How They Stole The Game Yallop's classic expose of the dark heart behind the beautiful game showed when it was first published, Football was rotten top down. In the book Yallop reveals the story of João Havelange, Fifa President from 1974 to 1998, the Godfather of football he turned a religion to millions of fans into a multi-billion dollar business, riven with suspicious deals and unexpected payments.

Kathy Freston wasn't born a vegan. The bestselling author and renowned wellness expert actually grew up on chicken-fried steak and cheesy grits, and loved nothing more than BBQ ribs and vanilla milkshakes. Not until her thirties did she embrace the lifestyle of a veganist--someone who eats a plant-based diet not just for their own personal well-being, but for the whole web of benefits it brings to our ecosystem and beyond. Kathy's shift toward this new life was gradual--she leaned into it--but the impact was profound. Now Kathy shows us how to lean into the veganist life. Effortless weight loss, reversal of disease, environmental responsibility, spiritual awakening--these are just a few of the ten profound changes that can be achieved through a gentle switch in food choices. Filled with compelling facts, stories of people who have improved their weight and health conditions as a result of making the switch, and Q&As with the leading medical researchers, Veganist concludes with a step-by-step practical guide to becoming a veganist...easily and gradually. It is an accessible, optimistic, and illuminating book that will change the way you eat forever. No less delicious, still hearty and satisfying--just better for you and for all.

Echoes Down the Years

The son of the deposed Shah of Iran reflects on Iran's political situation (without mentioning his father) and argues for a campaign of civil disobedience to the current Iranian regime that would hopefully lead to a constitutional monarchy restoring a Pahlavi to the throne of Iran. He discusses energy policy, foreign policy, and the Iranian Diaspora suggesting that the policies of the current clerical leaders of Iran have led to disastrous results for the Iranian people. He counters this with some rather bland bromides about international cooperation, secularization, self-determination, and cultural preservation. If brought back to the throne, he claims he will consult all of the Iranian people in governing the nation. Annotation copyrighted by Book News, Inc., Portland, OR.
