International Law Notes

Shafi's Complete Set of Labour Laws, 1985

This book is the first in a series of essay collections on defences in private law. It addresses defences to liability arising in tort. The essays range from those adopting a primarily doctrinal approach to others that examine the law from a more theoretical or historical perspective. Some essays focus on individual defences, while some are concerned with the links between defences, or with how defences relate to the structure of tort law as a whole. A number of the essays also draw upon concepts and literature that have been developed mainly in relation to the criminal law, and consider their application to tort law. The essays make several original contributions to this complex, important but neglected field of academic enquiry.

Production, Refining, Fabrication and Recycling of Light Metals

Census of India, 1981: District census handbook. A & B. Village & town directory ; Village & townwise primary census abstract

This edited volume includes thoroughly collected on sensing and control for autonomous vehicles. Guidance, navigation and motion control systems for autonomous vehicles are increasingly important in land-based, marine and aerial operations. Autonomous underwater vehicles may be used for pipeline inspection, light intervention work, underwater survey and collection of oceanographic/biological data. Autonomous unmanned aerial systems can be used in a large number of applications such as inspection, monitoring, data collection, surveillance, etc. At present, vehicles operate with limited autonomy and a minimum of intelligence. There is a growing interest for cooperative and coordinated multi-vehicle systems, real-time re-planning, robust autonomous navigation systems and robust autonomous control of vehicles. Unmanned vehicles with high levels of autonomy may be used for safe and efficient collection of environmental data, for assimilation of climate and environmental models and to complement global satellite systems. The target audience primarily comprises research

experts in the field of control theory, but the book may also be beneficial for graduate students.

Sensing and Control for Autonomous Vehicles

Census of India, 1981: A. General population tables. B. Primary census abstracts

This volume is the result of an international conference organized by the South Asia Institute at the University of Texas. Patrick Olivelle has collected and edited the best papers to emerge from the conference. Part I of the book looks at what can be construed from archeological evidence. Part II concerns itself with the textual evidence for the period. Taken together, these essays offer an unprecedented look at Indian culture and society in this distant epoch.

Applications to Land, Water and Air Vehicles

Cricket, law and the meaning of life ... In a readable, informed and absorbing discussion of cricket's defining controversies – bodyline, chucking, ball-tampering, sledging, walking and the use of technology, among many others – David Fraser explores the ambiguities of law and social order in cricket. Cricket and the Law charts the interrelationship between cricket and legal theory – between the law of the game and the law of our lives – and demonstrates how cricket's cultural conventions can escape the confines of the game to carry far broader social meanings. This engaging study will be enjoyed by lawyers, students of culture and cricket lovers everywhere.

Defences in Tort

Struggle for Gender Justice

Census of India, 1981

Nearly everyone wants to 'peep'. Inevitable, if you want to understand something in entirety. May be a few concrete

abominations behind scenic woods? Something telling you there is just more? These memoirs are an honest, tender meeting of that need to peep with the impulse to show - a type of nascent voyeurism. Behind the gritty, forbidding persona of the professional woman lies the engaging story of a vulnerable girl who grappled with childhood prejudices, social dogma and disheartening career plateaus. These are Gayathri's lessons with life. From legal battles through miscarriages, she had very few guides. While her revelations are trepidatious, they offer a glimpse into the emotional turbulence that characterizes the 'lifescape' of a woman emerging out of patriarchal structures from early childhood through her 60s. This is an everyday story whose power grows over time. Dr Deepthi, Asst Professor.Dept of English. Govt First Grade college for women. Ramanagara. Upto-date 1987

The Spoliation of Nagpore

Indian Books in Print

Sudan and South Sudan have suffered from repeated cycles of conflict and authoritarianism resulting in serious human rights and humanitarian law violations. Several efforts, such as the 2005 Comprehensive Peace Agreement and transitional justice initiatives have recognized that the failure to develop a stable political and legal order is at the heart of Sudan's governance problems. Following South Sudan's independence in 2011, parallel constitutional review processes are under way that have prompted intense debates about core issues of Sudan's identity, governance and rule of law, human rights protection and the relationship between religion and the State. This book provides an in-depth study of Sudan's constitutional history and current debates with a view to identifying critical factors that would enable Sudan and South Sudan to overcome the apparent failure to agree on and implement a stable order conducive to sustainable peace and human rights protection. It examines relevant processes against the broader (constitutional) history of Sudan and identifies the building blocks for constitutional reforms through a detailed analysis of Sudanese law and politics. The book addresses constitutionalism and constitutional rights protection in their political,

legal and institutional context in Sudan and South Sudan, and the repercussions of the relationship between state and religion for the right to freedom of religion, minority rights and women's rights.
