

## Introduction To Christian Theology Justo L Gonzalez

Spanning the gamut from "Aaron" to "Zwingli," this dictionary includes nearly 3,000 entries written by about sixty authors, all of whom are specialists in their various theological and religious disciplines. The editors have designed the dictionary especially to aid the introductory-level student with instant access to definitions of terms likely to be encountered in, but not to substitute for, classroom presentations or reading assignments. - Publisher.

Catherine and Justo Gonzalez provide a valuable resource for preaching and biblical interpretation. An account of liberation theology's impact on the task of preaching is offered by two historians of doctrine who are intimately aware of the need to be open to marginalized perspectives in the church. Early Christian preachers had much to say on issues such as the origins and proper use of wealth, the rights and duties of the poor and rich, and the nature of ownership. The Gonzalezes recapture this early Christian spirit offering concrete ways that the interpretation of specific biblical texts may be enriched or corrected in order to speak directly to the whole life of the whole church. Often used as a text in preaching courses, 'The Liberating Pulpit' helps to clarify and to bridge the gap between those whose preaching and hermeneutics tend to be more traditional and the various minorities who tend to read Scripture in a different way.

In Essential Theological Terms, renowned church historian Justo González provides students with accessible discussions of over three hundred theological terms. Each entry in this two-column work gives more detail than those typical of a dictionary, introducing the meaning of the term, its importance, and ways it has been understood in both historical and contemporary theology. These reliable discussions of the most common ideas and concepts encountered in theological studies will make this book indispensable for students in all stages of their education.

Daniel Migliore's Faith Seeking Understanding has been a standard introduction to Christian theology for more than a decade. The book's presentation of traditional doctrine in freshly contemporary ways, its concern to hear and critically engage new voices in theology, and its creative and accessible style have kept it one of the most stimulating, balanced, and readable guides to theology available. This second edition of Faith Seeking Understanding features improvements from cover to cover. Besides updating and expanding the entire text of the book, Migliore has added two completely new chapters. The first, "Confessing Jesus Christ in Context," explores the unique contributions to Christian theology made by recent theologians working in the African American, Asian American, Latin American, Hispanic, feminist, womanist, and mujerista traditions. The second new chapter, "The Finality of Jesus Christ and Religious Pluralism," addresses the growing interest in the relationship of Christianity to other religions and their adherents. Migliore's three delightful theological dialogues are followed by a new appendix, an extensive glossary of theological terms, making the book even more useful to students seeking to understand the history, themes, and challenges of Christian belief.

Introduction to Christian Theology

The Reformation to the Present Day

The Book of Pastoral Rule

Christian Theology from a Hispanic Perspective

***“I do not hope to convince you so that you will believe. That is to be left to the Holy Spirit. I write to you because you share the faith by which I live. I write so that you may share my joy in seeking to understand better this truth that our hearts believe and love.” In Knowing Our Faith Justo González introduces the Christian faith in direct, contemporary language that does not assume prior knowledge. While recognizing the existence of various denominations and theological positions, González focuses on the core faith of the Christian church through the centuries. Covering all the key topics—revelation, God, Jesus Christ, the Spirit, the church, Christian hope, and others—Knowing Our Faith is an ideal resource for both individual reading and small group study, with questions for discussion included at the end of each short chapter. This accessible resource will help readers understand the Christian faith better—and, more importantly, live it better.***

***New, different readings of church history are finally reflecting Christianity s deep roots in every culture worldwide. Gonz lez listens to voices from centers other than the North Atlantic to help us see a different perspective of church history -a global story that includes those previously marginalized -as he offers us a hopeful outlook for the future of world Christianity.***

***Available in English for the first time, Three Months with Revelation is popular author Justo Gonzalez' study of Revelation. Eminently readable, the study uses the see-judge-act method to bring readers closer to the text and informs and challenges the daily life of the Christian. These thirteen studies can be used for Sunday school, for evening Bible study, for home study meetings, for faith communities, for retreats, and for personal Bible study. In addition, Three Months with Revelation can easily be used as a daily Bible study, as each lesson is divided into seven parts. This is the third Gonzalez title to be translated from the Spanish. To see another group study offered by Cokesbury, go to the Adult Bible Studies website.***

***One of the chief difficulties in studying the history of Christianity is the lack of prior exposure to the subject that students often bring with them. Struggling to keep up with the large numbers of names, dates, and places presented to them, it is easy for students to lose sight of the "big picture," the broad sweep of movement and change that instructors most wish to communicate. Justo Gonzalez has written this book to help students gain just such a quick and basic grasp of the main periods and issues in the history of Christianity. Drawing upon his own extensive experience and that of others, he contends that having been introduced to the essentials of church history in a brief and accessible form, students are far better able to understand and appreciate what they encounter in more detailed lectures and reading. Gonzalez provides a comprehensive opening chapter that summarizes major issues and concerns of each of the principal eras of church history. Subsequent chapters focus on the ancient church, the Christian empire, the Middle Ages, the Reformation, the seventeenth through nineteenth centuries, and the twentieth century and the end of modernity.***

*Can these dry bones live? : an introduction to Christian theology*

Theology today is faced with increasing amounts of religious and theological pluralism. What is distinctive about Christian theology? Why do these ideas matter? And the biggest question of all: Who cares? Key aspects of orthodox theology are seen as speculative and irrelevant to "authentic" Christianity and to personal spirituality. While not succumbing to the pragmatism of the age, this book shows that key elements of Christian theology ground an integrated worldview and are essential for spiritual formation. Engaging Theology is an introductory theology textbook that grounds a treatment of standard systematic topics in the wider context of life and practice and shows the relevance of each doctrine to the church. The book treats the essential doctrines of Christian orthodoxy by following the pattern of story, doctrinal exposition, theological relevance, and spiritual relevance: Story: Each chapter begins with a brief and engaging account of the historical situation out of which the doctrine arose or where it played an essential role in the development of the church, showing students that orthodox theology matters and introducing them to most of the key theologians in the history of the church. Doctrinal Exposition: The heart of the chapter is exposition of key elements of the doctrine, highlighting core and debated elements while clarifying heterodox perspectives. Integrated with the narrative account this section also models the contextualized nature of theology. Each chapter includes Biblical, historical, and contemporary views on the issue and notes key figures in the debates and their influence. Theological Relevance: While theological relevance is clear throughout each chapter, this section highlights relevance to the modern setting and concerns, including interaction with heterodox and non-Christian faiths. It identifies current theological problems besetting the church and shows how a proper understanding and integration of orthodox theology addresses these problems. It also points to other problems the church is facing for interesting discussion starters. Spiritual Relevance: Since orthodox theology has a direct influence on one's own spiritual formation and practice, each chapter concludes with practical encouragements and discussions about how each doctrine can be integrated in one's personal and corporate life. Engaging Theology is ideal for students and everyday people living in a post Christian era to help them seriously engage with the Christian faith.

Historical events have long been the standard lens through which scholars have sought to understand the theology of Christianity in late antiquity. The lives of significant theological figures, the rejection of individuals and movements as heretical, and the Trinitarian and christological controversiesthe defining theological events of the early churchhave long provided the framework with which to understand the development of early Christian belief. In this groundbreaking work, esteemed historian of Christianity Justo González chooses to focus on the literature of early Christianity. Beginning with the epistolary writings of the earliest Christian writers of the second century CE, he moves through apologies, martyrologies, antiheretical polemics, biblical commentaries, sermons, all the way up through Augustine's invention of spiritual autobiography and beyond. Throughout he demonstrates how literary genre played a decisive role in the construction of theological meaning. Covering the earliest noncanonical Christian writings through the fifth century and later, this book will serve as an indispensable guide to students studying the theology of the early church.

The Lord's Prayer is one of the oldest and most widely used short summaries not only of how Christians pray but of what they believe about God, the world, and humankind. Justo González, whose textbooks have taught Christian doctrine and history to thousands of pastors, draws on scripture, the Church Fathers, and his own life experience to make this vital prayer from the Christian past comprehensible for readers who want to understand—and live—Christianity in the present. Teach Us to Pray is for all who are learning or practicing Christian discipleship and ministry, from college students and motivated laypeople to veteran pastors and teachers.

This volume, condensed from Dr. Justo González's popular three-volume history, is revised and updated. While retaining the essential elements of the earlier three volumes, this book describes the central figures and debates leading to the Councils of Nicea and Chalcedon.

Then it moves to Augustine and shows how Christianity evolved and was understood in the Latin West and Byzantine East during the Middle Ages. Finally, the book introduces the towering theological leaders of the Reformation and continues to trace the development of

Protestant, Catholic, and Orthodox Christianities through modernity in the twentieth century to post-modernity in the twenty-first.

*Three Types of Theology*

*An Introduction to Christian Theology*

***In this book Alvin Padilla, Roberto Goizueta, and Eldin Villafa e bring together an impressive array of Hispanic scholars from across the theological disciplines to articulate just such a comprehensive construction of Hispanic theology. Their purpose is to delineate the common elements in Hispanic biblical studies, theology, and ethics and to draw these together into a statement of what Hispanic theology has to say to the larger theological community, and to the church. To do so they organize their presentation around four theological streams that run through Hispanic theology: \* Reading Scripture from the Margins: The contributors will present a reading of the biblical text that incorporates into its interpretative methodology the experience of alienation and marginalization, the central feature of Hispanic sociohistorical reality. \* Subversive and Liberating Memories: The contributors discover the subversive and liberating stories and voices within the Christian tradition and demonstrate how the memory of these "liberate" Hispanics and others from contemporary oppression. \* Liberating Truth: The authors offer fresh perspective on theological truth, incorporating the distinctive Hispanic sources, locus, and expressions. \* Liberating Praxis: Drawing on current Hispanic religious experience (for example, spirituality, church life, and ministry), the authors reflect on the way Hispanic religious experience is changing and how it will change the landscape of Western Christianity in the 21st century.***

***This book helps beginning theological students grasp the basics of Christian theology. Consciously avoiding the perspective of one school of thought or confessional tradition, the authors provide the reader with a brief, broad overview of the questions and contents of theological study. Their accessible use of language, clear organization, and careful explanation will prove of invaluable aid to those who are getting their theological feet wet for the first time. "In the words of its authors, this book offers an introduction 'to the fuller spectrum of Christian theology as it has developed through the centuries.' Few writers address the historical development of the classic doctrines and the contemporary resonance as adroitly as Gonzalez and Perez. The chapter on Jesus Christ, for example, presents concise summaries of the treatments of Christ's person leading up to Chalcedon, while suggesting a need for a multiplicity of images in understanding the work of Christ that liberates the whole person and restores all creation. Beginning students, as a result, are invited into a living theological conversation, where the contested claims of the past have continued relevance in a contemporary era beset by its undervaluing of the body and creation. Broadly ecumenical in tenor, with reference to theologians from nearly every century, the work should appeal to both a popular readership and introductory students in college and seminary. One disappointing aspect of the book is an absence of Latino/a, feminist, and liberation perspectives. For a work that argues for the contextuality of all theology, and from authors whose previous work has been monumental in Hispanic theological education, this lack is surprising."---David H. Jensen, Austin Presbyterian Theological Seminary, in Religious Studies Review, Volume 29 Number 3, July 2003.***

***Decolonizing theological education and restoring agency to the people Latinx Protestantism is a rapidly growing element of American Christianity. How should institutions of theological education in the United States welcome and incorporate the gifts of these populations into their work? This is an especially difficult question considering the painful history of colonization***

*in Latin America and the Caribbean, an agenda in which theological education was long complicit. In this book, Elizabeth Conde-Frazier takes stock of the cabos sueltos—loose ends—left over from the history of Latinx Christianity, including the ways the rise of Pentecostalism disrupted existing power structures and opened up new ways for Latinx people to assert agency. Then, atando cabos—tying these loose ends together—she reflects on how a new paradigm, centered on the work of the Holy Spirit, can serve to decolonize theological education going forward, bringing about an in-breaking of the kingdom of God. Conde-Frazier illustrates how this in-breaking would bring changes in epistemology, curriculum, pedagogy, and models for financial sustainability. Atando Cabos explores each of these topics and proposes a collaborative ecology that stresses the connections between theological education and wider communities of faith and practice. Far from taking a position of insularity, Atando Cabos works from the particularities of the Latinx Protestant context outward to other communities that are wrestling with similar issues so that, by the end, it is a call for transformation—a new reformation—for the entire Christian church.*

*An in-depth look at Christian theology through Hispanic eyes. It weaves the doctrinal formulations of the early church on creation, the Trinity, and Christology into contemporary theological reflection on the Hispanic struggle for liberation. This volume offers a major theological statement from a respected theologian and author. Richly insightful and unique, Manana is one of the few major theological works from a Protestant representative of the Hispanic tradition. Justo L. Gonzalez offers theological reflections based upon unique insights born of his minority status as a Hispanic American.*

*A Theologian Between Two Cultures*

*Authoritative yet accessible historical overview of Christian Sunday worship In this book noted Christian historian Justo Gonzalez tells the story of how and why Christians have worshiped on Sunday from the earliest days of the church to the present. After discussing the views and practices relating to Sunday in the ancient church, Gonzalez turns to Constantine and how his policies affected Sunday observances. He then recounts the long process, beginning in the Middle Ages and culminating with Puritanism, whereby Christians came to think of and strictly observe Sunday as the Sabbath. Finally, Gonzalez looks at the current state of things, exploring especially how the explosive growth of the church in the Majority World has affected the observance of Sunday worldwide. Readers of this book will rediscover the joy and excitement of Sunday as the early church celebrated it and will find inspiration in an age of increasing indifference and hostility to Christianity."*

*Most historical theology texts follow Christian beliefs chronologically, discussing notable doctrinal developments for all areas of theology according to their historical appearance. And while this may be good history, it can make for confusing theology, with the classic theological loci scattered throughout various time periods, movements, and controversies. In Historical Theology, Gregg Allison offers students the opportunity to study the historical development of theology according to a topical-chronological arrangement, setting out the history of Christian doctrine one theological element at a time. Such an approach allows readers to concentrate on one tenet of Christianity and its formulation in the early church, through the Middle Ages, Reformation, and post-Reformation era, and into the modern period. The text includes a generous mix of primary source material as well, citing the words of Cyprian, Augustine, Aquinas, Luther, Calvin, Barth, and others. Allison references the most accessible editions of these notable theologians' work so that readers can continue their study of historical theology through Christian history's most important contributors. Historical Theology is a superb resource for those familiar with Wayne Grudem's Systematic Theology or interested in understanding the development of Christian theology.*

*Beginning with the Protestant Reformation of the sixteenth century, this second volume of The Story of Christianity continues narrative history to the present. Historian Justo Gonzalez brings to life the people, dramatic events, and shaping ideas of Protestantism, Catholicism, and Orthodoxy during this period, keynoting crucial theological developments while providing fresh understanding of the social, political, and economic forces that influenced the formation of the church. In particular, the author notes recurring themes of unrest, rebellion, and reformation. Gonzalez presents an illuminating record of the lives, impelling ideas, and achievements of such prominent figures as Martin Luther, Ulrich Zwingli, and John Calvin—movers and shapers in the emerging Protestant church. His biographical insights, in conjunction with vivid historical accounts, reveal how individual lives mirror and clarify core theological concerns and developments. The interpretive overview of The Story of Christianity includes a thorough and timely analysis of the growth and maturation of Christianity, including events in Europe, the United States, and Latin America—the latter an area too often neglected in church histories, yet increasingly vital to an understanding of Christianity's historical development, present situation, and future, options. Gonzalez's richly textured study discusses the changes and directions of the church in the traditions of Protestantism, Roman Catholicism, and Eastern Christianity. The Story of Christianity covers such recent occurrences as the World Council of Churches, the Second Vatican Council, the movement toward Christian unity, and much more. It concludes with a thoughtful look at the major issues and debates involving Christians today.*

*A treatment of the evolution of Christian thought from the birth of Christ, to the Apostles, to the early church, to the great flowering of Christianity across the world. "Recognized as the most thorough pastoral treatise of the patristic era, this sixth-century work by St Gregory the Great carefully details the duties and obligations of the clergy concerning the spiritual formation of their flock."--BOOK JACKET.

Theological education has always been vital to the Church's life and mission; yet today it is in crisis, lacking focus, direction, but also resources and even students. In the early Church, there is no doubt that to lead worship one had to be able to read and interpret the Bible. In order to lead, it was necessary to know at least something about the history of Israel and the work of God in the Gospels, and interpret that history, making it relevant to daily living. Quickly the Church developed schools for its teachers, whether lay or clergy. A catechetical system was organized through which candidates prepared for baptism were given a basic form of theological education. Hence to be a Christian meant persons knew what and why they believed. But over the years, theological education has come to mean education for clergy and church professionals. It has drifted, seeking new moorings.

Far from being solely an academic enterprise, the practice of theology can pique the interest of anyone who wonders about the meaning of life. Inviting readers on a journey of 'faith seeking understanding', this introduction to Christian theology - its basic concepts, confessional content, and history - emphasizes the relevance of the key convictions of Christian faith to the challenges of today's world. In the first part, this book introduces the project of Christian theology and sketches the critical context that confronts Christian thought and practice today. In a second part, it offers a survey of the key doctrinal themes of Christian theology - including revelation, the triune God, and the world as creation - identifying their biblical roots and the highlights of their historical development before giving a systematic evaluation of each theme. The third part provides an overview of Christian theology from the early church to the present.

Few thinkers have been as influential as Augustine of Hippo. His writings, such as Confessions and City of God, have left an indelible mark on Western Christianity. He has become so synonymous with Christianity in the West that we easily forget he was a man of two cultures: African and Greco-Roman. The mixture of African Christianity and Greco-Roman rhetoric and philosophy gave his theology and ministry a unique potency in the cultural ferment of the late Roman empire. Augustine experienced what Latino/a theology calls mestizaje, which means being of a mixed background. Cuban American historian and theologian Justo González looks at the life and legacy of Augustine from the perspective of his own Latino heritage and finds in the bishop of Hippo a remarkable resource for the church today. The mestizo Augustine can serve as a lens by which to see afresh not only the history of Christianity but also our own culturally diverse world.

A Brief History of Sunday

From the Beginnings to the Council of Chalcedon

Three Months with Revelation

The Changing Shape of Church History

The Story Luke Tells

Latina Evangelicas: A Theological Survey from the Margins is a constructive and postcolonial examination of the theology of Protestant Latinas who reside in the United States. Written by three Latinas who have pastored and who teach in Latina/o communities, the book seeks to expand beyond Latina feminist and mujerista voices to include those whose perspectives have not yet been heard. It thus introduces an important theological perspective to a wider audience, and provides an important resource that has been lacking for evangelicas/os and other marginalized groups who study in various theological programs. Key terminology, such as evangelica, is defined throughout, and a glossary is included for non-Spanish-speaking readers. Each chapter considers theological themes important to the Latina Protestant worshiping community, beginning with a constructive discussion of the doctrine of the Holy Spirit and followed by the doctrines of salvation and Jesus Christ, the Trinity, the church, Scripture, and "the last things" (eschatology). Given that one of the characteristics of Latina/o theologies is their dialogical and collaborative nature, the book concludes with a conversation among the three authors about the theological thinking that took place in its composition. Study questions are included at the end of each chapter.

Beginning with the Protestant Reformation of the sixteenth century, this fully revised and updated second volume of The Story of Christianity continues the marvelous history of the world's largest religion. Award-winning historian Justo Gonzalez bring to life the people, dramatic events, and theological debates that have shaped Protestantism, Catholicism, and Orthodoxy. From the monk Martin Luther, who dared to stand up to a corrupt pope, to the surprising spread and growing vitality of today's church in Africa, Asia, and South America, The Story of Christianity offers a complete and up-to-date retelling of this amazing history. With new information on the important contributions of women to church history as well as the latest information on Christianity in developing countries, Gonzalez's richly textured study discusses the changes and directions of the church up to the twenty-first century. The Story of Christianity covers such recent occurrences as the fall of the Soviet Union and the return of the Russian Orthodox Church; feminist, Africa-American, and Third-World theologies; the scandals and controversies facing the reign of Pope Benedict XVI; interfaith dialogue; and the movement toward unity of all Christian churches. This revised and updated edition of The Story of Christianity concludes with a thoughtful look at the major issues and debates facing Christianity today.

First published in 1989, Christian Thought Revisited offers an overview of three basic models of theology in Western Christianity. The purpose of this categorization is to help students understand the validity and application of all three models in the study of theology today. Gonzalez has updated the discussion on each model to include contemporary concerns.

A concise history of the Bible: its creation, use, and interpretation What is the Bible? To answer this question we must understand the Bible's origins in the early church. In this book, celebrated church historian Justo González introduces the reader to some important features of the earliest Bibles--for instance, the Bible's original languages, its division into chapters and verses, and even its physical appearance in its first forms. González also explores the use of the Bible in the early church (such as in worship or in private reading) and the interpretation of the Bible throughout the ensuing centuries, giving readers a holistic sense of the Bible's emergence as the keystone of Christian life, from its beginnings to present times.

A Biblical, Historical, and Practical Introduction

Faith Seeking Understanding

Apuntes in Honor of Justo L. González

A History of Early Christian Literature

A Concise History of Christian Doctrine

Teach Us to Pray

Una clara, concisa y atrayente introducción a un campo que esta regresando una vez mas, especialmente entre los laicos comprometidos con el renovado interés en el crecimiento espiritual dentro del contexto de una tradición eclesiástica. Como historiadores del cristianismo, los autores de este libro ofrecen una introducción a las doctrinas cristianas tradicionales. Escrito en un estilo claro directo, este libro presenta una reseña de las raíces, los contextos particulares, y los entendimientos doctrinales de temas como la teología, Dios, el ser humano, Jesucristo, la iglesia, y la esperanza. A clear, concise and attractive introduction to a field that is returning once again, especially among the laity committed to the renewed interest in spiritual growth within the context of church tradition. As historians of Christianity, the authors of this book provide an introduction to traditional Christian doctrines. Written in a direct style, this book provides an overview of the roots, contexts, and understandings of issues of doctrine and theology, God, man, Jesus Christ, the church, and hope.

Out of Every Tribe and Nation demonstrates how ethnic minority perspectives can enrich the church's understanding of a variety of its traditional doctrines: creation, salvation, the Word, and the church in its relation to the world. In each case, Gonzalez draws from several ethnic minority perspectives to demonstrate that the church's traditional understanding of these doctrines, because it has been framed by one dominant group, has impoverished and at times distorted the gospel. In listening to these perspectives, the church can recapture the richness of the divine-human encounter in Christ, and reclaim its standing as "the whole people of God." By combining the theological perspectives of different ethnic minority theologians on the nature of the gospel and the church and by avoiding an anthology approach, the book offers a single, coherent theological discourse drawn from a variety of different yet complementary perspectives.
