

Introduction To International Legal English Student S Book With Audio Cds Rar

This book provides a modern and basic introduction to a branch of international law constantly gaining in importance in international life, namely international humanitarian law (the law of armed conflict). It is constructed in a way suitable for self-study. The subject-matters are discussed in self-contained chapters, allowing each to be studied independently of the others. Among the subject-matters discussed are, inter alia: the Relationship between jus ad bellum / jus in bello; Historical Evolution of IHL; Basic Principles and Sources of IHL; Martens Clause; International and Non-International Armed Conflicts; Material, Spatial, Personal and Temporal Scope of Application of IHL; Special Agreements under IHL; Role of the ICRC; Targeting; Objects Specifically Protected against Attack; Prohibited Weapons; Perfidy; Reprisals; Assistance of the Wounded and Sick; Definition of Combatants; Protection of Prisoners of War; Protection of Civilians; Occupied Territories; Protective Emblems; Sea Warfare; Neutrality; Implementation of IHL.

International Legal English Second edition is the definitive course for students who need to work in the international legal community.

International Legal English Teacher's Book is an essential companion for any teacher wishing to use International Legal English Second edition in the classroom. The book offers invaluable background information about the law topics discussed, giving teachers the confidence to explore these topics with their students. The Teacher's Book guides the teacher through the exercises in the book and suggests optional consolidation activities along the way. It includes over 50 extra photocopiable activities and adds a whole new communicative dimension to the course, with lots of ideas for discussion and role-plays.

Since the publication of its first edition, this textbook has become the definitive student introduction to the subject. As with earlier editions, the seventh edition gives a clear understanding of fundamental legal concepts and their importance within society. In addition, this book addresses the ways in which rules and the structures of law respond to and impact upon changes in economic and political life. The title has been extensively updated and explores recent high profile developments such as the Civil Partnership Act 2005 and the Racial and Religious Hatred Bill. This introductory text covers a wide range of topics in a clear, sensible fashion giving full context to each. For this reason An Introduction to Law is ideal for all students of law, be they undergraduate law students, those studying law as part of a mixed degree, or students on social sciences courses which offer law options.

Invaluable to students and those approaching the subject for the first time, An Introduction to International Relations, Second Edition provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation.

Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

A Course for Classroom Or Self-study Use : Student's Book

A Theory of Contractual Obligation

Introduction to Belgian Law

An Introduction to International Relations

A Course for Classroom Or Self-study Use ; [suitable Preparation for the International Legal English Certificate (ILEC)]

The real reason for the emergence of this book is that it is hard to find resources to explain complex issues of the EU Law in which makes it very difficult for those taking an interest, in particular law students. Moreover, many years of teaching experience and seeing students experience difficulties is the key driver behind this book. This book does not repeat material that is available in textbooks that are in print. Rather, it endeavours to present every topic in plain language and concludes every chapter with an explanatory sample case. In other words, it is an introduction to the subject of EU Law, the objective of which is to explain the law theoretically and in its application dimension. Additionally, this book will assist students to prepare for courseworks/examinations. At the end of the book there is also a test that summarizes all the subjects contained in the book, which is appropriate to the first stage (Qualifying Examination) examination model that will be introduced in September 2021. 'This is a clear and concise book with many visual aids (diagrams, tables etc...) that make it very easy to follow. The content defines, explains and covers the key aspects of the Legal System.' Ms Amel Ketani, Barrister and Senior Lecturer at BPP University 'Through explanation, questions and applications, this book compliments traditional English Legal System textbooks in an easily accessible and practically useful way.' Dr Ryan O'Connell, Head of School, Anglia Ruskin University Law School CONTENTS: Abbreviations About the author Foreword. CHAPTER I Introduction to the History, Sources and Institutions CHAPTER II Sources of Law I: Domestic Legislation CHAPTER III Source of Law II: Case Law CHAPTER IV Source of Law III: International Law CHAPTER V The Civil Justice System CHAPTER VI The Criminal Justice System CHAPTER VII Legal Professionals in the English Legal System Summary: Sample Test Questions Answers Glossary of Legal Terminology. Recommended Reading List Index

"Absolute Legal English is a practical and stimulating course book for students of law and practising lawyers who wish to work in an international legal environment and need to extend their language skills. It is particularly useful for candidates preparing for the exam"-back cover.

English is the dominant language of international business relations, and a good working knowledge of the language is essential for any legal or business professional. This book provides a highly practical approach to the use of English in commercial legal contexts, covering crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly useful for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers verbal legal communication in typical legal situations in a straightforward manner. In addition to chapters on the grammar and vocabulary utilised in legal writing, the book features sections on contract-drafting and the language used in negotiations, meetings and conversations. It features a companion website which contains exercises covering the majority of the topics covered in the book. This edition thoroughly revises and expands the content of the companion website and contains updated examples, more detailed coverage of problematic areas and an expanded section on writing law essays.

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Contract as Promise is a study of the philosophical foundations of contract law in which Professor Fried effectively answers some of the most common assumptions about contract law and strongly proposes a moral basis for it while defending the classical theory of contract. This book provides two purposes regarding the complex legal institution of the contract. The first is the theoretical purpose to demonstrate how contract law can be traced to and is determined by a small number of basic moral principles. At the theory level the author shows that contract law does have an underlying, and unifying structure. The second is a pedagogic purpose to provide for students the underlying structure of contract law. At this level of doctrinal exposition the author shows that structure can be referred to moral principles. Together the two purposes support each other in an effective and comprehensive study of contract law. This second edition retains the original text, and includes a new Preface. It also includes a substantial new essay entitled Contract as Promise in the Light of Subsequent Scholarship--Especially Law and Economics which serves as a retrospective of the work accomplished in the last thirty years, while responding to present and future work in the field.

The third edition of this market-leading textbook (previously called An Introduction to International Institutional Law) is written in a clear, three-part structure. It is centred on the dynamics of the relationships between international organisations and their organs, staff, and the outside world. It discusses the essential topics of the law of international organisations, including powers, finances, and privileges and immunities, as well as membership rules, institutional structures, and accountability. The newly revised text has been updated extensively to reflect the entry into force of the EU's Lisbon Treaty (and Croatia's accession) and new articles on the responsibility of international organisations. The chapters have also been reorganised for further clarity. Two new chapters, on the international civil service and the relations between organisations and other institutions, respectively, have been added. International Legal English Teacher's Book is an essential companion for any teacher wishing to use International Legal English in the classroom. The book offers invaluable background information about the law topics discussed, giving teachers the confidence to explore these topics with their students. The Teacher's Book guides the teacher through the exercises in the book and suggests optional consolidation activities along the way. It includes 45 extra photocopiable activities and adds a whole new communicative dimension to the course, with lots of ideas for discussion and role-plays.

This introduction, now in its second completely revised and upgraded edition, is the ideal overview of Belgian law for foreign lawyers. It identifies the basic legal sources, institutions and concepts of Belgian law. It offers an up to date, state of the art systematic and critical rendition of the principal branches of the law as practised, and it provides the necessary historical background and theoretical framing. The book consists of sixteen chapters, covering all major fields of Belgian law including constitutional and administrative law, procedural law, criminal law, family law and trusts and estates, property, contracts and torts, commercial transactions and company law, labour and social security law, tax law and conflicts of laws, and offering in depth studies of the general features of the Belgian legal system and legal culture. Every contribution is written by a generally recognized expert in this particular field of law. The authors cover the legislation at the different levels, guiding the reader through the multi-layered governance in the complicated federal structure of Belgium within the European Union, and pay ample attention to the reality of legal practice in court cases. Each chapter concludes with a very useful bibliography of works in both official languages (French and Dutch). Where available, basic works in English are listed. The book is written for a diversified, primarily non-Belgian readership including practising lawyers, business people, government officials, academic researchers and students interested in a reliable overview of Belgian law and institutions as a starting point for their research or inquiries. Marc Kruithof is a law professor at Ghent University. He holds a PhD in Law, as well as Licentiates in Law and in Economics, from Ghent University, and a Master of Laws from Yale Law School. Walter De Bondt is an emeritus professor at Ghent University and at the Vrije Universiteit Brussel (VUB). He holds a PhD in Law as well as a Licentiate in Law from Ghent University, and a Master of Laws from UC Berkeley.

Introduction to the English Legal System - Revision Guide

An Introduction to the International Law of Armed Conflicts

A Critical Introduction to International Criminal Law

An Introduction to International Investment Law

The Cambridge Companion to International Law

International Legal English Teacher's Book

Preparation for using English in the legal profession, using authentic legal texts and case studies.

Chapters cover different types or aspects of law: Contract, Tort, Criminal, Company, Commercial, Real Property, International, Comparative Law, and litigation and arbitration. With exercises, answers, audio transcripts, case studies, and a glossary. For self-study and developing listening, speaking, reading, writing, and vocabulary skills.

Litigating disputes in international civil and commercial cases presents a number of special challenges. Which country's courts have jurisdiction, and where is it advantageous to sue? Given the international elements of the case, which country's law will the court apply? Finally, if a successful plaintiff cannot find enough local assets, what does it take to have the judgment recognized and enforced in a country with assets? Advanced Introduction to Private International Law and Procedure addresses these questions through a comparative overview of legal systems, contrasting Anglo-American common law and the civil law approach of the European Union.

International institutions are powerful players on the world stage, and every student of international law requires a clear understanding of the forces that shape them. For example, with increasing global influence comes the need for internal control and accountability. This thought-provoking overview considers these and other forces that govern international institutions such as the UN, EU and WTO, and the complex relationship that exists between international organizations and their member states.

Covering recent scholarly developments, such as the rise of constitutionalism and global administrative law, and analysing the impact of important cases, such as the ICJ's Genocide case (2007) and the Behrami judgment of the European Court of Human Rights (2007), its clarity of explanation and analytical approach allow students to understand and think critically about a complex subject.

Introduction to International Legal English is an intermediate level course for law students or newly-qualified lawyers who need to use English in their legal work or studies. Suitable for classroom use or self-study, the course prepares learners for using English in a commercial law environment. Using authentic legal texts and case studies supplied by TransLegal®, Europe's leading firm of lawyer-linguists, the course develops an understanding of the law and consolidates language skills. Featuring both

academic and professional contexts, Introduction to International Legal English is an ideal starting point for preparing for the Cambridge ILEC examination.

This cross-disciplinary collaboration offers historical and contemporary scholarship exploring the interface of Christianity and international law. Christianity and International Law aims to understand and move past arguments, narratives and tropes that commonly frame law-religion studies in global governance. Readers are introduced to a range of confessional and critical perspectives explicitly engaging a diverse range of methodological and theoretical orientations to rethink how we experience and find ourselves caught within the phenomena of Christianity and international law.

Several international legal issues are related to the concept of legal personality, including the determination of international rights and duties of non-state actors and the legal capacities of transnational institutions. When addressing these issues, different understandings of legal personality are employed. These concepts consider different entities to be international persons, state different criteria for becoming one and attach different consequences to being one. In this book, Roland Portmann systematizes the different positions on international personality by spelling out the assumptions on which they rest and examining how they were substantiated in legal practice. He puts forward the argument that positions on international personality which strongly emphasize the role of states or effective actors rely on assumptions that have been discarded in present international law. The principal argument is that international law has to be conceived as an open system, wherein there is no presumption for or against certain entities enjoying international personality.

This market-leading textbook gives an authoritative account of international criminal law, and focuses on what the student needs to know – the crimes that are dealt with by international courts and tribunals as well as the procedures that police the investigation and prosecution of those crimes. The reader is guided through controversies with an accessible, yet sophisticated approach by the author team of four international lawyers, with experience both of teaching the subject, and as negotiators at the foundation of the International Criminal Court and the Rome conference. It is an invaluable introduction for all students of international criminal law and international relations, and now covers developments in the ICC, victims' rights, and alternatives to international criminal justice, as well as including extended coverage of terrorism. Short, well chosen excerpts allow students to familiarise themselves with primary material from a wide range of sources. An extensive package of online resources is also available.

Understanding the Vocabulary of US Law and Government

An Introduction to Public International Law

In our globalised world the sources and actors of international law are many and its growth prolific and disorderly. International law governs the actions of states on matters as long-established as diplomatic immunity or as recent as the War on Terror, and it now impacts upon the lives of ordinary citizens in areas as diverse as banking and investment, public health and the protection of the environment. In this accessible introduction Emmanuelle Tourme Jouannet explains the latest developments in international law in the light of its history and culture, presenting it as an instrument both for dominance and for change that adjusts and balances the three pillars of the United Nations Charter: the prohibition of the use of force; economic, social and sustainable development; and human rights.

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. Legal English provides a highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and oral legal communication in typical legal situations in a straightforward manner. As well as including chapters on grammar and punctuation for legal writing, the book features sections on contract-drafting, language for negotiation, meetings and telephone conversations. This edition contains additional troubleshooting tips for legal writing, guidance on good style, and new sections on writing law essays and applying for legal positions.

A clear and accessible introduction to one of the fastest growing and most highly debated spheres of international law.

Written for students working in a range of disciplines, this textbook provides an accessible, balanced, and nuanced introduction to the field of public international law. It explains the basic concepts and legal frameworks of public international law while acknowledging the field's inherent complexities and controversies. Featuring numerous carefully chosen and clearly explained examples, it demonstrates how the law applies in practice, and public international law's pervasive influence on world affairs, both past and present. Aiming not to over-emphasize any particular domestic jurisprudence or research interest, this textbook offers a global overview of public international law that will be highly valuable to any student new to the study of this very significant field.

International Law: A Very Short Introduction

Introduction to International Legal English Teacher's Book

Christianity and International Law

An Introduction

The Far Right Today

This book provides an in-depth contextual analysis of the role of international law in the growth of British presence in West Africa during the early- and mid-nineteenth century. It highlights this period as an important experimentation phase which saw the genesis of the treaties that have now become associated with the Scramble for Africa.

National judges are a sort of propelling force behind international law to the extent that they perceive the need to realize that international solidarity which is too often lacking at the level of governments. Hence they are the principal addressees of this book.

An Introduction to Contemporary International Law: A Policy-Oriented Perspective introduces the reader to all major aspects of contemporary international law. It applies the highly acclaimed approach developed by the New Haven School of International Law, holding international law as an ongoing process of authoritative decision-making through which the members of the world community identify, clarify, and secure their common interests. Unlike conventional works in international law, this book is organized and structured in terms of the process of decision making in the international arena, and references both classic historical examples and contemporary events to illustrate international legal processes and principles. Using contemporary examples, this Third Edition builds on the previous editions by contextualizing and dramatizing recent events with reference to seven features that characterize the New Haven School approach to international law: participants, perspectives, arenas of decision, bases of power, strategies, outcomes, and effects. This new edition highlights cutting-edge ideas in international law, including the right to self-determination, the evolution of Taiwan statehood, the expanding scope of international concern and the duty of states to protect human rights, the trend towards greater accountability for states and individual decision-makers under international law, and the vital role individual responsibility plays in the emerging field of international criminal law. It offers a new generation the intellectual tools needed to act as responsible citizens in a world community seeking human dignity and human security for all people.

Presents theories, practices and critiques alongside each other to engage students, scholars and professionals from multiple fields. This title is also available as Open Access on Cambridge Core.

Current Legal Issues

A Course for Classroom Or Self-Study Use

The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

International Legal English Second edition is the definitive course for students who need to work in the international legal community. International Legal English Second edition teaches learners how to use English in a commercial law environment and is suitable for classroom use or self-study. This second edition has fully-updated content - including twice the number of authentic case studies compared to the first edition - and contains a new unit on Transnational Commercial Law. An updated pull-out glossary is included in the Student's Book. International Legal English Second edition is ideal preparation for the Cambridge International Legal English Certificate (ILEC) and contains exam practice tasks, exam tips and a practice ILEC test.

Offers an accessible discussion of conceptual and moral questions on international law and advances the debate on many of these topics.

Employing a hands-on, structured approach, the author leads the reader through carefully crafted exercises that allow readers to understand and make practical use of AngloAmerican legal terminology. The layered sequence of topics and exercises leads from the simplest use of legal terminology in conversation to mastery of advanced legal terminology and increasingly complex writing.

An Introduction to International Institutional Law

Absolute Legal English

The Practice of Empire

Introduction to International Legal English Student's Book with Audio CDs (2)

Essential Legal English in Context

An Introduction to Law

Interest in international law has increased greatly over the past decade, largely because of its central place in discussions such as the Iraq War and Guantanamo, the World Trade Organisation, the anti-capitalist movement, the Kyoto Convention on climate change, and the apparent failure of the international system to deal with the situations in Palestine and Darfur, and the plights of refugees and illegal immigrants around the world. This Very Short Introduction explains what international law is, what its role in international society is, and how it operates. Vaughan Lowe examines what

international law can and cannot do and what it is and what it isn't doing to make the world a better place. Focussing on the problems the world faces, Lowe uses terrorism, environmental change, poverty, and international violence to demonstrate the theories and practice of international law, and how the principles can be used for international co-operation.

An essential handbook for international lawyers and students Focusing on vocabulary, Essential Legal English in Context introduces the US legal system and its terminology. Designed especially for foreign-trained lawyers and students whose first language is not English, the book is a must-read for those who want to expand their US legal vocabulary and basic understanding of US government. Ross uses a unique approach by selecting legal terms that arise solely within the context of the levels and branches of US government, including terminology related to current political issues such as partisanship. Inspired by her students' questions over her years of teaching, she includes a vast collection of legal vocabulary, concepts, idioms, and phrasal verbs and unpacks concepts embedded in US case law, such as how the US constitutional separation of powers may affect a court's interpretation of the law. The handbook differentiates basic terms in civil and criminal cases and compares terms that may seem similar because of close spellings but in fact have different meanings. For instance, what is the distinction between "taking the stand" and "taking a stand?" What is the difference between "treaties" and "treatises"? Featuring illustrations and hands-on exercises, Essential Legal English in Context is a valuable self-study resource for those who want to improve their legal English terminology before entering a US law school, studying US law or government, or working as a seconded attorney to a US law firm. Instructors can use the handbook in an introductory US legal English course.

Law and Language, the latest volume in the Current Legal Issues series, contains a broad range of essays by scholars interested in the interactions between law and language. This volume examines the themes of truth in language and the law, and the role of language in different areas of law, including contract and criminal law.

This intellectually rigorous introduction to international law encourages readers to engage with multiple aspects of the topic: as 'law' directing and shaping its subjects; as a technique for governing the world of states and beyond statehood; and as a framework within which several critical and constructivist projects are articulated. The articles situate international law in its historical and ideological context and examine core concepts such as sovereignty, jurisdiction and the state. Attention is also given to its operation within international institutions and in dispute settlement, and a separate section is devoted to international law's 'projects': protecting human rights, eradicating poverty, the conservation of resources, the regulation of international trade and investment and the establishment of international order. The diverse group of contributors draws from disciplinary orientations ranging from positivism to postmodernism to ensure that this book is informed theoretically and politically, as well as grounded in practice.
