Through the Renaissance, the first book to examine women's contributions to rhetoric across history, as an opportune moment to assess feminist rhetorical research and test out new possibilities. Together, the essays ask, what does it or should it mean to engage rhetoric from a feminist perspective? Each chapter addresses one of four aspects of this question, including the place of feminist rhetoric in contemporary (real-world and transnational) politics; the relationship between feminist rhetorical studies and

identity studies; the prospects for feminist research methods and methodologies; or the feminist rhetorical commitment to “paying it forward” through teaching and mentoring. Collectively, the essays push scholars to expand the national boundaries of rhetorical inquiry to include women’s roles in global politics. Contributors also engage in intersectional analyses of gender and other vectors of power (including, here, religious affiliation and sexuality), considering identities as epistemic

With contributions from some of the world's leading communication scholars, clergy, and social activists, this book is must reading for anyone interested in a deeper understanding of religious communication in general and John Paul II's rhetorical papacy in particular. Written by Catholics, Protestants, Mormons, agnostics, and atheists, the chapters approach the Pope with varying degrees of admiration, but always with intellectual respect. Essential for anyone who seeks to

understand the contemporary gender landscape, *Gender Stories* defines gender as the socially constructed meanings that are assigned to bodies. The book helps readers navigate issues of gender by introducing them to the ubiquitous gender binary, the problems with much of the research on gender differences, and the variety of gender stories in popular culture. At the heart of the book is a description of the process of becoming a gendered person through crafting and performing gender stories. Because each

gender performance is unique, a virtually unlimited number of genders exists not just two, as the gender binary would have us believe. The same multiplicity that characterizes the gender landscape characterizes the individual, who typically changes gender multiple times a day and across the lifespan. In *Gender Stories*, personal gender performances are framed within a philosophy of choice. Readers are encouraged to become more conscious of the choices they have in constructing their gender identities and

to allow others the same choice by respecting their gender performances. Readers will easily find a place for themselves in the book, regardless of their views on gender, because one perspective on gender is not presented as the right one. Gender Stories affirms and legitimizes diverse perspectives as providing more comprehensive knowledge about gender for everyone.

to unprecedented heights. His powerful effect on audiences is well known, but award-winning scholars John C. Hammerback and Richard J. Jensen offer the first explanation of how Chávez achieved that effect. Although other studies of Chávez exist, none has examined so thoroughly his rhetoric nor analyzed in depth such a large number of Chávez's own texts—scores of which have previously been unstudied. Chávez was an indefatigable speaker, writer, and non-discursive communicator who developed a well-thought-out approach

to his rhetorical discourse and placed his speaking and writing at the very center of his career. By merging thought and character in his themes, arguments, and explanations, and in his first and second personae, Chávez was able to identify with the character of his listeners. That identification induced many audience members to support Chávez's agenda for union activism. The authors have developed a model "to help explain Chávez's startling transformation of some audiences and persuasion of others." Hammerback and

Jensen reveal that Chávez's world view motivated him to work tirelessly and directed him to the particular rhetorical qualities and techniques that characterized his discourse. The authors also demonstrate Chávez's surprising effectiveness as a rhetor despite his soft-spoken style, uncharacteristic of most powerful orators.

This volume gathers over forty papers by leading scholars in the field of the history of rhetoric. It illustrates the current trends of this new area of research and covers the Bible, Classical Antiquity, Medieval and Modern Europe, Chinese and Korean civilization, and the contemporary world. One major topic is Rhetoric and Religion.

Since its inception, *The Elements of Speech Communication* has been predicated on several beliefs about teaching and learning in communication. Good communication pedagogy combines insights gained from scholarship of all types as well as personal experience. Communication competence cannot be achieved by precept, it is a combination of understanding,

sensitivity, skills, and ethical responsibility, and it is developed by a combination of theory, practice, and analysis. People understand and practice communication in many ways, and since the first edition of the book, the field of communication has expanded immensely its offering of useful concepts and ideas. This new edition has been affected by the growing literature in the field and by authors' expanding awareness of possibilities. Many of features that have always given *The Elements of Speech Communication* its character have been retained, so that the 'feel' of the book is about the same. Every chapter begins with a story or provocative allusion. Relevant photographs add interest and give pause for thought. And, of course, the image shifts, which have been

Aesthetic experience has had a long and contentious history in the Western intellectual tradition. Following Kant and

Hegel, a human's interaction with nature or art frequently has been conceptualized as separate from issues of practical activity or moral value. This book examines how art can be seen as a way of moral cultivation. Scott Stroud uses the thought of the American pragmatist John Dewey to argue that art and the aesthetic have a close connection to morality. Dewey gives us a way to reconceptualize our ideas of ends, means, and experience so as to locate the moral value of aesthetic experience in the experience of absorption itself, as well as in the experience of reflective attention evoked by an art object.

known feminist scholars frame, analyze, and explore mother-daughter bonds in this collection of essays. Cultures from around the world are mined for insights which reveal historical, generational, ethnic, political, religious, and social class differences. This book focuses on the tenacity of the connection between mothers and daughters, impediments to a strong connection, and practices of good communication. Mothers and Daughters will interest those studying communication, women's studies, psychology, sociology, anthropology, counseling, and cultural studies.

The fourth edition of Inviting Transformation continues to offer an innovative approach to presentational speaking at a very reasonable price. The authors introduce readers to invitational rhetoric, teaching speakers to clarify ideas and to

work to achieve understanding for all participants in an interaction. A primary goal of presentational speaking is to create an environment in which growth and change can occur for both the audience and the speaker. The text highlights four external conditions affecting transformational environments: safety, openness, freedom, and value (honoring the intrinsic worth of all individuals). To reflect respect for the diversity of the world, Sonja Foss and Karen Foss include options from many speaking traditions and practices to foster creativity. Discussions of all the processes of presenting- selecting a speaking goal, organizing ideas, elaborating on ideas, and delivering the presentation- emphasize inclusive speaking practices. Sample presentations provide clear and contemporary examples of

the best invitational speaking practices. The authors recognize readers as competent communicators and encourage them to think about and systematize their approaches to presentational speaking. The exceptionally accessible writing style is an aid to readers in thinking through strategies for meeting their interactional goals. Readers learn to design and deliver effective presentations for any speaking situation. It is tempting for preachers in this digital age of plurality and diversity to offer quick sound bites and PowerPoint-style presentations. These tend to invite a yes or no response, as in mathematical equations. But if we are to reach Christians across the theological spectrum and invite non-Christians to seriously consider our faith, we must take a different approach. What is needed is greater attention to poetry and

Download File PDF Inviting Transformation Presentational Speaking For A Changing World

images meant to communicate the beauty of the faith and the wonder and mystery of God in everyday life. We must communicate the unity of our message of faith, the divine as truth, and justice and healing as expressions of God. Preaching as poetry (theopoetic preaching) allows for the bold imagery of scripture and the gentle invitation of art. Sermons can no longer always be neatly tied up, perfectly linear, with complete answers to every question. In Preaching as Poetry Paul Scott Wilson teaches why this new approach is necessary today, and demonstrates with multiple examples how it works in real sermons. He skillfully guides the reader to incorporate the classical values of beauty, goodness and truth in every sermon, and in ways that connect with congregants and listeners today.

If a scholar ever believed that the grandest project depends on the accuracy of the smallest component, it was Mike Casey. He believed that words were enfolded in concrete persons. All his studies recognized the persuasive powers of committed humans. The title for this volume, therefore, is *And the Word Became Flesh*. The essays in this volume are divided into three sections. Written and oral rhetoric are interwoven throughout the text. Two foundational ideas control the majority of the text. The first is from Plato's *Phaedrus* as stated by Paul in *Ephesians 4:15*, "speaking the truth in love." The second is from the Apostle Peter in *1 Peter 4:11*, "if anyone speaks, he should do it as one speaking the very words of God." The spiritual responsibility of communicating

The text is designed to be a culminating learning experience for undergraduate communication programs or as an introductory text for graduate programs involving public communication. Beginning with a philosophy of language, meaning, and interaction, argument is built against secular deconstructive thought where everyone has a different truth based on language. Alongside philosophy we

World, Fourth Edition Waveland Press

First published in 1985, the Handbook for Achieving Gender Equity Through Education quickly established itself as the essential reference work concerning gender equity in education. This new, expanded edition provides a 20-year retrospective of the field, one that has the great advantage of documenting U.S. national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX, the landmark federal law prohibiting sex discrimination in education, equity programs and research. Key features include:

- Expertise – Like its predecessor, over 200 expert authors and reviewers provide accurate, consensus, research-based information on the nature of gender equity challenges and what is needed to meet them at all levels of education.
- Content Area Focus – The analysis of gender equity within specific curriculum areas has been expanded

from 6 to 10 chapters including mathematics, science, and engineering. Global/Diversity Focus – Global gender equity is addressed in a separate chapter as well as in numerous other chapters. The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans, Latina/os, Asian and Pacific Island Americans, American Indians, gifted students, students with disabilities, and lesbian, gay, bisexual, and transgender students. Action Oriented – All chapters contain practical recommendations for making education activities and outcomes more gender equitable. A final chapter consolidates individual chapter recommendations for educators, policymakers, and researchers to achieve gender equity in and through education. New Material – Expanded from 25 to 31 chapters, this new edition includes: *more emphasis on male gender equity and on sexuality issues; *special within population gender

equity challenges (race, ability and disability, etc); *coeducation and single sex education; *increased use of rigorous research strategies such as meta-analysis showing more sex similarities and fewer sex differences and of evaluations of implementation programs; *technology and gender equity is now treated in three chapters; *women ' s and gender studies; *communication skills relating to English, bilingual, and foreign language learning; and *history and implementation of Title IX and other federal and state policies. Since there is so much misleading information about gender equity and education, this Handbook will be essential for anyone who wants accurate, research-based information on controversial gender equity issues—journalists, policy makers, teachers, Title IX coordinators, equity trainers, women ' s and gender study faculty, students, and parents.

This essential new text is designed for courses in contemporary moral issues, applied ethics, and leadership. Emphasizing personal choice in the study of ethics, the authors take the reader on a journey of self-discovery rather than a mere academic survey of the field of ethics. *A Practical Guide to Ethics: Living and Leading with Integrity* helps students develop their skills in ethical decision-making and put those decisions into effective practice. Its unique focus on leadership, especially the moral dimensions of understanding one's own values, teaches students to understand and, through dialog and negotiation, communicate their own beliefs as a step to building coalitions with those who may hold different views. It is also distinctive in combining ethical theory with both multicultural ethics (Confucianism, Hinduism, Islam, feminism) and a practical orientation to moral decision-making and leadership.

Presentational Speaking for a Changing World

Contemporary Perspectives on Rhetoric

Presents the collection of primary-source readings built around the idea that communication theory is a field with an identifiable history and has developed within seven main traditions of thought - the rhetorical, semiotic, phenomenological, cybernetic, sociopsychological, sociocultural, and critical traditions.

Open Hand presents a highly practical yet transformational philosophy of teaching argumentative writing. In his course *Arguing as an Art of Peace*, Barry Kroll uses the open hand to represent an alternative approach to argument, asking students to argue in a way that promotes harmony rather than divisiveness and avoiding conventional conflict-based approaches. Kroll cultivates a bodily investigation of noncombative argument, offering direct pedagogical strategies anchored in three modalities of learning—conceptual-procedural, kinesthetic, and contemplative—and projects, activities, assignments, informal responses, and final papers for students. Kinesthetic exercises derived from martial arts and contemplative meditation and

mindfulness practices are key to the approach, with Kroll specifically using movement as a physical analogy for tactics of arguing. Collaboration, mediation, and empathy are important yet overlooked values in communicative exchange. This practical, engaging, and accessible guide for teachers contains clear examples and compelling discussions of pedagogical strategies that teach students not only how to write persuasively but also how to deal with personal conflict in their daily lives.

In *Defense of Partisan Criticism* is a far-reaching exploration of the legal, philosophical, and rhetorical basis for understanding social justice in the United States. Through a thoughtful investigation of key political, social, and legal events in the history of the United States, Omar Swartz develops a compelling argument for engaged political scholarship by American academics, and offers readers a critical understanding of the place of race and class in American cultural history. Central to this understanding is an awareness of the «communication imagination» - the power of citizens to name the constraints placed upon them by U.S. political and legal institutions and to counter those

constraints with narratives constructing a more socially just society based upon a wider sense of human identification and partisan engagement than is currently practiced in the normative U.S. public sphere.

Written from the authors' experience in conflict intervention in their private consulting practice, *Engaging Communication in Conflict* uses a communication perspective to address insights and methods in private mediation, small group facilitation, system design, large-scale interventions, and public-issue management. This book offers encouragement for a world sometimes overwhelmed by conflict and presents an expanded and pragmatic definition of

peace. Stephen Littlejohn and Kathy Domenici discuss numerous methods and principles in conflict resolution. They explore transformative mediation, the team mediation system, assessment and evaluation, systemic design, gaming methodology, issue framing and public deliberation, study circles, dialogue groups, and many other interventions. These methods and principles are adapted from a spectrum of theory and practice and include fresh and innovative approaches designed by the authors and their colleagues.

The fourth edition of *Inviting Transformation* continues to offer an innovative approach to presentational speaking at a very reasonable price.

The authors introduce readers to invitational rhetoric, teaching speakers to clarify ideas and to work to achieve understanding for all participants in an interaction. A primary goal of presentational speaking is to create an environment in which growth and change can occur for both the audience and the speaker. The text highlights four external conditions affecting transformational environments: safety, openness, freedom, and value (honoring the intrinsic worth of all individuals). To reflect respect for the diversity of the world, Sonja Foss and Karen Foss include options from many speaking traditions and practices to foster creativity. Discussions of all the processes of presenting— selecting a speaking goal,

organizing ideas, elaborating on ideas, and delivering the presentation—emphasize inclusive speaking practices. Sample presentations provide clear and contemporary examples of the best invitational speaking practices. The authors recognize readers as competent communicators and encourage them to think about and systematize their approaches to presentational speaking. The exceptionally accessible writing style is an aid to readers in thinking through strategies for meeting their interactional goals. Readers learn to design and deliver effective presentations for any speaking situation. In this book, Yuko Kawai departs from the common conception of Japan as an ethnically homogenous

nation. *A Transnational Critique of Japaneseness: Cultural Nationalism, Racism, and Multiculturalism in Japan* investigates the construction of Japaneseness from a transnational perspective, examining ways to make Japanese nationhood more inclusive. Kawai analyzes a variety of communicational practices during the first two decades of the twenty-first century while situating Japaneseness in its longer historical transformation from the late nineteenth century. Kawai focuses on governmental and popular ideas of Japaneseness in light of local, global, historical, and contemporary contexts as well as in relation to a diverse array of Others in both Asia and the West.
