

Io E Brunello Come Portai Montalcino Nel Mondo

Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

This book in microeconomics focuses on the strategic analysis of markets under imperfect competition, incomplete information, and incentives. Part I of the book covers imperfect competition, from monopoly and regulation to the strategic analysis of oligopolistic markets. Part II explains the analytics of risk, stochastic dominance, and risk aversion, supplemented with a variety of applications from different areas in economics. Part III focuses on markets and incentives under incomplete information, including a comprehensive introduction to the theory of auctions, which plays an important role in modern economics.

For fans of Italian wine, few names command the level of respect accorded to Brunello di Montalcino. Expert wine writer Kerin O'Keefe has a deep personal knowledge of

Tuscany and its extraordinary wine, and her account is both thoroughly researched and readable. Organized as a guided tour through Montalcino's geography, this essential reference also makes sense of Brunello's complicated history, from its rapid rise to the negative and positive effects of the 2008 grape-blending scandal dubbed "Brunellogate." O'Keefe also provides in-depth profiles of nearly sixty leading producers of Brunello.

Narrating the story of the poor village of Montalcino, located on the outskirts of Siena, Ezio Rivella recollects the efforts and strong will necessary to promote Brunello wine to the world. This personal account describes the delicate and precise process of making the wine as well the inspiration, economics, and history behind the success of the company, offering all lovers of Italy—and especially those who enjoy the country's wine—a history of this remarkable town and its product and the businessman whose work transformed it into an industrial power and a major tourist attraction.

Italy's Margins explores how certain places and social groups in Italy have been defined

as marginal or peripheral since unification. This marginalization involves not only concrete policies but also ways of perceiving people and places as outside society's centre. The author looks closely at how photography and writing have supported political and social exclusion and, conversely, how they have been enlisted to challenge it. Five cases are examined: the peripheries of Italy's major cities after unification; its East African colonies in the 1930s; the less developed areas of its south in the 1950s; its psychiatric hospitals before the reforms of the late 1970s; and its 'nomad camps' after 2000. Each chapter takes its lead from a symptomatic photograph and is followed by other pictures and extracts from written texts. These allow the reader to examine how social marginalization is discursively performed by cultural products.

This work offers a new theory of what it means to be a legal person and suggests that it is best understood as a cluster property. The book explores the origins of legal personhood, the issues afflicting a traditional understanding of the concept, and the numerous debates surrounding the topic.

The Transformation of Vernacular Expression in Early Modern Arts

Orlando furioso

Including contributions by historians of early modern European art, architecture, and literature, this book examines the transformative force of the vernacular over time and different regions, as well as the way the concept of the vernacular itself changes in the period.

This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

This book consists of various chapters which focus on the wider contexts of management innovation, entrepreneurship, and human resource management practices. Furthermore, the contributions are authored by scholars from all over the world, allowing the book to adopt a truly global perspective. Innovation is, without doubt, the foundation of economic growth and corporate prosperity, while entrepreneurship, on the other hand, provides all the necessary mobilization for this growth and prosperity. Human Resource Management practices safeguard internal relationship approaches, sustainability and efficiency. The book provides detailed insights into subjects as diverse as innovation, competitiveness, innovative business, human

resource management practices, corporate entrepreneurship, management change, marketing, risk management, transnational innovation strategies and tactics, and innovative corporate practices. This volume provides scientific evidence and direction to businesses regarding competing in today's ever-changing environment. It will be of particular interest to scholars, students, researchers and practitioners throughout the business world, given that it covers a wide spectrum of business types and industry sectors.

Following on the success of her books on Brunello di Montalcino, renowned author and wine critic Kerin O’Keefe takes readers on a historic and in-depth journey to discover Barolo and Barbaresco, two of Italy’s most fascinating and storied wines. In this groundbreaking new book, O’Keefe gives a comprehensive overview of the stunning side-by-side growing areas of these two world-class wines that are separated only by the city of Alba and profiles a number of the fiercely individualistic winemakers who create structured yet elegant and complex wines of remarkable depth from Italy’s most noble grape, Nebbiolo. A masterful narrator of the aristocratic origins of winemaking in this region, O’Keefe gives readers a clear picture of why Barolo is called both the King of Wines and the Wine of Kings. Profiles of key Barolo and Barbaresco villages include fascinating stories of the families, wine producers, and idiosyncratic personalities that have shaped the area and its wines and helped ignite the Quality Wine Revolution that eventually swept through all of Italy. The book also considers practical factors impacting winemaking in this region, including climate change,

destructive use of harsh chemicals in the vineyards versus the gentler treatments used for centuries, the various schools of thought regarding vinification and aging, and expansion and zoning of vineyard areas. Readers will also appreciate a helpful vintage guide to Barolo and Barbaresco and a glossary of useful Italian wine terms.

Domenico Ghirlandaio was one of the most popular artists in fifteenth-century Florence. He worked in a variety of media,

including panel paintings, wall murals, mosaic, and manuscript illumination, and his workshop - to which Michelangelo was apprenticed - was highly influential. This beautiful book offers a radically new interpretation of Ghirlandaio's life and work, viewing him primarily as an artisan active within the craft traditions, guild structure, and workshop organizations of his day. Jean K. Cadogan argues that Ghirlandaio was a pivotal figure in the transformation of the artist from medieval artisan to Renaissance genius. She traces his gradual social elevation, which reflected the increasing respect with which he was treated by his patrons. And she notes that the changes in the way he and other artists were viewed created a milieu that encouraged innovation in technique, style, and content, qualities that were vividly displayed in Ghirlandaio's work. Cadogan explains how his working method, his pragmatic, artisan approach to technique, the organization and functioning of his workshop, and his relations with his patrons affected the works of art Ghirlandaio produced. Her text is complemented by a catalogue raisonné of Ghirlandaio's works in all media as well as an appendix of documents useful for scholars.

Cosa accadde negli spogliatoi prima di Perugia-Juventus, posticipata per un nubifragio e decisiva per lo scudetto del 2000? Che cosa disse al telefono Guardiola, l'allenatore del Barcellona, poche ore prima della finale di Champions League vinta contro il Manchester United? Tutti i retroscena, i segreti e le curiosità, le sconfitte e le vittorie del calcio italiano e dei suoi protagonisti raccontati in prima persona. (Prefazione di Francesco Totti)
