Faith for the Times

In a green town in the middle of America, a bright 18-year-old Hispanic student named Isaias Ramos sets out on the journey to college. Isaias, who passed a prestigious national calculus test as a junior and leads the quiz bowl team, is the hope of Kingsbury High in Memphis, a school where many students have difficulty reading. But Kingsbury ' s dysfunction, expensive college fees, and forms printed in a language that ' s foreign to his parents are all obstacles in the way of getting him to a university. Isaias also doubts the value of college and says he might go to work in his family ' s painting business after high school, despite his academic potential. Is Isaias making a rational choice? Or does he simply hope to avoid pain by deferring dreams that may not come to fruition? This is what journalist Daniel Connolly attempts to uncover in The Book of Isaias as he follows Isaias, peers into a tumultuous final year of high school, and, eventually, shows how adults intervene in the hopes of changing Isaias ' life. Mexican immigration has brought the proportion of Hispanics in the nation ' s youth population to roughly one in four. Every day, children of immigrants make decisions about their lives that will shape our society and economy for generations. This engaging, poignant book captures an American microcosm and illustrates broader challenges for our collective future.

Coming of Age in American Anthropology

This is the book, and a must read, of the century. It's anthropological history in the re-making. The American Anthropological best seller, the Chief Malopa'upo Isaia, a descendant of the Tuimanu'a (king of Manu'a), the very people in Margaret Mead's book, has now raised some very serious traditional and legal issues, in relation to Margaret Mead's book, Columbia University's role, and the American Anthropological Association's 'professional' role. In his book, "Coming of age in American Anthropology", the Chief is now ordering the removal, withdrawal, and the disassociation, of every material by Margaret Mead on his cultural intellectual property. He has also outlined several legal issues which will have serious ramifications globally, on any academic who undertakes any cultural fieldwork, on someone else's cultural intellectual property. The Coming of age in American Anthropology, may well opens the floodgate to civil lawsuits from the two Samoan Governments for billions of dollars in damages to the business community, the Tourism Industry of Samoa, and from the descendants of the King of Manu'a. It is definitely the case of the century, and a must read for all students of anthropology, psychology, sociology, and law. Chief Malopa'upo Isaia is a name to watch for, as his work will without a doubt change the face of American Anthropology forever.
