This book is intended to introduce the reader to examples of the range of practical problems posed by "Global Warming". It includes 11 chapters split into 5 sections. Section 1 outlines the recent changes in the Indian Monsoon, the importance of greenhouse gases to life, and the relative importance of changes in solar radiation in causing the changes. Section 2 discusses the changes to natural hazards such as floods, retreating glaciers and potential sea level changes. Section 3 examines planning cities and transportation systems in the light of the changes, while section 4 looks at alternative energy sources. Section 5 estimates the changes to the carbon pool in the alpine meadows of the Qinghai-Tibet Plateau. The 11 authors come from 9 different countries, so the examples are taken from a truly international set of problems.

In this romp through the changing landscape of nineteenth- and twentieth-century American toys, games, hobbies, and amusements, senior historian of technology Carroll Pursell poses a simple but interesting question: What can we learn by studying the relationship between technology and play? From Playgrounds to PlayStation explores how play reflects and drives the

evolution of American culture. Pursell engagingly examines the ways in which technology affects play and play shapes people. The objects that children (and adults) play with and play on, along with their games and the hobbies they pursue, can reinforce but also challenge gender roles and cultural norms. Inventors—who often talk about "playing" at their work, as if motivated by the pure fun of invention—have used new materials and technologies to reshape sports and gameplay, sometimes even crafting new, extreme forms of recreation, but always responding to popular demand. Drawing from a range of sources, including scholarly monographs, patent records, newspapers, and popular and technical journals, the book covers numerous modes and sites of play. Pursell touches on the safety-conscious playground reform movement, the dazzling mechanical innovations that gave rise to commercial amusement parks, and the media's colorful promotion of toys, pastimes, and sporting events. Along the way, he shows readers how technology enables the forms, equipment, and devices of play to evolve constantly, both reflecting consumer choices and driving innovators and manufacturers to promote toys that involve entirely new kinds of play—from LEGOs and skateboards to beading kits and videogames.

From the Booker Prize-winning author of The Remains of the Day and When We Were Orphans, comes an unforgettable edge-of-your-seat mystery that is at once heartbreakingly tender and morally courageous about what it means to be human. Hailsham seems like a pleasant English boarding school, far from the influences of the city. Its students are well tended and supported, trained in art

and literature, and become just the sort of people the world wants them to be. But, curiously, they are taught nothing of the outside world and are allowed little contact with it. Within the grounds of Hailsham, Kathy grows from schoolgirl to young woman, but it's only when she and her friends Ruth and Tommy leave the safe grounds of the school (as they always knew they would) that they realize the full truth of what Hailsham is. Never Let Me Go breaks through the boundaries of the literary novel. It is a gripping mystery, a beautiful love story, and also a scathing critique of human arrogance and a moral examination of how we treat the vulnerable and different in our society. In exploring the themes of memory and the impact of the past, Ishiguro takes on the idea of a possible future to create his most moving and powerful book to date.

The Constructed Other argues that the assumed otherness of Japanese architecture has made it both a testbed for Western architectural theories and a source of inspiration for Western designers. The book traces three recurring themes in Western accounts of Japanese architecture from the reopening of Japan in the mid-nineteenth century to the present day: a wish to see Western architectural theories reflected in Japanese buildings; efforts to integrate elements of Japanese architecture into Western buildings; and a desire to connect contemporary Japanese architecture with Japanese tradition. It is suggested that, together, these narratives have had the effect of creating what amounts to a mythical version of Japanese architecture, often at odds with historical fact, but which has exercised a powerful influence on the development of building design

internationally.

Winner of the American Book Award Based on the author's own experiences, this award-winning novel was the first to tell the story of the evacuation, relocation, and dispersal of Canadian citizens of Japanese ancestry during the Second World War.

The Beinecke Library, one of the world's greatest repository of books and manuscripts documenting the humanities, is also one of the gems of 20th-century modernist architecture. This book takes the visitor through the building with gorgeous views of the Gordon Bunshaft structure and into the reading room, with essays by library curators on the treasures it holds. A must-have for aficionados of rare books, this volume lovingly shows how a great research library is at the heart of the university educational experience.

Diving Principle the third testament of the Bible? Why this series? This is an age when countless groups and movements, old and new, mark the religious landscape in our culture, leaving many people confused or uncertain in their search for spiritual truth and meaning. Because few people have the time or opportunity to research these movements fully, these books provide essential information and insights for their spiritual journeys. All books but the summary volume, Truth and Error, contain five sections: -A concise introduction to the group being surveyed -An overview of the group's theology — in its own words -Tips for witnessing effectively to members of the group -A bibliography with sources for further study -A comparison chart that shows the essential differences between biblical Christianity and the group -Truth and Error, the last book in the series, consists of parallel doctrinal charts compiled from all the other volumes. -Three distinctives make this series especially useful to readers: -Information is carefully distilled to bring out truly essential points rather than requiring readers to sift their way through a sea of secondary details. -Information is presented in a clear, easy-to-follow outline form with "menu bar" running heads. This format greatly assists the reader in quickly locating topics and details of interest. -Each book meets the needs of skill levels of both nontechnical and technical readers, providing an elementary level of refutation and progressing to a more advanced level using arguments based on the biblical text. The writers of these volumes are well qualified to present clear and reliable information and help readers to distinguish truth from falsehood.

of her life as a geisha. It begins in a poor fishing village in 1929, when, as a nine-year-old girl with unusual blue-gray eyes, she is taken from her home and sold into slavery to a renowned geisha. We witness her transformation as she learns the rigorous arts of the geisha: dance and music; wearing kimono, elaborate makeup, and hair; pouring sake to reveal just a touch of inner wisdom; competing with a jealous rival for men's solicitude and the money that goes with it. In *Memoirs of a Geisha*, we enter a world where appearances are paramount; where a girl's virginity is auctioned for the highest bidder; where women are trained to beguile the most powerful men; and where love is scorned as illusion. It is a unique and triumphant work of fiction—at once romantic, erotic, and suspenseful—and completely unforgettable.

Leonie Gilmour: When East Weds West tells the story of Léonie Gilmour (1873-1933), partner of the Japanese writer Yone Noguchi, mother of artist Isamu Noguchi and dancer Ailes Gilmour, a woman who chose a unique path to achieving her personal and professional goals, rising above poverty, racism and an ill-fated marriage to take up the challenge of raising two mixed-race children across a distant Japan. Bringing together extensive research and lively storytelling, *Leonie Gilmour: When East Weds West* is the first complete portrait of the unique, pioneering American educator, editor, and writer whose story inspired Hisako Matsui's acclaimed film *Leonie*, starring Emily Mortimer and Shido Nakamura. Gilmour's fascinating tale is told here through her own writings and those of her associates, including rare and unpublished stories and intimate correspondence, along with a biographical account by Edward Marx.

The Practicalities of Painless Self-Deliverance

When all the joy in life is over, when simply waiting for an unavoidable and imminent death, it is the simplest of human rights to choose a quick and easy death in place of a slow and horrible one. This book covers the practicalities of implementing a quick, easy and painless suicide, and where to obtain the necessary equipment.

A biography of biracial sculptor/designer/landscape architect Isamu Noguchi, focusing on his childhood in Japan and the building of an east-west house that gave shape to his lifelong creative approach.

In the City, where the Mayor strives for total control through education, Tack is torn between sympathy for the Truancy, an underground movement determined to bring down the system, and the desire to avenge a death caused by a Truant.

At Dwell, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.

The Fondation Louis Vuitton by Frank O. Gehry rises from the Bois de Boulogne as a new landmark in the Parisian skyline. Gehry ' s dynamic architecture is both glittering and multifaceted: is it a sailing vessel, an iceberg, or a sea monster? It fascinates with its wealth of references and, at the same time, escapes any clear-cut definition. Three outstanding representatives of different generations of art history, James S. Ackerman (†), Irving Lavin, and Horst Bredekamp have together paid a visit to the Fondation Louis Vuitton. They explore the building in three richly illustrated essays that try to fathom the floating architecture of the "magician" Gehry in the context of both art and architectural history.

It's 1945, and the world is in the grip of war. Hideki lives with his family on the island of Okinawa, near Japan. When the Second World War crashes onto his shores, Hideki is drafted to fight for the Japanese army. He is handed a grenade and a set of instructions: Don't come back until you've killed an American soldier. Ray, a young American Marine, has just landed on Okinawa. This is Ray's first-ever battle, and he doesn't know what to expect -- or if he'll make it out alive. All he knows that the enemy is everywhere. Hideki and Ray each fight their way across the island, surviving heart-pounding ambushes and dangerous traps. But then the two of them collide in the middle of the battle... And choices they make in that single instant will change everything. Awarded an Asian/Pacific American Award for Literature Picture Book Honor, this stunning picture book brings to life the imagination of Japanese American artist, Isamu Noguchi. (Cover image may vary.) If you are Isamu, stones are the most special of all. How can they be so heavy? Would they float if they had no weight? Winner of the Theodor Seuss Geisel Award in 2020 for Stop! Bot!, James Yang imagines a day in the boyhood of Japanese American artist, Isamu Noguchi. Wandering through an outdoor market, through the forest, and then by the ocean, Isamu sees things through the eyes of a young artist . . .but also in a way that many children will relate. Stones look like birds. And birds look like stones. Through colorful artwork and exquisite text, Yang translates the essence of Noguchi so that we can all begin to see as an artist sees.

From the acclaimed international bestseller Keigo Higashino (The Devotion of Suspect X) comes a sweeping novel in the tradition of Les Miserables and Crime and Punishment. This is the compelling story of a brutal crime and the two teenagers—Ryo, the son of the murdered man, and Yukiho, the daughter of the main suspect—whose lives remain inextricably linked over the twenty-year search for the truth behind the crime. In Osaka in 1973, the body of a murdered man is found in an abandoned building. Investigating the crime, Detective Sasagaki is unable to

find the killer. Over the next twenty years, through the lens of a succession of characters, Higashino tells the story of two teens, Ryo and Yukiho, whose lives are most affected by the crime, and the obsessed detective, Sasagaki, who continues to investigate the murder, looking for the elusive truth. Under the Midnight Sun is a complex, psychological novel about crime and its after-effects by one the most read and most accomplished contemporary mystery author. A twisting, compelling work that will astonish and delight Higashino's old fans and new readers alike.

Tokyo Story

The acclaimed actress and legendary singer, Yamaguchi Yoshiko (aka Li Xianglan, 1920-2014), emerged from Japan-occupied Manchuria to become a transnational star during the Second Sino-Japanese war. Born to Japanese parents, raised in Manchuria, and educated in Beijing, the young Yamaguchi learned to speak impeccable Mandarin Chinese and received professional training in operatic singing. When recruited by the Manchurian Film Association in 1939 to act in "national policy" films in the

service of Japanese imperialism in China, she allowed herself to be presented as a Chinese, effectively masking her Japanese identity in both her professional and private lives. Yamaguchi soon became an unprecedented transnational phenomenon in Manchuria, Shanghai, and Japan itself as the glamorous female lead in such well-known films as *Song of the White Orchid* (1939), *China Nights* (1940), *Pledge in the Desert* (1940), and *Glory to Eternity* (1943). Her signature songs, including "When Will You Return?" and "The Evening Primrose," swept East Asia in the waning years of the war and remained popular well into the postwar decades. Ironically, although her celebrated international stardom was without parallel in wartime East Asia, she remained a puppet within a puppet state, choreographed at every turn by Japanese film studios in accordance with the expediencies of Japan's continental policy. In a dramatic turn of events after Japan's defeat, she was placed under house arrest in Shanghai by the Chinese Nationalist forces and barely escaped execution as a traitor to China. Her complex and intriguing life story as a convenient pawn, willing instrument, and tormented victim of Japan's imperialist ideology is told in

her bestselling autobiography, translated here in full for the first time in English. An addendum reveals her postwar career in Hollywood and Broadway in the 1950s, her friendship with Charlie Chaplin, her first marriage to Isamu Noguchi, and her postwar life as singer, actress, political figure, television celebrity, and private citizen. A substantial introduction by Chia-ning Chang contextualizes Yamaguchi's life and career within the historical and cultural zeitgeist of wartime Manchuria, Japan, and China and the postwar controversies surrounding her life in East Asia.

In the forty years since his death, Fujita Seiko has been a man of mystery, rumor and conjecture. Little of substance existed to bring the facts of his career to life, yet all agree that he made his mark by claiming to be the "last ninja." Now, Hevener brings Fujita's career to life. Here, for the first time, you will learn of Fujita's early training, his role during World War II, and the high regard with which his contemporaries held his abilities and accomplishments. Ultimately, you will learn of the fate of his martial arts legacy, including his mysterious and controversial Wada-ha Koga-ryu ninjutsu. Here is my book trailer

Fifteen years ago, the Mayor of the Education City was presented with an unwelcome surprise by his superiors: twin six-month-old boys. As the Mayor reluctantly accepted the two babies, he had no way of knowing that they would change the city forever....

Raised in the comfort of the Mayoral mansion, Umasi and Zen are as different as two brothers can be. Umasi is a good student; Zen an indifferent one. They love their adoptive father, but in a city where education is absolute, even he cannot keep them sheltered from the harsh realities of the school system. But when they discover that their father is responsible for their suffering, affection turns to bitterness. Umasi and Zen are thrust onto two diverging paths. One will try to destroy the City. The other will try to stop him. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

This important book assesses the current state of disaster management in archives, libraries and museums in the UK and around the world, and provides recommendations for addressing current and future threats. Following an introductory outline of

the topic and terminology, the authors provide a short history of the development of disaster management in the cultural heritage sector. They illustrate a basic framework for effective disaster management by reviewing disaster control plan practice from around the world. Through examining and identify the key issues affecting disaster management in archives, libraries and museums, the authors discuss a priority structure for future implementation. This book will be key reading for scholars and students of archive studies, library and information and museum management. It will also be extremely useful for professionals and policy makers involved in disaster management planning at a local and national level.

Fans of The Mortal Instruments and The Infernal Devices know that Magnus Bane is banned from Peru—and now they can find out why. One of ten adventures in The Bane Chronicles. There are good reasons Peru is off-limits to Magnus Bane. Follow Magnus's Peruvian escapades as he drags his fellow warlocks Ragnor Fell and Catarina Loss into trouble, learns several instruments (which he plays shockingly), dances (which he does shockingly), and disgraces his host nation by doing something unspeakable to the Nazca Lines. This standalone e-only short story illuminates the life of the enigmatic Magnus Bane, whose alluring personality populates the pages of the #1 New York Times bestselling series The Mortal Instruments and

The Infernal Devices. This story in The Bane Chronicles, What Really Happened in Peru, is written by Cassandra Clare and Sarah Rees Brennan.

The true untold story of a rogue trader, whose decision to right a wrong ignited a series of political maneuvering by American and Japanese officials, leading to the expulsion of a major Japanese bank from the U.S. Toshihide Iguchi, formerly an Executive VP and U.S. Government Bond trader at Daiwa Bank's New York Branch, was responsible for \$1.1 billion in unauthorized trading losses accumulated over a period of 12 years beginning in 1983. At 18, Toshihide Iguchi came to the U.S. with high hopes. Graduating from college in Missouri, marrying a St. Louis girl, and landing a promising job at Daiwa Bank in New York, he was ready to embark on his American dream. Unbeknownst to him, a storm of unprecedented financial deregulation on both sides of the Pacific was about to rage... Twelve years later, he found himself in the maximum security ward of a Manhattan jail, surrounded by Arab terrorists and a Mafia boss. The author looks back on his psychological struggles and redemption, which gave him valuable insight in helping others to prevent future

billion dollar trading losses, tying in more recent rogue trading cases, discussing common misconceptions of rogue trading as well as operational risks that continue to exist in financial institutions today. On the 100th anniversary of the great director's birth, a book celebrating his greatest film.

This intriguing book is an informal, close-up biography of the friendship between Buckminster Fuller (1895-1983) and Isamu Noguchi (1904-1988). Author Shoji Sadao, who was friend and business partner to both, chronicles the respect, affection, and support they had for one another. Fuller's development of his Dymaxion Map and Car, and Geodesic geometry, are discussed in detail as is Noguchi's multifaceted career as sculptor, landscape architect, industrial designer, dance-set designer, and artist without borders who challenged the artificial opposition between the fine and applied arts. Sadao's role as partner to both gives him privileged access to details unavailable to others, resulting in a warm and intimate—and fully illustrated—narrative that documents an exceptional relationship.

In his black-walled fortress at Inuyama, the warlord Iida Sadamu surveys his famous nightingale floor. Constructed with exquisite skill, it sings at the tread of each human foot. No assassin can cross it unheard. But Otori Takeo, his family murdered by Iida's warriors, has magical skills that allow him to enter Samadu's lair.
