“Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes

After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be

dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she

calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

May I Have This Dance tells the courageous and moving story of Connie Manse Ngcaba, who grew up in the Eastern Cape of South Africa, where she became a nurse, community figurehead and a leading voice of dissent against the apartheid regime. Her sense of justice and morality, and her compassion for those around her, brought her into frequent conflict with the government, culminating in her being detained for a year without trial at the age of 57. It is also a story of the strength of family ties, and the triumph of C

This book focuses on how to address persistent linguistic structured inequalities in education, primarily in relation to South African schools, but also in conversation with Australian work and with resonances for other multilingual contexts around the world. The book as a whole lays bare tension between the commitment to multilingualism enshrined in the South African Constitution and language-in-education policy, and the realities of the dominance of English and the virtual absence of indigenous African languages in current educational practices. It suggests that dynamic plurilingual pedagogies can be allied with the explicit scaffolding of genre-based pedagogies to help redress asymmetries in epistemology

access and to re-imagine policies, pedagogies, and practices more in tune with the realities of multilingual classrooms. contributions to this book offer complementary insights on routes to improving access to school knowledge, especially for learners whose home language or language variety is different to that of teaching and learning at school. All subscribe to similar ideologies which include the view that multilingualism should be seen as a resource rather than a 'problem' in education. Commentaries on these chapters highlight evidence-based high-impact educational responses, and suggest that translanguaging and genre may well offer opportunities for students to expand their linguistic repertoires and to bridge epistemological differences between community and school.

An in-depth look at the changing sociolinguistic dynamics that have influenced South African society. To date, there has been no published textbook which takes into account changing sociolinguistic dynamics that have

influenced South African society. Multilingualism and Intercultural Communication breaks new ground in this arena. The scope of this book ranges from macro-sociolinguistic questions pertaining to language policies and their implementation (or non-implementation) to micro-sociolinguistic observations of actual language-use in verbal interaction, mainly in multilingual contexts of Higher Education (HE). There is a gradual move for the study of language and culture to be taught in the context of (professional) disciplines in which they would be used, for example, Journalism and African languages, Education and African languages, etc. The book caters for this growing market. Because of its multilingual

nature, it caters to English and Afrikaans language speakers, as well as the Sotho and Nguni language groups \_the largest languages in South Africa [and also increasingly used in the context of South African Higher Education]. It brings together various inter-linked disciplines such as Sociolinguistics and Applied Language Studies, Media Studies and Journalism, History and Education, Social and Natural Sciences, Law, Human Language Technology, Music, Intercultural Communication and Literary Studies. The unique cross-cutting disciplinary features of the book will make it a must-have for twenty-first century South African students and scholars and those interested in applied language
