*For the first time in the US, this timeless cat-and-mouse classic from the Edgar Award-winning "genius" examines political tensions in an era of espionage (Lee Child, bestselling author of the Jack Reacher series). In Europe, the Americans are pulling out their troops in a tide of isolationism. Britain, torn between loyalties to America and the continent, is caught in the middle. Across the pond, a space shuttle crashes on landing, killing all but one of the crew on board: A British citizen named Mike Dreyfuss, who will become vilified by the US press and protesters. Halfway across the world, at English ground control headquarters, Martin Hepton watches with dismay as they lose contact with the most advanced satellite in Europe. When a colleague who suspects something strange disappears, Hepton realizes there is much more at stake than anyone knows -- and many more people on his trail than he can possibly evade . . .*

*This ground-breaking resource is for anyone, of any race or heritage, who stands ready to make progress toward equity and justice, by offering a creative vision and a practical blueprint for an inclusive, multicultural future for all those involved in conflict transformation, community mediation, and peace building.*

*"It Could Have Been Me" by Dr. Jeffrey Moore, is an expression of the author's concern for so many afflicted people in the world today and how life's events move them on a path toward a life of greater purpose and lasting happiness. We can experience the life we were meant to have by learning to trust and gain renewed hope through the saving power of Jesus Christ. Although we all face hardships, trouble, despair, disappointment, and discouragement, these factors work to produce an example to others of how we can make it by faith. It is important to look at people and understand that they had no plans for how things turned badly in their lives. Too many times we turn up our noses or turn our backs on those that have discovered misfortune and despair. But truly, we must take a good look at ourselves and thank God, because "It Could Have Been Me."*

**Ross P. Cameron argues that the flow of time is a genuine feature of reality. He suggests that the best version of the A-Theory is a version of the Moving Spotlight view,**

*according to which past and future beings are real, but there is nonetheless an objectively privileged present. Cameron argues that the Moving Spotlight theory should be viewed as having more in common with Presentism (the view that reality is limited to the present) than with the B-Theory (the view that time is just another dimension like space through which things are spread out). The Moving Spotlight view, on this picture, agrees with Presentism that everything is the way it is now, it simply thinks that non-present beings are amongst the things that are now some way. Cameron argues that the Moving Spotlight theory provides the best account of truthmakers for claims about what was or will be the case, and he defends the view against a number of objections, including McTaggart's argument that the A-Theory is inconsistent, and the charge that if the A-Theory is true but presentism false then we could not know that we are present. The Moving Spotlight defends an account of the open future—that what will happen is, as yet, undetermined—Land argues that this is a better account than that available to the Growing Block theory.*

In February 1992 Merlyn Nuttall was hurrying to work early one morning, heading for Brixton tube station as usual. Then a man appeared, apparently in need of help for his girlfriend. She followed him and within minutes he was forcing her at knifepoint into an empty end-of-terrace house. Forty-five minutes later, naked, bleeding from throat slashes and near death, Merlyn was on the front steps of the house, trying to summon help. She survived the horrific rape and attempted murder but her fight for recovery and to gain compensation, brought her against some surprising areas of resistance - including the refusal of the NHS to pay for plastic surgery on her neck scars. Here she tells her story with the aim of helping other victims, men and women - navigate the complex, sometimes indifferent, system as well as to provide vital information for those who care for victims.

**From America's foremost criminal defense lawyer and author of the bestselling How to Argue and Win Every Time comes this riveting, true account of a trial that adeptly exposes the unrelenting power of the state, which so often crushes those -- guilty or innocent -- who come before the bar of justice. It could happen to you. When Sandy Jones and her teenage son were accused of murdering a real estate developer on their hardscrabble Oregon farm, the prosecution had an eyewitness to the shooting and a photograph of Sandy holding a smoking rifle. County officials kept Sandy in jail while they awaited the trial, despite ballistic evidence that strongly suggested she hadn't fired the fatal shot. The case erupted into an epic struggle between Sandy -- who was poor, different, and a woman -- and the "good old boys" of Lincoln County, Oregon, who held all the power. Though the Joneses' guilt seemed eminently clear to the county and the prosecution, Gerry Spence, renowned for his work on the cases of Karen Silkwood and Randy Weaver at Ruby Ridge, took the case pro bono and the courtroom battle exploded into three years of intensely moving jury trials, recounted here from the record of the case. The Smoking Gun follows Gerry Spence through his passionate arguments with two different judges and two different prosecutorial teams, his exacting jury selection, his expert questioning of the witnesses, and his incredible rapport with the jury as he fights for the rights of Sandy and her son. With a superb sense of drama and an intimate knowledge of the court system, Spence highlights the pitfalls that every defendant faces, making The Smoking Gun extremely relevant today, when our rights are being eroded and when the average American, even if innocent, is hard-pressed to obtain a fair trial.**

***Why should there be anything at all? Why, in particular, should a material world exist? Bede Rundle advances clear, non-technical answers to these perplexing questions. If, as the theist maintains, God is a being who cannot but exist, his existence explains why there is something rather than nothing. However, this can also be explained on the basis of a weaker claim. Not that there is some particular being that has to be, but simply that there has to be something or other. Rundle proffers arguments for thinking that that is indeed how the question is to be put to rest. Traditionally, the existence of the physical universe is held to depend on God, but the theist faces a major difficulty in making clear how a being outside space and time, as God is customarily conceived to be, could stand in an intelligible relation to the world, whether as its creator or as the author of events within it. Rundle argues that a creator of physical reality is not required, since there is no alternative to its existence. There has to be something, and a physical universe is the only real possibility. He supports this claim by eliminating rival contenders; he dismisses the supernatural, and argues that, while other forms of being, notably the abstract and the mental, are not reducible to the physical, they presuppose its existence. The question whether ultimate explanations can ever be given is forever in the background, and the book concludes with an investigation of this issue and of the possibility that the universe could have existed for an infinite time. Other topics discussed include causality, space, verifiability, essence, existence, necessity, spirit, fine tuning, and laws of Nature. Why There Is Something Rather Than Nothing offers an explanation of fundamental facts of existence in purely philosophical terms, without appeal either to theology or cosmology. It will provoke and intrigue anyone who wonders about these questions.***

An Essay on Grammar, as it May be Applied to the English Language

Do you feel broken, condemned, worthless, lost and unable to see beyond your past? Do you believe your past has disqualified you from becoming the woman God created you to be? You are very valuable to God-despite the mess that your life may be right now, despite the ugliness that you may see in your life, and despite everything that you feel right now. God wants you standing tall and beautiful. He wants you to be an example of His mercy, grace, and love. He wants you to radiate His glory and beauty. God is able and willing to take what may be broken, and put it back together. He takes what may seem worthless and restores its worth. He takes what may be dirty and old, and He washes and cleans it up to become new. Our trash is God's treasure. We throw people away when we reject, condemn, and judge them, but what we don't realize is that we are all God's treasure. We may have been discarded by others, but God will never discard us. He creates only masterpieces, unique works of art that are meant to be treasured because of their great worth. You are a designer's original-His masterpiece. Don't let people tell you that you have made too many mistakes or done too many ungodly things and that you have become trash. No matter what you have done in your past.

Nothing can change who you are or how He sees you-You are and will always be His daughter.
