global financial
system. Drawing
insights from
economics and
political science,
Enter the Dragon:
China in the
International
Financial System
takes a broad
conceptual approach
and tackles the

questions that
accompany China's
ascendance in

international
finance: What are
the motivations and
consequences of
China's effort to
internationalize the
renminbi? What is
the political logic
underlying China's

C2 International
Paper
Markscheme

foreign financial
policy? What forces
have shaped China's
preferences and
capacities in global
financial
governance? Enter
the Dragon
contributes to the
ongoing debate over
China's political
interests, its agenda

for economic and financial cooperation, and the domestic and international implications of its economic rise.

Bringing together experts from both inside and outside of China, this volume argues that China's

rise in the
Paper
Markscheme
international
financial system is a
highly complex and
political process, and
can only be
understood by
incorporating
analysis of domestic
and international
political economy.
