The driving force of Minangkabau history arises from the struggle to build a balanced social order on a convergence of seemingly contradictory social and cultural aspects. From the time when Islam was conceived as a pillar of the Minangkabau world, the history of Minangkabau has been dominated by an effort to attain an acceptable equilibrium between the doctrine of a universal religion and the wisdom and ideals of the pre-existing pillar, the indigenous element or adat. The idea that Islam is an inseparable part of Minangkabau has generated constant internal struggle. A traditional notion that ideas which came from the outside world (the rantau) might endanger

the foundation of Minangkabau or stimulate disturbing potentialities already inherent in it resulted in ambivalence toward Western-oriented modernization. The purpose of this study is to trace the development of the Kaum Muda movement and to inquire into its intellectual and social impact on Minangkabau. The principal actors were actually from the second generation of Islamic modernists, the students of the Kaum Muda ulama. We will examine the way they confronted their social and political environment; the path they followed in carrying out their various programs; their encounter with the Dutch government; and their relationship with the adat

authorities. We will seek to determine the impact of the activities and intellectual development of these young Islamic modernists upon their own group and upon their relationship with their former mentors, the Kaum Muda ulama. For this reason, the study concentrates on the period beginning in early 1927 and ending with the third quarter of 1933.- Taufik Abdullah"

Answer to Modernism

Pope Gregory VII, 1073-1085

This book is the first scholarly work done on the leader of the worlds largest Sufi Tariqa.

Ibna tawus in his book Muhaj al Dawat and Kafami in his book Misbah narrate this dua'a on the authority of Imam Ali ibna abi Talib who learned it from the Holy Prophet. The Holy Prophet advised him to recite this dua'a regularly, whether in prosperity or poverty, till death, because it unveils the secretes of creation and divine strategy. Words can not describe its merits.

Providing commentary on three oft-recited

chapters of the Holy Qur'an, this excerpt of the monumental discourse by 18th-century mystic and scholar Ahmad ibn 'Ajiba presents both an example of Islamic erudition based on traditional sources as well as insight into his own personal journey of discovery. Each verse is expounded upon with an exoteric explanation as well as related with an esoteric commentary to the mystic path of Islam, Sufism. As one of the few scholarly translations of traditional Qur'anic exegesis, this volume affords the previously unacquainted access not only to how

educated Muslims have understood the dominant themes of these three chapters since the earliest days of Islam but also to how traditional Sufic sources have viewed the same themes in respect to the microcosm of the soul and the journey towards God.

Life Sketch of Lady Fatima Zahra

The reign of Pope Gregory VII (1073-85), who gave his name to an era of Church reform, is critically important in the history of the medieval church and papacy. Thus it is surprising that this is the first comprehensive biography to appear in any language for over fifty years. H. E. J. Cowdrey presents Gregory's life and work in their entirety, tracing his career from early days as a clerk of the Roman Church, through his political negotiations, ecclesiastical governance, and final exile at Salerno. Full account

is taken of his turbulent relations with King Henry IV of Germany, from his first deposition and excommunication in 1076, to the absolution at Canossa and the imposition of a second sentence in 1080. Pope Gregory was also a contemporary of William the Conqueror, and, as the author shows, fully supported his conquest of England. Gregory VII is presented as an individual whose deep inner belief in iustitia (righteousness) did not waver in the face of new circumstances, although his broad outlook underwent changes.

Deeply committed to the traditions of the past and especially to those of Pope Gregory the Great, his reign prepared the way for an age of strong papal monarchy in the western Church.

Dear Beloved Son is an excellent compilation of extremely valuable pieces of advice based not only on theory but on the practical experience and insight of Imam al-Ghazali. Since he presented his disciple with these pieces of advice at a stage in life where he had studied and excelled in all major sciences of Islam,

it holds extra significance. He covers topics such as sincerity, knowledge, action, death, da'wah, hypocrisy, time, dhikr and Shari'ah, with delicacy and coherency, so that one is able to grasp clearly the multidimensional facets of a comprehensive Islam.

Sufism, the name given to Islamic mysticism, has been the subject of many studies, but the orders through which the organizational aspect of the Sufi spirit was expressed has been neglected. The Sufi Orders in Islam is one of the earliest

modern examinations of the historical development of Sufism and is considered a classic work in numerous sources of Islamic studies today. Here, author J. Spencer Trimingham offers a clear and detailed account of the formation and development of the Sufi schools and orders (tariqahs) from the second century of Islam until modern times. Trimingham focuses on the practical disciplines behind the mystical aspects of Sufism which initially attracted a Western audience. He shows how Sufism developed

and changed, traces its relationship to the unfolding and spread of mystical ideas, and describes in sharp detail its rituals and ceremonial practices. Finally, he assesses the influence of these Sufi orders upon Islamic society in general. John O. Voll has added a new introduction to this classic text and provides readers with an updated list of further reading. The Sufi Orders in Islam will appeal not only to those already familiar with Trimingham's groundbreaking research, but also to the growing reading public of

Islamic studies and mysticism.
