Irish Political Prisoners presents a detailed and gripping overview of political imprisonment from 1920-1962. Seán McConville examines the years from the formation of the Northern Ireland state to the release of the last border campaign prisoners in 1962. Drawing extensively and, in many cases, uniquely on archives and special collections in the three jurisdictions, and interviews with survivors from the period, McConville demonstrates how punishment came to embody and shape the nationalist consciousness. Irish Political Prisoners 1920-1962 commences with the legacy of the Anglo Irish and Irish Civil Wars - militancy, division and bitterness. The book travels from the embedding of Northern Ireland's security agenda in the 1920's, and the IRA's search for a role in the 1930's (including the 1939 bombing campaign against Britain) to the decisive use of internment during the war and the border campaign years. This volume will be an essential resource for students of Irish history and is a major contribution to the study of imprisonment. .

Soon to be a major motion picture from Academy Award-winning director Guillermo del Toro and starring Bradley Cooper, Cate Blanchett, Rooney Mara, and Toni Collette. Nightmare Alley begins with an extraordinary description of a carnival-show geek—alcoholic and abject and the

object of the voyeuristic crowd's gleeful disgust and derision—going about his work at a county fair. Young Stan Carlisle is working as a carny, and he wonders how a man could fall so low. There's no way in hell, he vows, that anything like that will ever happen to him. And since Stan is clever and ambitious and not without a useful streak of ruthlessness, soon enough he's going places. Onstage he plays the mentalist with a cute assistant (before long his harried wife), then he graduates to full-blown spiritualist, catering to the needs of the rich and gullible in their well-upholstered homes. It looks like the world is Stan's for the taking. At least for now.

Numerous democratic nations have been singled out by NGOs for brutality in their modus operandi, for paying inadequate attention to civilian protection or for torture of prisoners. This book deals with the difficulties faced when conducting asymmetric warfare in populated areas without violating humanitarian law.

From Partition to Brexit is the first book to chart the political and ideological evolution of Irish government policy towards Northern Ireland from the partition of the country in 1921 to the present day. Based on extensive original research, this groundbreaking and timely study challenges the idea that Irish governments have pursued a consistent set of objectives and policies towards Northern Ireland to reveal a dynamic story of changing priorities. The book demonstrates

how in its relations with the British Government, Dublin has been transformed from spurned supplicant to vital partner in determining Northern Ireland's future, a partnership jeopardised by Britain's decision to leave the European Union. Informed, robust and innovative, From Partition to Brexit is essential reading for anyone interested in Irish or British history and politics, and will appeal to students of diplomacy, international relations and conflict studies.

Hired by Krista's sister, Leah, to investigate, Rick follows clues that lead him to the truth, not only about Krista's death, but about the tragedy that ruined his life. Along the way, Leah shows him that his life can be salvaged, and he can feel love again if he can just move beyond his past. But the past is Rick's present and will always be until he rights his one great wrong. In the end, Rick is left with a decision that forces him to confront the horrific actions he'll need to take to exact revenge and achieve redemption. However, he remains a controversial figure regarded as a war criminal by some and a principled proponent of National liberation by others. In this engaging biographical collection, contributors scrutinise Aiken's thoughts and actions at several critical junctures in modern Irish and world history, taking readers through the War of Independence, Civil War, the birth of the new state, the Second World War, the Cold War and the modern Northern Ireland Troubles. Divided into two sections Nationalist and Internationalist and based on an unrivalled breadth of testimony from academics, family members, rivals and colleagues, this study ultimately details the footprints Aiken left on the national and international political stage. Aiken owed his early eminence to military rather than political leadership; he

was commandant of the 4th Northern Division of the IRA during the War of Independence and was driven to undertake the most daring and spectacular feats of the Irish Civil War. He went on to become the Chief of Staff of the Anti-Treaty IRA but was expelled for backing de Valera's plan for a Republican government the beginnings of Fianna Fáil. Thereafter his instrumental role was to be political: a Minister for Defence, Finance, and External Affairs over the course of the following decades; he was to oversee much success and controversy in the burgeoning state. This biography represents the first deserving assessment of a monumental personality in 20th century Irish History. Catalogs groups, individuals, and incidents that have been associated with violent extremism. Some of the legendary gunmen of the Old West were lawmen, but more, like Billy the Kid and James, were outlaws. Tom Horn (1860–1903) was both. Lawman, soldier, hired gunman, detective, outlaw, and assassin, this darkly enigmatic figure has fascinated Americans ever since his death hanging the day before his forty-third birthday. In this masterful historical biography, Larry Ball, a distinguished historian of western lawmen and outlaws, presents the definitive account of Horn's career. Horn became a civilian in the Apache wars when he was still in his early twenties. He fought in the last major battle with the Apaches on U.S. soil and chased the Indians into Mexico with General George Crook. He bragged about murdering renegades, and the brutality of his approach to law and order foreshadows his controversial career as a Pinkerton detective and his trial for murder in Wyoming. Having worked as a hired gun and a range detective in the years after the Johnson County War, he was eventually tried and hanged for killing a fourteen-year-old boy. Horn's guilt is still debated. To an extent no previous scholar has managed to achieve, Ball distinguishes the truth about Horn from the numerous legends. Both the facts and their distortions are revealing, especially since so many of the untruths come from Horn's own autobiography. As a teller of tall tales, Horn burnished his own reputation throughout his life. In spite of his services as a civilian scout and

packer, his behavior frightened even his lawless companions. Although some writers have tried to elevate him to the top rung of frontier gun wielders, questions still shadow Horn's reputation. This study concludes with a survey of Horn as described by historians, novelists, and screenwriters of his own time. These portrayals, as mixed as the facts on which they are based, show a continuing fascination with the life and legend of Tom Horn.

The civil rights movement, the outbreak of violence in August 1969, the links with the communist party, the Official IRA's campaign, the ceasefire, and later developments towards 'Sinn Fein the Workers' Party', are explored. Using his unprecedented access to the internal documents of the movement and interviews with key participants Swan's work will transform our understanding of this transformative period in the history of the movement.", H. An Oral History of the Provisional Irish Republican Movement

Out of the Ashes is the definitive history of the Provisional Irish Republican movement, from its formation at the outset of the modern Troubles up to and after its official disarmament in 2005. Robert White, a prolific observer of IRA and Sinn Féin activities, has amassed an incomparable body of interview material from leading members over a thirty-year period. In this defining study, the interviewees provide extraordinary insights into the complex motivations that provoked their support for armed struggle, their eventual reform, and the mind-set of today's 'dissidents' who refuse to lay down their arms. Those interviewed stem from every stage of the Provisionals' history, from founding figures such as Seán Mac Stiofáin, Ruairí Ó Brádaigh and Joe Cahill to the new generation that replaced them: Martin McGuinness, Danny Morrison, and Brendan Hughes among others. Out of the Ashes is a pioneering history that breaks new ground in defining how the Provisionals operated, caused worldwide

condemnation, and were transformed by constitutional politics. First published in 2004, this provocative and remarkable book is the first significant study of how the Clinton administration revolutionized US policy toward Northern Ireland in the 1990s. Based on interviews with the major actors in the episode, Timothy Lynch examines in detail how the internal American turf war fought over Northern Ireland shaped the quality and character of US engagement. Turf War will be essential reading for all those seeking to understand American policy toward Northern Ireland; the institutional dynamics of US foreign policy after the cold war; the perils of locking terrorists into a democratic process; and US interventions more broadly.

On November 20, 1903, Tom Horn was hanged in Cheyenne, Wyoming, for the murder of a fourteen-year-old nester boy. Horn-army scout and interpreter for Generals Willcox, Crook, and Miles in the Apache wars, Pinkerton operative, cattle detective, and "King of Cowboys"-was hanged like a common criminal, many think mistakenly. His own account of his life, written while he was in prison and first published in 1904, is not really a vindication, says Dean

Krakel in his introduction. "While the appendix is spiked with interesting letters, testimonials, and transcripts, they don't really add up to anything in the way of an explanation of what really happened." Regardless of Horn's guilt or innocence, his story, beginning when he was a runaway Missouri farm boy, provides a firsthand look at scout Al Sieber in action, at the military both great and small, at the wily Geronimo, the renegade Natchez, and old Chief Nana of the Apaches.

Between 1917 and 1981, 22 Irishmen died on hunger strike. Now, for the first time, the stories of the hunger strikers are chronicled in one book, bringing to light previously hidden

histories. From the deaths on hunger strike of Thomas Ashe in 1917 and Terence MacSwiney in 1920, while imprisoned by the British government, to the death in 1981 of Michael Devine, the last republican prisoner to die on hunger strike, Pawns in the Game teases out the tangled mesh of the politics and psychology of those who adopted this radical protest of last resort and those who allowed them to die. It is a story of fanaticism, pride and injustice, and the indifference of former comrades when power in the Dáil beckoned. Key interviewees include Gerry Kelly, Raymond McCartney, Pat Sheehan and Danny Morrison.

'I was born in a united Ireland, I want to die in a united Ireland.' Born in Belfast in 1920, Joe Cahill has been an IRA man motivated by this ambition all his life. IRA activists rarely speak about their lives or their organisation, but here Cahill gives his full and frank story, his viewpoint, his experiences -- from Northern Irish prison cells of the 1940s, on a death sentence, to Washington when the Good Friday Agreement was being negotiated. He tells of the visit he made to Colonel Gaddafi to arrange for arms and ammunition, and the fateful voyage of the Claudia; Bloody Sunday and the burning of the

British Embassy in Dublin; the high-drama helicopter escape of IRA prisoners from Portlaoise Jail. This is the story of an extraordinary journey, Cahill's own life mirroring the growth, changes and development of the republican movement as a whole through more than sixty years of intense involvement.

This book represents the first interdisciplinary study of how memory has driven and challenged the political transition of Irish republicanism from armed conflict to constitutional politics through endorsing policing and the rule of law in the North of Ireland. Locating itself within memory studies, critical criminology and transitional justice, this book uses original interviews with political activists, community workers and former combatants from across the spectrum of modern Irish republicanism to draw out how the past frames internal tensions within the Irish republican constituency as those traditionally opposed to state policing structures opt to buy into them as part of a wider transitional process in post-conflict Northern Ireland. The book critiques the challenges of making peace with the enemy against a backdrop of communal narratives and memories of historic injustice, counterinsurgency policing and human

rights abuse that do not simply disappear when war turns to peace. Through a rich empirical basis the book offers an insight into these challenges from the perspective of those who were, and remain, in the thick of the Irish republican debate on policing. In doing so it provides an acute insight into the role that individual and collective memory plays in reshaping ideological outlooks, understanding processes of political transition, contextualising 'moving on' processes with former enemies and conditioning views of post-conflict police reform. BRADLEY SPEAKS OUT FOR THE FIRST TIME – WITHOUT PERMISSION FROM THE IRA The IRA was Gerry Bradley's life. His sole interest was in 'ops' – carrying out on-the-ground war. Inspired, initially, to defend his home place against Loyalist threats, he became one of the most senior operators in Belfast IRA. When things turned political, there seemed to be no place for his kind of activism. **THE INSIDE STORY BY A SENIOR IRA MAN**

This is a comprehensive, detailed and humane account of the thousands who came into custody during the years of the Northern Ireland conflict and how they lived out the months, years and decades in Irish and English maximum security prisons. Erupting in 1969, the Northern Ireland troubles continued with terrible intensity until 1998. The most enduring civil conflict in Western Europe since the Second World War cost almost 4,000 lives, inflicted a vast toll of injuries and wrought much destruction. Based on extensive archival research and numerous interviews, this book covers the jurisdictions of Northern Ireland, the Republic of Ireland and England, providing an account of riots, escapes, strip and dirty protests and hunger strikes. It paints a picture of coming to terms with sentences, some of which lasted for two decades and more. Republicans and loyalists, male and female prisoners, officials and staff, families, supporters, clergy and politicians all played a part – and all were changed. The narrative includes some of the most remarkable events in prison history anywhere – mass breakouts, organised cell-fouling and prolonged nakedness, and hunger striking to the death; there are also accounts of the prisoners’ very effective parallel command structure. The book shows how Anglo-Irish and intra-Irish relations were profoundly affected and how the prisoners’ involvement and consent were critical to the Good Friday Agreement that ended the long war. The final part of a trilogy dealing with Irish political prisoners from 1848

to 2000 by renowned expert Seán McConville, this is an essential resource for students and scholars of Irish history and Irish political prisoners; it is also a major contribution to the study of imprisonment.

The story of contemporary Ireland is inseparable from the story of the official republican movement, a story told here for the first time - from the clash between Catholic nationalist and socialist republicanism in the 1960s and '70s through the Workers' Party's eventual rejection of irredentism. A roll-call of influential personalities in the fields of politics, trade unionism and media - many still operating at the highest levels of Irish public life - passed through the ranks of this secretive movement, which never achieved its objectives but had a lasting influence on the landscape of Irish politics. 'A vibrant, balanced narrative' Diarmaid Ferriter, Irish Times Books of the Year 'An indispensable handbook' Maurice Hayes, Irish Times 'Hugely impressive' Irish Mail on Sunday 'Excellent' Sunday Business Post

From the Plantation of Ulster in the seventeenth century to the entry into peace talks in the late twentieth century the Northern Irish people have been engaged in conflict - Catholic against Protestant, Republican against Unionist. The traumas of violence in the Northern Ireland Troubles have cast a long shadow. For many years, this appeared to be an intractable conflict with no pathway out. Mass mobilisations of people and dramatic political crises punctuated a seemingly endless succession of

bloodshed. When in the 1990s and early 21st century, peace was painfully built, it brought together unlikely rivals, making Northern Ireland a model for conflict resolution internationally. But disagreement about the future of the province remains, and for the first time in decades one can now seriously speak of a democratic end to the Union between Northern Ireland and Great Britain as a foreseeable possibility. The Northern Ireland problem remains a fundamental issue as the United Kingdom recasts its relationship with Europe and the world. In this completely revised edition of his Very Short Introduction Marc Mulholland explores the pivotal moments in Northern Irish history - the rise of republicanism in the 1800s, Home Rule and the civil rights movement, the growth of Sinn Fein and the provisional IRA, and the DUP, before bringing the story up to date, drawing on newly available memoirs by paramilitary militants to offer previously unexplored perspectives, as well as recent work on Northern Irish gender relations. Mulholland also includes a new chapter on the state of affairs in 21st Century Northern Ireland, considering the question of Irish unity in the light of both Brexit and the approaching anniversary of the 1921 partition, and drawing new lessons for the future. In a career spanning decades, Mitchell B. Reiss has been at the center of some of America's most sensitive diplomatic negotiations. He is internationally recognized for his negotiation efforts to forge peace in Northern Ireland and to stem the nuclear crisis in North Korea. In *Negotiating with Evil*, Reiss distills his experience to answer two questions more vital today than ever: Should we talk to terrorists? And if we do, how should we conduct the negotiations in order to gain what we want? To research this book, Reiss traveled the globe for three years, unearthing hidden aspects of the most secret and sensitive negotiations from recent history. He has interviewed hundreds of individuals, including prime ministers, generals, intelligence operatives, and former terrorists in conflict-torn regions of Europe, Asia, North Africa, and the Middle East. The result is a

fascinating examination of the different methods countries have employed to confront terrorist movements, the mistakes made, the victories achieved, and the lessons learned. Negotiating with Evil is a penetrating and insightful look into high-stakes diplomacy in the post-9/11 world and a vital contribution to the global security debate as the United States and its allies struggle to confront terrorist threats abroad and at home.

Throughout its history the Irish Republican Movement has been beset by splits. The former paramilitary and author Brendan Behan famously quipped that, 'The first thing on the agenda was always the split.' In this in-depth research Morrison analyses the splits through his extensive range of interviews with leadership and rank and file members of the political and paramilitary wings of the Movement. This timely analysis shows how the splits have both aided the politicization of Sinn Fein and the Provisional IRA while in parallel they have brought about the recent intensification of dissident Republican paramilitary activity. He charts the rise of groups including the Real IRA, Continuity IRA and the newly emerging 'New IRA.' By applying his unique process model of splits Morrison provides an insightful analysis of this long-lasting terrorist movement.

The author's trademark blend of profound insight and extensive knowledge provides a fascinating history of the Catholic Church and the papacy by focusing on Angelo Giuseppe Roncalli as Pope John XXIII, who awed the world with the seminal and unprecedented changes he brought about due to his concern for humankind. Why do people commit violent acts? This indepth case study of Provisional Irish Republicans, based primarily on interviews with activists, goes a long way toward explaining small group political violence. This unique oral history is valuable not only for those concerned with Irish or British politics but also for those in many social science disciplines and the entire sub-field of terrorism and political violence. This is interesting reading that makes the Irish political activists come alive. The case study opens with a history of the IRA and the Provisional Irish Republican Army and Provisional Sinn Fein since 1969. The people who participate in the republican movement are described in vivid detail; they tell about themselves and how they were recruited. The findings, implications, and a mobilization/political process perspective are analyzed carefully.

When to Talk to Terrorists

Pawns in the Game: Irish Hunger Strikes 1912-1981

Terrorist groups attain notoriety through acts of violence, but threats of future violence are just as important in attaining their political goals. Force of Words is a groundbreaking examination of the role of threats in terrorist

strategies. Joseph M. Brown shows how terrorists use threats, true and false, to achieve key outcomes such as social control, economic attrition, and policy concessions. Brown demonstrates that threats are integral to terrorism on a tactical level as well, distracting security forces, drawing police into traps, and warning civilians out of harm's way when terrorists seek to limit casualties. *Force of Words* reorients the field of terrorism studies, prioritizing the symbolic, psychological dimension that makes this form of conflict distinctive. It expands the study of terrorist propaganda by detailing how militants tailor their threats to send the desired political message. Drawing on rich interview data, quantitative evidence, and case studies of the IRA, ETA, the Tamil Tigers, Shining Path, the Túpac Amaru Revolutionary Movement, Boko Haram, the Afghan Taliban, and ISIL, the book offers practical guidance for interpreting terrorists' threats and assessing their credibility. *Force of Words* is essential reading for anyone seeking to understand the logic of terrorism.

Energy efficiency is more of a journey than a battle. It starts with small steps, taken at the local and state levels. It is a matter of identifying and then practicing good habits in our daily lives, at home and at work. Every idea and process described in this book, if performed reasonably well, will put money in your pocket. You will not only save money; you will probably

make money—and you will take important steps toward saving the planet. Power Economics is a book for thoughtful people who want to cut their energy costs and diminish the harmful effects of greenhouse gas emissions. Climate change and global warming are not speculative fantasies. They are real. They threaten communities, towns, cities, regions, nations, and continents. Even if you don't care about polar bears and penguins, the effects of melting icecaps and shifting ocean currents will transform your life and the lives of the people around you. Power Economics offers practical steps and achievable strategies for reducing the destructive impact of climate change and global warming. Yes, we need energy to live and to sustain our economies. But we don't need to burn fossil fuels and release CO₂ gas at levels that will result in a global catastrophe. There are reasonable alternatives to our current practices. None of the ideas that described in this book are entirely new or totally unfamiliar. They aren't extreme or bizarre. They won't require harsh or draconian measures to work. All of them follow basic rules of common sense and can be achieved at reasonable cost. "I have done my best to convey the complexity and urgency of the matter. I hope that you find this book informative and useful. Working together, we can shed many of our wasteful energy habits and begin the task of building a world that is safe, sustainable and healthy,"

writes author and energy expert Elena Cahill.

BESTSELLER An explosive exposé of how British military intelligence really works, from the inside. The stories of two undercover agents -- Brian Nelson, who worked for the Force Research Unit (FRU), aiding loyalist terrorists and murderers in their bloody work; and the man known as Stakeknife, deputy head of the IRA's infamous 'Nutting Squad', the internal security force which tortured and killed suspected informers.

In contrast to the widely held assumption that terrorists as crazed fanatics, Jerrold Post demonstrates they are psychologically "normal" and that "hatred has been bred in the bone". He reveals the powerful motivations that drive these ordinary people to such extraordinary evil by exploring the different types of terrorists, from national-separatists like the Irish Republican Army to social revolutionary terrorists like the Shining Path, as well as religious extremists like al-Qaeda and Aum Shinrikyo. In *The Mind of the Terrorist*, Post uses his expertise to explain how the terrorist mind works and how this information can help us to combat terrorism more effectively.

Across 18 chapters, it assesses a wide range of groups and types of extremism and terrorism from around the world, as well as key topics such as technology, social and international policies, ethics and cultural competency, and the role psychiatrists and mental health professionals play in treatment, management, and prevention.
