A couple's murderous plot goes horribly awry in this French noir classic that later inspired the Alfred Hitchcock masterpiece Psycho Every Saturday evening, travelling salesman Ferdinand Ravinel returns to his wife, Mireille, who waits patiently for him at home. But Ferdinand has another lover, Lucienne—an ambitious doctor—and together the adulterers have

devised a murderous plan. Drugging Mireille, the pair drown her in a bathtub. But before the "accidental" death can be discovered, the corpse mysteriously disappears. So begins the unraveling of Ferdinand's plot, and his sanity. This classic of French noir fiction was adapted for the screen by Henri-Georges Clouzot as *Les Diaboliques* (*The Devils*), starring Simone Signoret and Véra Clouzot, the film which in turn inspired Alfred Hitchcock's *Psycho*. A second movie version, *Diabolique*, followed in 1996, starring Sharon Stone.

Nonlinear Editing Basics is an essential guide for the student or professional to understanding nonlinear editing. Not a technical manual, this easy-to-understand guide to film and video post-production incorporates the basics of nonlinear editing along with the telecine bay, three two pulldown, and simple operation of five important and powerful editing systems. The author incorporates his experience with the Editbox, Media 100, Avid Lightworks, and DVision to bring not only an overview of the nonlinear process, but to describe the basic operation of each of these powerful editors. Regardless of whether one is looking for film or video information, this text explains the basics of both, as well as how they are interrelated. If there is a film project to be finished on video or a video project to finish in the nonlinear editor, the answer to how it is done can be found in this book. Starting with film and video basics, this book explains the integration of the nonlinear editor, as well as why some projects continue to cut workprint alongside the nonlinear editor. It addresses the use of the electronic editors to complete feature films in record time, in addition to the dangers of cutting on these quick and sometimes too powerful systems. The nonlinear editor can be mastered quickly and efficiently if the overall concept is understood. This text not only offers a clear, concise conceptual understanding, but also gives practical operation techniques using specific machines. Steven E. Browne is a Senior Editor in the Finishing Department of New Wave Entertainment in California. He is the author of two other Focal Press titles, Video

Anyone can make a short film, right? Just grab some friends and your handheld and you can do it in a weekend or two before being accepted to a slew of film festivals, right? Wrong. Roberta Munroe screened short film submissions at Sundance for five years, and is an award-winning short filmmaker in her own right. So she knows a thing or two about how not to make a short film. From the first draft of your script to casting, production, editing, and distribution, this is your one-stop primer for breaking into the business. Featuring interviews with many of today's most talented writers, producers, and directors, as well as revealing stories (e.g., what to do when the skinhead crack addict next door begins screaming obscenities as soon as you call "action") from the sets of her own short films, Roberta walks you through the minefield of mistakes that an aspiring filmmaker can make--so that you don't have to make them yourself.

This new edition has undergone a comprehensive update to address the shifting balance between digital and film technologies. The book includes everything a filmmaker needs to know, from budgeting to managing the production office, and comes with downloadable forms.

Using the script as a blueprint, the reader is led through specific techniques to analyze and translate its components into a visual story. A sample screenplay is included that explicates the techniques. The book assumes no knowledge and thus introduces basic

concepts and terminology. Appropriate for screenwriters, aspiring directors and filmmakers, Film Directing Fundamentals helps filmmakers bring their story to life on screen.

Translated by Audie E. Bock. "A first rate book and a joy to read.... It's doubtful that a complete understanding of the director's artistry can be obtained without reading this book.... Also indispensable for budding directors are the addenda, in which Kurosawa lays out his beliefs on the primacy of a good script, on scriptwriting as an essential tool for directors, on directing actors, on camera placement, and on the value of steeping oneself in literature, from great novels to detective fiction." --Variety "For the lover of Kurosawa's movies...this is nothing short of must reading...a fitting companion piece to his many dynamic and absorbing screen entertainments."

Again, *Sam* is a timely investigation of a topic that until now has received almost no critical attention in film and cultural studies: the cinematic remake. As cinema enters its second century, more remakes are appearing than ever before, and these writers consider the full range: Hollywood films that have been recycled by Hollywood, such as *The Jazz Singer*, *Cape Fear*, and *Robin Hood*; foreign films including *Breathless*; and *Three Men and a Cradle*, which Hollywood has reworked for American audiences; and foreign films based on American works, among them Yugoslav director Emir Kusturica's *Time of the Gypsies*, which is a "makeover" of Coppola's *Godfather* films. As these essays demonstrate, films are remade by other films (Alfred Hitchcock went so far as to remake his own *The Man Who Knew Too Much*) and by other media as well. The editors and contributors draw upon narrative, film, and cultural theories, and consider gender, genre, and psychological issues, presenting the "remake" as a special artistic form of repetition with a difference and as a commercial product aimed at profits in the marketplace. The remake flourishes at the crossroads of the old and the new, the known and the unknown. *Play It Again, Sam* takes the reader on an eye-opening tour of this hitherto unexplored territory. Charles Band's Full Moon Entertainment was the most remarkable B-movie studio of the 1990s, responsible for a barrage of sci-fi, fantasy, and horror classics during the last true "golden age" of the home video era. From Puppetmaster to Trancers and beyond, Full Moon transformed the VHS experience for fans worldwide, bringing the inner workings of the movie-making process into the living room, and in turn creating a ravenous fan base that remains to this day. This book tracks the history of the company, from its late '80s beginnings among the ruins of the American drive-in through to its bid to survive in the modern digital world. Featuring rare artwork, behind-the-scenes photos, and over 50 exclusive interviews with the cast and crew who helped to create the legendary B-movie studio, this is an essential read for any cult film fan still lamenting the death of the "mom 'n pop" video store.

On motion picture and television sets today the director spends 90% of his time directing the camera.

Professional actors come to set prepared to direct themselves. In spite of this recent change, 90% of all books on directing do not teach specifically how to direct the camera. Gil Bettman's new book, Directing the Camera, fills that void by teaching the elements of craft that contemporary directors use to give their films the

Access Free John Badham On Directing Notes From The Set Of Saturday Night Fever Wargames And More

visually dynamic look preferred by audiences today. The first half of this book is devoted to teaching a systematic approach that can be used to design the very best movie shot for any dialogue scene, no matter how complex or long. Bettman's "Five Task" approach enables the aspiring director to quickly grasp this difficult element of directorial craft. In the second half the reader is taught how to shoot action sequences using moving and static cameras and the gamut of lenses to achieve the magic trick essential to shooting action -- making stunts that are highly controlled and neither violent nor dangerous look completely mind-blowing.

Chromatic Cinema Color permeates film and its history, but study of its contribution to film has so far been fragmentary. Chromatic Cinema provides the first wide-ranging historical overview of screen color, exploring the changing uses and meanings of color in moving images, from hand painting in early skirt dance films to current trends in digital color manipulation. In this richly illustrated study, Richard Misek offers both a history and a theory of screen color. He argues that cinematic color emerged from, defined itself in response to, and has evolved in symbiosis with black and white.

Exploring the technological, cultural, economic, and artistic factors that have defined this evolving symbiosis, Misek provides an in-depth yet accessible account of color's spread through, and ultimate effacement of, black-and-white cinema.

Mary Mapes's Truth (previously published as Truth & Duty) was made into the 2015 film Truth, starring Cate Blanchett, Robert Redford, Topher Grace and Elizabeth Moss. A riveting play-by-play of a reporter getting and defending a story that recalls All the President's Men, Truth puts readers in the center of the "60 Minutes II" story on George W. Bush's shirking of his National Guard duty. The firestorm that followed that broadcast--a conflagration that was carefully sparked by the right and fanned by bloggers--trashed Mapes' well-respected twenty-five year producing career, caused newsman Dan Rather to resign from his anchor chair early and led to an unprecedented "internal inquiry" into the story...chaired by former Reagan attorney general Richard Thornburgh. Truth examines Bush's political roots as governor of Texas, delves into what is known about his National Guard duty-or lack of service-and sheds light on the solidity of the documents that backed up the National Guard story, even including images of the actual documents in an appendix to the book. It is peopled with a colorful cast of characters--from Karl Rove to Sumner Redstone--and moves from small-town Texas to Black Rock--CBS corporate headquarters--in New York City. Truth connects the dots between a corporation under fire from the federal government and the decision about what kinds of stories a news network may cover. It draws a line from reporting in the trenches to the gutting of the great American tradition of a independent media and asks whether it's possible to break important stories on a powerful sitting president.

It measures 78 feet by 1 foot 3 inches and is the longest papyrus of the Theban Period. It is made up of 6 individual parts. It contains a number of chapters of the Book of the Dead, mostly accompanied by illustrations. The titles of the chapters in the papyrus are written in red. In the following texts a phonetic (grey) translation of the hieroglyphs is provided to aid word identification in the Student Work Book and in the Reading & Answer Book, an English transliteration and a full literal translation is given for reading and study. A “lively” memoir by the Hollywood legend about the making of Spartacus, with a foreword by George Clooney (Los Angeles Times). One of the world’s most iconic movie stars, Kirk Douglas has distinguished himself as a producer, philanthropist, and author of ten works of fiction and memoir. Now, more than fifty years after the release of his enduring epic Spartacus, Douglas reveals the riveting drama behind the making of the legendary gladiator film. Douglas began producing the movie in the midst of the politically charged era when Hollywood’s moguls refused to hire anyone accused of Communist sympathies. In a risky move, Douglas chose Dalton Trumbo, a blacklisted screenwriter, to write Spartacus. Trumbo was one of the “Unfriendly Ten,” men who had gone to prison rather than testify before the House Un-American Activities Committee about their political affiliations. Douglas’s source material was already a hot property, as the novel Spartacus was

written by Howard Fast while he was in jail for defying HUAC. With the financial future of his young family at stake, Douglas plunged into a tumultuous production both on- and off-screen. As both producer and star of the film, he faced explosive moments with young director Stanley Kubrick, struggles with a leading lady, and negotiations with giant personalities, including Sir Laurence Olivier, Charles Laughton, Peter Ustinov, and Lew Wasserman. Writing from his heart and from his own meticulously researched archives, Kirk Douglas, at ninety-five, looks back at his audacious decisions. He made the most expensive film of its era—but more importantly, his moral courage in giving public credit to Trumbo effectively ended the notorious Hollywood blacklist. A master storyteller, Douglas paints a vivid and often humorous portrait in *I Am Spartacus!* The book is enhanced by newly discovered period photography of the stars and filmmakers both on and off the set. Step into the world of cinema and discover everything there is to know about movies, directors, genres, and styles. Profiling more than 100 of the most significant films ever made, and the world's most influential directors, *The Film Book* will take you on a journey through the changing landscape of cinema.
