Reminiscences and Travels of Jose Rizal

As Spain rebuilt its colonial regime in Cuba, Puerto Rico, and the Philippines after the Spanish American revolutions, it turned to history to justify continued dominance. The metropolitan vision of history, however, always met with opposition in the colonies. The Conquest of History examines how historians, officials, and civic groups in Spain and its colonies forged national histories out of the ruins and relics of the imperial past. By exploring controversies over the veracity of the Black Legend, the location of Christopher Columbus's mortal remains, and the survival of indigenous cultures, Christopher Schmidt-Nowara's richly documented study shows how history became implicated in the struggles over empire. It also considers how these approaches to the past, whether intended to defend or to criticize colonial rule, called into being new postcolonial histories of empire and of nations.

This volume takes us into the nineteenth and twentieth centuries, from the late eighteenth century of the Christian era when most of the region was incorporated into European empires to the complexity and dramatic change of the post-World War II period. It covers the economic and social life as well as the religious and popular culture of the region over two centuries. The political structures of the region

are also closely examined, from the insurgencies and rebellions of early in this century to the modern Nationalist movements and the formation of independent states.

Love, Passion and Patriotism is an intimate account of the lives and experiences of a renowned group of young Filipino patriots, the men whose propaganda campaign was a catalyst for the country's revolt against Spain. As writers, artists, and scientists who resided in Europe, they were exposed to new ideas. Reyes uses their paintings, photographs, political writings, novels, and letters to show the moral contradictions inherent in their passionate patriotism and their struggle to come to terms with the relative sexual freedom of European women, which they found both alluring and sordid.
