An accurate and comprehensive study of the political aspects of Fielding's art has been sorely needed. As a result of decades of work by literary scholars and a series of great historians, such a study is finally possible. This volume addresses that need, and, in the light of a recent revival of interest in Fielding's work, it arrives most opportunely. The author offers here a wide-ranging focus and a firm grip on the shifting complexities of Fielding's political situations—the loyalties and enmities, factional alignments and fractious rhetoric—that allow a satisfactory understanding of Fielding's political writing. Political writing in Fielding's day, as in ours, was topical, concerned with evanescent problems and day-to-day needs that were familiar to contemporaries, but that are now recaptured only with greatest difficulty. This study constitutes a thorough reconstruction of Fielding's political context and extricates from the context Fielding's own political endeavours. Cleary's work will make many of Fielding's previously unstudied work accessible to students and scholars of eighteenth-century English literature. A necessary point of reference to both literary specialists and historians concerned with eighteenth-century England.

Urban Enlightenment offers the first literary history of the British periodical essay spanning the entire eighteenth century, and study the genre's development and cultural impact in a transatlantic context.

This book explores what remains an under-studied aspect of Samuel Johnson's profile as a person and writer – namely, his advocacy of social improvement. The interpretive framework provided here is cross-disciplinary, and applies perspectives from social and cultural history, legal history, architectural history and, of course, English literature. This allows Johnson's writings to be read against the peculiarities of their historical milieu, and reveals Johnson in a new light – as an advocate of social improvement for human betterment. Considering the multiplicity of narrative modes that have been employed, the book points to the blurred boundaries and overlaps between history, testimony and fiction, and argues that a future biography of Samuel Johnson has to recognise that through his writings he valued the utilitarian aspect of his manifesto as a writer to impart a more charitable attitude in the pursuit of a more caring society.

This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 5000 words. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic (sermons, aphorisms), individual major works, notable writers, and periodicals that created a market for essays, and particularly significant essays. The preface details the historical development of the essay, and the alphabetically arranged entries usually include a biographical sketch, nationality, era, selected writings list, additional readings, and anthologies.

The development of this technology has raised many questions and concerns. Automated Essay Scoring attempts to address some of these questions including: *How can automated scoring and evaluation supplement classroom instruction? *How does the technology actually work? *Can it improve student learning? *How reliable is the technology? *How can these computing methods be used to develop evaluation tools? *What are the state-of-the-art essay evaluation technologies and automated scoring systems? Divided into four parts, the first part reviews the teaching of writing and how computers can contribute to it. Part II analyzes actual automated essay scorers including e-rater™, Intellimetric, and the Intelligent Essay Assessor. The third part analyzes related psychometric issues, and the final part reviews innovations in the field. This book is intended for researchers and advanced students interested in automated essay scoring from the fields of testing and measurement, education, cognitive science, language, and computational linguistics.

As a textual form, the *essai* predominates in modern and contemporary literature in French. Emerging from an earlier tradition and distinguished from its English-language counterpart, the French-language essay ranges from Stéphane Mallarmé to Colette, Victor Segalen to Aimé Césaire, Jean Grenier to Pierre Michon. The *essai* remains, however, one of the most hazily identified of textual forms, its definition often depending on the progressive elimination of all other generic possibilities. Excluded from the archigenres (theatre, poetry, *récit*), it can even be seen as a hold-all category whose role is to absorb the anarchic extremes of writing. It is perhaps this very lack of pretension to orthodoxy that has drawn so many writers to the *essai*. The conventional understanding of the term - as a tentative, unsystematic exploration - stresses the genre's provisional nature, its refusal of any claims to comprehensiveness. The *essai* exploits the devices of anecdote, illustration and humour; it is addressed to a wide and often general audience; it is also intricately linked to the performance of ideological and writerly strategies, often reordering the classical art of rhetoric and persuasion. As the contributions to this volume show, there is a need to outline an ethics and politics, as well as poetics, of essayism.
