Travel with Comparative Mythologist Joseph Campbell to discover the power of myth in Asia At the beginning of his career, Joseph Campbell developed a lasting fascination with the cultures of the Far East, and explorations of Buddhist and Hindu philosophy later became recurring motifs in his vast body of work. However, Campbell had to wait until middle age to visit the lands that inspired him position and embarked on a yearlong voyage through India, Thailand, Cambodia, Burma, Hong Kong, Taiwan, and finally Japan. Asian Journals combines the two hardcover editions of Campbell's journals, Baksheesh & Brahman and Sake & Satori, into one paperback volume, an edited day-to-day travel diary of the people he met and the historical places he visited on his trek through Asia. Along the way religion, myth, and politics, describing both the trivial and the sublime. As always, Campbell's keen intellect and boundless curiosity shine through in his lucid prose. From these pages, Campbell enthusiasts will come away with a deeper understanding of the man, his work, and his enduring legacy.

"To read East Wind Melts the Ice is to slip into a time stream that is both as long and sinuous as history and as ephemeral as the present moment. Drawing inspiration from the thousand year old history of Japanese poetic diaries, and form from the ancient Chinese almanac that she uses to contain her musings, Liza Dalby has accomplished the seemingly impossible task of translating the sensibility of the Heian Court of 11th century Japan into the context of contemporary America. The result is a stunning chronicle of the beauty of time passing and an evocation of the transient and whimsical nature of all things."—Ruth Ozeki, author of My Year of Meats and All Over Creation "I imagine Liza Dalby writing this book in an ancient library, a lion sleeping at her side, as in the paintings of Saint Jerome. As she collects and layers arcane and fascinating pieces of knowledge, she builds her own very personal almanac packed with the wonder of loving two cultures, the intense inner life of each season, and boundless curiosity of the scholar/child. This is a book to dip in and out of throughout the year."—Frances Mayes, author of Under the Tuscan Sun "Liza Dalby's memoir of the seasons is as fresh and captivating as springtime. A very special book."—Michael Pollan, author of The Omnivore's Dilemma "This beautiful book awakens the senses. A journal, an almanac of the seasons, and a series of reflections on ancient Eastern Chinese and Japanese cultures, here you will find subtle observations of rain and heat, tangerines, mulberries and paulownia trees, crickets and doves forming a rich tapestry as they are woven with evocative fragments of history—stories of geishas, of salesmen who sold bulk fireflies, of the wood that was used for kimono chests, of emptiness in the tea ceremony. Like a lush garden, this book is meant to savor."—Susan Griffin, author of The Book of the Courtesans
