

Journal Of Helminthology

This book is the first to explore in detail the systematics and taxonomy of the digenean fauna of fish in Indian marine waters. It includes morphological descriptions of 648 species in 190 genera and 30 families. The figures from the original publications are enhanced and made more attractive. Each description is accompanied by information on hosts and distribution. Digenetic trematodes, usually known as Digeneans, are the most diverse group of metazoan parasites of marine fishes. They are parasitic flatworms (Phylum Platyhelminthes) with a complex life-cycle and as adults inhabit mainly the alimentary system and associated organs, but also occur in the blood, under the scales, in the body cavity and in the gall and urinary bladders. Keys to families, genera and species are provided, except for a few large and controversial genera, where morphological characters are insufficient for identification. Although there is extensive literature on Digeneans, it is scattered and largely in obscure local journals. Bringing together most of the primary literature on the subject, this book provides a primer for further study and a starting point for the use of modern molecular methods for the fauna of this region. Unique in its scope, it is a valuable resource for students, professional parasitologists and ecologists as well as fishery and wildlife biologists.

The Genus "Anguillulina" Gerv. & V. Ben., 1859, Vel "Tylenchus" Bastian, 1865. By T. Goodey ... Reprinted from the "Journal of Helminthology," Etc

Journal of helminthology. 68 (1994)

In Honour of R.T. Leiper on the Occasion of His 80th Birthday

Keys to the Nematode Parasites of Vertebrates

Journal of Helminthology Supplement in Honour of R. T. Leiper on the Occasion of His 80th Birthday, 1961

Vol. 9-11 contain Imperial Bureau of Agricultural Parasitology. Notes and memoranda, no. 1-10.

Blank 150 Pages Dot Grid Notebook for Helminthology Students, Researchers Or Teachers. Book Format: 6 X 9 Inches

My Helminthology Journal

Journal of the Helminthological Society of Washington

Indian journal of helminthology

For many years the Keys have provided a working tool to those within the field and laboratory needing to know "what is this worm?" They have also helped to establish a classification, using associations of characters, that gives real insight into nematode relationships across the group and their lines of evolution. This supplementary volume is designed to complement the original CIH Keys, now reprinted as one volume, with the additional convenience of reordering into superfamily. The supplement includes revised and redescribed taxa and draws attention to new taxa, to generic level, published by many authors after the original Keys were complete. It also identifies the current position of some of the older genera not included in the original Keys.

Issues in Life Sciences—Bacteriology, Parasitology, and Virology: 2012 Edition is a ScholarlyEditions™ eBook that delivers timely, authoritative, and comprehensive information about Virology. The editors have built Issues in Life Sciences—Bacteriology, Parasitology, and Virology: 2012 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Virology in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Issues in Life Sciences—Bacteriology, Parasitology, and Virology: 2012 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

Keynote Paper on the Biosystematics of Entomopathogenic Nematodes

Journal of the Royal Agricultural Society of England

Being a Supplement to the Introduction to the Study of Helminthology

Supplementary volume

Selected Papers from the Black Forest Symposium Entitled "Environmental and Ecological Parasitology: the Impact of Global Change" Held in Freudenstadt, Germany, Spring 2005

A semiannual journal of research devoted to helminthology and all branches of parasitology.

A Filarial Survey in British Guiana, 1921

Animal and human helminthology. Series A

Comparative Parasitology

Helminths of Wild Birds Found in the Aberystwyth Area

Helminths Collected from Horses in the Aberystwyth Area

Quarterly. Includes journal articles, dissertations, reports, books, and government publications. Foreign titles are not necessarily given

in English. Entries are arranged alphabetically by authors under categories. Author, subject indexes.

Digenetic Trematodes of Indian Marine Fishes

Includes Selected Papers on "Parasites as Biological Tags and Responses of Their Aquatic Hosts to Environmental Change" Presented at the XI International Congress of Parasitology (ICOPA XI)

Symposium Papers from the 9th European Multicolloquium of Parasitology in Memory of Dr Kenneth E. Mott

A History of Human Helminthology

Helminthological Abstracts. Supplement to the Journal of Helminthology. A resumé of the current periodical literature, etc. [With Indexes.]

A semiannual journal of research devoted to Helminthology and all branches of Parasitology.

Technical Communication of the Commonwealth Institute of Helminthology

Research on Toxocara, Including Papers from the 8th European Multicolloquium of Parasitology

Publ. in 4 Parts Per Year

R.T. Leiper: LXXX Anniversary. (Journal of Helminthology Supplement.) [With Plates, Including a Portrait.]

Issues in Life Sciences—Bacteriology, Parasitology, and Virology: 2012 Edition

My Helminthology Journal Features: 150 blank pages 6"x9" paperback Each page contains a dotted grid to take notes and draw. Use this journal to keep a record of your ideas and thoughts for future memory Size: 6 x 9 - enough space to write, small enough to carry around in your bag.

A Contribution Toward a Bibliography on the Lung Nematodes of Mammals

Entozoa
