More Than 150 Delicious Recipes for Fruit & Vegetable Juices, Green Smoothies, and Probiotic Drinks

Nutritional health expert Natalie Savona improves on her 500,000-copy selling Big Book of Juices & Smoothies, with this even bigger book of recipes guaranteed to boost your health and vitality – a comprehensive introduction to juicing. The Big Book of Juices is a new edition of Natalie Savona's classic title, now with even more juices and smoothies and more than 250 photographs. It is founded on two basic principles. First, that juicing is easy if we simply adopt the habit of it; and second, that juicing every day is a delicious way to get healthy and stay healthy. Following a comprehensive introduction to juicing, 405 different juice and smoothie blends are divided up into three central chapters: Making Juices; Making Smoothies; and Making Quenchers (juices with a little added something, such as soda water, herbs or spices). Every blend is given an at-a-glance nutrient profile (listing vitamins, minerals and phytonutrients), and a star rating on its merits as an energy- and immune-boosting, a detoxer, and a tonic for the skin. The recipes can be sourced in several ways: by fruit or vegetable of choice (the chapters are organized by main ingredient); by health benefit (an alphabetical chart lists approximately 50 common ailments or disorders, and cross-references them to the juices that will help overcome them); and by nutrient (a list is given of all the major vitamin and mineral nutrients, each with cross-references to the relevant recipes in the book). The last chapter – a juicing reference section – includes the nutrient and ailment charts as well as suggested juice courses for detoxing and immunity boosting, making this the most practical and comprehensive juice book on the market.

Juice therapy is a naturist practice, from the larger family of practices which include phytotherapy, apitherapy, homeopathy, heliotherapy and others. It appeared and developed as one of the major remedies against aging which is caused by the accumulation of toxins and by the forming of free radicals. It nourishes the body with vitamins and fresh enzymes. The natural juices made out of fresh vegetables and fruit are "life drinks" with extraordinary effects upon our health, upon our general energy level and upon our longevity. Juice therapy had attracted a lot of attention especially after the major discovery of the vitamins by the Polish biochemist Casimir Funk. He established their major importance in the catalysation of nutrition, of absorption and of digestion - therefore they hold a major role in our general metabolism processes. Vitamins cannot be synthesised by our bodies. Their main source is the vegetal world and they can be obtained out of cereals, fruit, legumes, raw vegetables. Juice therapy has an important contribution to the diversification and enriching of our nourishment as it brings more energy into our body - both in a healthy body and in a sick one. is an alternative to the classical vegetarian diet based on raw foods because the juices have a higher concentration of vitamins, enzymes, minerals and antioxidants - which are the essential life factors. The aim of this book is to help you understand how to use the fruit and vegetables juices and to understand how they can maintain your health and heal your illnesses.
