"The papers drawn together in this book seek to make a contribution to an important area in economics: the study of profit. Business accounting defines profits as the excess of total revenue minus total costs. On the other hand, in economic theory profits have been variously defined on the basis of what is being measured and for what purpose, i.e. as the return to ownership or the return to entrepreneurship, and as national income profits or real profits." "The concept of profits, however, cannot and should not be reduced simply to the inquiry of measurement, but rather to its role within the workings of an economic system. The contributions to this volume provide original insights into the crucial questions of interrelationships between profits, corporate investment and financing activity, the causes of instability and government deficits, and the secular and cyclical changes in production and employment."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. This book is a comprehensive introductory manual that guides beginners to a functional reading knowledge of late medieval and early modern Yiddish (c.1100-1750). It is the first such manual to exist for that language, whose early literary tradition comprises a range of genres as broad as other contemporary European literary traditions. The guide is organized as a series of progressively more complex lessons, focused on key texts of the literary corpus, which are presented in their authentic form as found in manuscripts and early printed books.

The lessons seek to accommodate readers ranging from absolute beginners to those who might already know Hebrew, medieval German, or modern Yiddish. The focal texts are the Old Yiddish midrashic heroic lay, 'Joseph the Righteous', from the earliest extant manuscript collection of Yiddish literature (1382), the Middle Yiddish romance adventure tale, 'Briyo and Zimro', from a later collection (1585), and a full canto of the Middle Yiddish epic, Pariz and Viene (1594), each with full glosses and a step-by-step introduction to the

morphology, syntax, and phonology. Each lesson also includes a brief supplemental text that cumulatively demonstrates the broad cultural range of the corpus. In addition, several appendices of supplementary material round out the volume, including a collection of additional readings, a table of the manuscript hands and printing fonts employed in the volume, and a full end-glossary of all Yiddish words found in the texts.

Columbia's guides to postwar African literature paint a unique portrait of the continent's rich and diverse literary traditions. This volume examines the rapid rise and growth of modern literature in the three postcolonial nations of Zimbabwe, Malawi, and Zambia. It tracks the multiple political and economic pressures that have shaped Central African writing since the end of World War II and reveals its authors' heroic efforts to keep their literary traditions alive in the face of extreme poverty and AIDS. Adrian Roscoe begins with a list of key political events. Since writers were composing within both colonial and postcolonial contexts, he pays particular attention to the nature of British colonialism, especially theories regarding its provenance and motivation. Roscoe discusses such historical figures as David Livingstone, Cecil Rhodes, and Sir Harry Johnston, as well as modern power players, including Robert Mugabe, Kenneth Kaunda, and Kamuzu Banda. He also addresses efforts to create a literary-historical record from an African perspective, an account that challenges white historiographies in which the colonized was neither agent nor informer. A comprehensive alphabetical guide profiles both established and emerging authors and further illustrates issues raised in the introduction. Roscoe then concludes with a detailed bibliography recommending additional reading and sources. At the close of World War II the people of Central Africa found themselves mired in imperial fatigue and broken promises of freedom. This fueled a desire for liberation and a major surge in literary production, and in this illuminating guide Roscoe details the campaigns for social justice and political integrity, for education and economic empowerment, and for gender equity, participatory democracy,

I, Cinna (The Poet) has one short scene in Shakespeare's Julius Caesar where he is mistaken for someone else and killed by the mob. Now, in a new play by Tim Crouch, this unlucky man is given a chance to tell his story. Written for ages 11+, I, Cinna (The Poet) is a fusion of theatre, multimedia and creative writing tasks. Cinna asks his young audience to consider the relationship between words and actions, art and politics, self and society. During the performance he asks us to write alongside him: a small poem on a big theme. Meanwhile, some of his closest followers are convinced their leader has become too powerful and plot his removal.
