In *The FRESH Classroom: Why Culturally Relevant Education Can't Wait!*, Dr. Stephanie Boyce shares personal stories to help educators unpack opportunities for applying culturally relevant education in their classrooms. She offers field-proven practical strategies and evidence-based theories that empower educators to more authentically engage and become inclusive of ALL students in their classrooms. Dr. Boyce's FRESH approach represents a solution to an urgent call for innovation by instructional leaders seeking ways to meet the needs of an ever-diversifying student population. This book is a must-have for all educators looking to connect content with students' interests effectively in deep and meaningful ways.

A classic text about the social study of food, this is the first English language edition of Jean-Pierre Poulain's seminal work. Tracing the history of food scholarship, *The Sociology of Food* provides an overview of sociological theory and its relevance to the field of food. Divided into two parts, Poulain begins by exploring the continuities and changes in the modern diet. From the effect of globalization on food production and supply, to evolving cultural responses to food - including cooking and eating practices, the management of consumer anxieties, and concerns over obesity and the medicalization of food - the first part examines how changing food practices have shaped and are shaped by wider social trends. The second part provides an overview of the emergence of food as an academic focus for sociologists and anthropologists. Revealing the obstacles that lay in the way of this new field of study, Poulain shows how the discipline was first established and explains

its development over the last forty years. Destined to become a key text for students and scholars, *The Sociology of Food* makes a major contribution to food studies and sociology. This edition features a brand new chapter focusing on the development of food studies in the English-speaking world and a preface, specifically written for the edition.

For too long Africa's mineral fortune has been lamented as a resource curse that has led to conflict rather than development for much of the continent. Yet times are changing and the opportunities to bring technical expertise on modern mining alongside appropriate governance mechanisms for social development are becoming more accessible in Africa. This book synthesizes perspectives from multiple disciplines to address Africa's development goals in relation to its mineral resources. The authors cover ways of addressing a range of policy challenges, environmental concerns, and public health impacts and also consider the role of globalization within the extractive industries. Academic research is coupled with key field vignettes from practitioners exemplifying case studies throughout. The book summarizes the challenges of natural resource governance, suggesting ways in which mining can be more effectively managed in Africa. By providing an analytical framework it highlights the essential intersection between natural and social sciences, central to efficient and effective harnessing of the potential for minerals and mining to be a contributor to positive development in Africa. It will be of interest to policy makers, industry professionals, and researchers in the extractive industries, as well as to the broader development community.

The proverbs in Proverbs From The Sea aren't the classic ones from David in the Bible but are clever turn-of-phrases heard all over the Caribbean that, like the originals, communicate wisdom. This journal contains tokens of wisdom written in the original vernacular as well as the layman's translations. Also contained are reflection questions, with space to ponder and apply its meaning to your life. This journal will spark a creative exploration of what you are feeling and going through in a way that empty pages can not.

Structured around the Equality Act and written collaboratively, *Diverse Educators: A Manifesto* aims to capture the collective voice of the teaching community and to showcase the diverse lived experiences of educators. The book is divided into ten chapters, one for each of the nine Protected Characteristics (Age; Disability; Gender Reassignment; Pregnancy and Maternity; Marriage and Civil Partnership; Race; Religion and Belief; Sex; Sexual Orientation) with a tenth chapter exploring intersectionality. Framed in theory and interweaving personal and professional narrative from over 100 contributors, this ground-breaking text responds to current and historic debates, while remaining accessible and solutions-focused, with high-quality input on practice, pedagogy, people management and policy. Each chapter shares provocations for the reader and for the school system on the changes we would collectively like to manifest in education.

A poetry collection of “peculiar grace” from the National Book Critics Circle Award finalist author of *Dailies & Rushes* (Brian Phillips, *Poetry Magazine*). Susan Kinsolving’s first poetry collection, *Dailies & Rushes*, was hailed as a “brilliant debut” by the *New York Times*, and “grand and almost terrifying” by the *New Yorker*. In her new work, *The White Eyelash*, she turns the extremes of her recent experiences—especially those with her ageing, mentally ill mother—into poems of harsh factuality. This dark narrative sequence is highly contrasted by the humor presented in a section called “Light Fare & Oddballs.” Once again, Kinsolving exhibits a daunting range with signature style and substance. “[*The White Eyelash*] finds the poet remembering her trouble mother, concentrating on visual detail or pursuing light-verse forms and verbal games with a demotically highbrow, casual grace. . . . Often organized around colors . . . these poems show a love for beauty and a casual line reminiscent of Eamon Grennan’s.” —*Publishers Weekly*
