Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Safe, efficient, code-compliant electrical installations are made simple with the latest publication of this widely popular resource. Like its highly successful previous editions, the National Electrical Code 2011 spiral bound version combines solid, thorough, research-based content with the tools you need to build an in-depth understanding of the most important topics. New to the 2011 edition are articles including first-time Article 399 on Outdoor, Overhead Conductors with over 600 volts, first-time Article 694 on Small Wind Electric Systems, first-time Article 840 on Premises Powered Broadband Communications Systems, and more. This spiralbound

The de facto how-to manual of the international Food Not Bombs movement, which provides free food to the homeless and hungry and has branches in countries on every continent except Antarctica, this book describes at length how to set up and operate a Food Not Bombs chapter. The guide considers every aspect of the operation, from food collection and distribution to fund-raising, consensus decision making, and what to do when the police arrive. It contains detailed information on setting up a kitchen and cooking for large groups as well as a variety of delicious recipes.

Accompanying numerous photographs is a lengthy section on the history of Food Not Bombs, with stories of the jailing and murder of activists, as well as premade handbills and flyers ready for photocopying.
