Memories, Reflections, and Lessons from 20Th- Century African- American Educators

"Field instruction has traditionally been at the core of the geoscience curriculum. The field experience has been integral to the

of special education teachers. Although the work that special education teachers perform does indeed differ from the work of classroom teachers, teacher preparation in the two fields has much in common. The purpose of this seven-part handbook is to expand our knowledge of teacher education

illuminating the
particularities of special
