KERLY'S LAW OF TRADE MARKS AND TRADE NAMES.

Internet intermediaries play a central role in modern commerce and society. Although their economic and social importance is well-recognised, their legal liability remains poorly understood, and, until now, no work has specifically addressed their legal responsibility for wrongdoing carried out by third parties using their facilities or platforms. This work fills that gap by providing comprehensive coverage of the legal duties owed by intermediaries and the increasingly complex schemes that regulate their activities. The first part of the work introduces the concept of an internet intermediary, general doctrines of primary and secondary liability, and the European enforcement regime. The second part examines the liability of intermediaries in specific areas of law, with a detailed analysis of the applicable liability rules, and the major English case law, and decisions of the Court of Justice that interpret and apply them. The final part of the work provides guidance on remedies and limitations. Written by an expert author from the intellectual property chambers at 8 New Square, Lincoln's Inn, this is an essential guide for lawyers advising on liability, privacy, and online regulation.

Law of Trade Marks and Trade Names

Law of Trade Marks and Trade Name (5th Ed.)

This book explores the shape that intellectual property law took over the course of the nineteenth century.

With this publication, WIPO and the author aim at making available for judges, lawyers and law enforcement officials a valuable tool for the handling of intellectual property cases. To that effect, the case book uses carefully selected court decisions drawn from various countries with either civil or common law traditions. The extracts from the decisions and accompanying comments illustrate the different areas of intellectual property law, with an emphasis on matters that typically arise in connection with the enforcement of intellectual property rights in civil as well as criminal proceedings.
