It's a hot June morning in a small Midwestern town when fifteen-year-old Shawn Spencer arrives at the church for his best friend Tanner's funeral. Though his drowning was officially ruled an accident, Tanner's sister Jenny swears she saw something rise up from the Carthage Lake to pull the struggling teenager beneath the surface. Shawn doesn't believe in monsters... but he will... The real threat, however, lies in the man behind the monster, a mysterious old man who has vowed to settle an old grudge and regain something that was stolen from him decades earlier. To survive the dark days and nights ahead, Shawn must not only decipher what the man is after, he must move past his own grief, fears, and insecurities, and learn to trust in Jenny, the disgraced town sheriff, and, most importantly, in himself. The Small Things trilogy spans forty years and three generations in a tale of murder, betrayal, corruption, sacrifice, love, redemption, faith and magic that culminates in a showdown that will pit the very forces of heaven and hell against Shawn and his family in a battle for the future of mankind and the world

itself.

A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

New Orleans musician Birch "Buzz" MacKinlay used to think she was the only werewolf in the world. But that was before the mysterious and captivating Rowan welcomed her into his pack, and showed her that shapeshifters- all kinds of shapeshifters- were hiding in plain sight everywhere. Now Birch is on a crash course by day to learn everything she can about the secret "shifter" world, while gigging as a bass player at night. But there's a problem with this dream come true: a dark and growing danger threatens the shifters, who are beginning to mysteriously disappear or die. Faced with hecklers, drunks, stalkers, and incompetent bandmates in one life and fang-toothed double agents in the other, Birch doesn't know who to trust- especially now that she's the target of a powerful enemy. With menace closing in fast, Birch must find a way to save her new pack... or lose everything that matters, including her own life.

Christian McClarity, David Morton and Lucas Mach have never met each other directly and never will (not even in this book where

they share separate stories). They illuminate the classic role of the misunderstood and endangered loner hero who saves innocents from slaughter and brings murderous gangsters to justice. These men are very different from each other: a tenderfoot in Montana, a retired sheriff in Boston and a politically influential business mogul in Washington, D.C. None of them meant to be cast into the role of detective, but murder mysteries spontaneously erupt before them. Each rises to the thousand-headed challenge for the sake of principle and for the sake of those they love. Think for a moment of the hero you yourself are, every day you also are vulnerable to unscrupulous enemies. So here in these three tense stories meet your comrades in the struggle for good: Crisis McClarity, the Grandfather and the Hollow Hero.

A Pattern of Shadows: Small Things Book 3

A new vision of knights, dragons, and the fair maiden caught in between . . . Four decades of peace have done little to ease the mistrust between humans and dragons in the kingdom of Goredd. Folding themselves into human shape, dragons attend court as ambassadors, and lend their rational, mathematical minds to universities as scholars and teachers. As the treaty's anniversary draws near, however, tensions are high. Seraphina has reason to fear both sides. An unusually gifted musician, she joins the court just as a member of the royal family is murdered. While a sinister plot to destroy the peace is uncovered, Seraphina struggles to protect the secret behind her musical gift, one so terrible that its discovery could mean her very life. Seraphina's tortuous journey to self-acceptance will make a magical, indelible impression on its readers.

Thinking Shakespeare gives theater artists practical advice about how to make Shakespeare's words feel spontaneous, passionate, and real. Based on Barry Edelstein's thirty-year career directing Shakespeare's plays, this book provides the tools that artists need to fully understand and express the power of Shakespeare's language. Claire Summers awoke in a doctor's office, heart pounding in her chest, blouse hiked up around her belly. She watched in confusion

as a dark-haired woman moved an ultrasound paddle over her exposed stomach. "Claire," said the woman, her badge identifying her as Dr. Greenwald, "your baby's going to be okay." She turned her head, scanning the room. They were alone. "I found the heartbeat," the woman continued. "You were lucky this time. Your baby's fine." Claire? Is that her name? She doesn't remember coming to see Dr. Greenwald, or even being pregnant. She doesn't remember anything before waking up in the examination room, her life a complete blank. The only thing she really knows is that someone, somewhere is trying to kill her. Memories of a Ghost tells the story of a young woman's quest to remember her life. And just when she thinks she's put all the pieces together, along comes an entirely different puzzle that will make her doubt herself and her sanity. Is she really Claire Summers?

This book is about keeping so much trauma inside you that it ends up hurting you as a person. I wanted to help others by showing them what I went through to find my own truth about who I am. I look at everyone being the same but on different paths. You can have different opinions and not have the same beliefs and still love each other. I was always looking at my views and never took the time to

see others until I slowed down and decided to deal with each trauma that I had in my life. It was hard, but in the end, I came out a better human. We all are connected in some way or form, each with a different purpose, and it is up to us to achieve it and take with you, in the end, all the lessons you learn from each path you take.

It is a love story that takes place in the year of 1893. The background is the town of St. Jovite, Mont-Tremblant in the Laurentian s. Rose was waiting tables at Ken's All-Nite Diner in Keokuk, Iowa, circa 1959, when something happened that would change her life for-ever. Two men burst through the front door, fighting for their lives. Though it was morning, she could see stars in the nighttime sky through the doorway as the door closed behind them. The larger of the two men quickly gained the advantage, knocking the smaller man unconscious before running out of the diner. Rose, a student nurse, quickly patched up the injured man, and when an ambulance arrived, insisted on riding with him to the hospital. His name was Henry Martin, according to his driver's license, though both the license and the money in his wallet are dated some 60 years in the future. There's something else, too-a portable telephone that plays music and seems to have a miniature color television inside. Just who is Henry Martin, where did he get these things, and why is someone trying to kill him?

In this strange age of crisis where there really is no front line, she has moved from one hot zone to the next. With multiple assignments in Syria, Egypt, and Afghanistan, Ward, who speaks seven languages, has been based in Baghdad, Beirut, Beijing, and Moscow. She has seen and documented the violent remaking of the world at close range. With her deep empathy, Ward finds a way to tell the hardest stories. On All Fronts is the riveting account of Ward ’ s singular career and of journalism in this age of extremism.
