Foreword by Neil Blumenthal, co-founder of Warby Parker “A beautiful, timely book that will guide you as you find your way to make a difference in the world.” —Walter Isaacson You don’t have to be a billionaire philanthropist, give up your day job, or wait for retirement to make a difference in the world. You can start now. We all want to make the world a better place, but with busy, demanding lives, most of us struggle with the where, when, and how. Dr. Jordan Kassalow, founder of VisionSpring, the groundbreaking venture that has restored eyesight and hope to millions of people across the globe, has the answers: here, now, and in your own way. Sharing his personal story of integrating real-world responsibilities with his desire to make a difference, Jordan offers you a practical way forward, custom-made for your unique talents and circumstances, to take you from thought to action. The soulful and pragmatic approach in this remarkable book will help you see with your heart and use your head to invest in your highest goals—while still earning a paycheck, being there for those you love, and enjoying life. To dare to matter, today. “An essential reminder that the greatest challenges of any age are no match for the good will, love, passion, and potential that abides in all human beings. I hope this superb book will inspire its readers to follow in Jordan’s footsteps in making a difference for all.” —Madeleine K. Albright, former Secretary of State “Dare to Matter should be required reading for anyone who dreams of making a difference. The book shines with hard-earned wisdom embedded in spiritual ground and girded with practical advice. You will be inspired, enlivened and possibly, forever changed in all good ways.” —Jacqueline Novogratz, CEO, Acumen and author of The Blue Sweater

On the rodeo circuit, B.J. Lambert had plenty of chances to forget about his first love.

First Published in 1990. Routledge is an imprint of Taylor & Francis, an informa company.

The Pilgrim, first published in 1969, has been hailed as Indonesia's first real modern novel. The main characters are an artist and a cemetery overseer; the former represents emotion and the latter signifies reason and the conflicting aspects of human nature. Despite the characters' antagonistic nature and cruelty, they are---in some ways---very similar. Both represents forms of creativity, philosophy, and art. Both exist outside conventional society. Both are searching for genuine human values and are aware of their shortcomings. In The Pilgrim, the chaos of thought and feelings represents life in its chaotic randomness.

The field of pharmaceutical biotechnology is evolving rapidly. A whole new arsenal of protein pharmaceuticals is being produced by recombinant techniques for cancer, viral infections, cardiovascular and hereditary disorders, and other diseases. In addition, scientists are confronted with new technologies such as polymerase chain reactions, combinatorial chemistry and gene therapy. This introductory textbook provides extensive coverage of both the basic science and the applications of biotechnology-produced pharmaceuticals, with special emphasis on their clinical use. Pharmaceutical Biotechnology serves as a complete one-stop source for undergraduate pharmacists, and it is valuable for researchers and professionals in the pharmaceutical industry as well.

The latest edition of the popular collection of in-depth portraits of extraordinary value investors, featuring new profiles and updates The second edition of *The Value Investors* presents a collection of investing legend profiles from around the world. Chapters explore the investors' backgrounds, cultures, and personal stories, and reveal how life experiences have shaped their investment strategies and mindsets. This fascinating book shows you that value investing is a dynamic, constantly-changing strategy which, when properly implemented, can provide significant, sustainable benefits. Although the investors profiled come from a diverse range of geographic regions and socio-economic, cultural, and educational backgrounds, they share similar personality traits, temperaments, and investment philosophes. Thoroughly revised and expanded, the book provides relevant updates on the professional and personal experiences of the investors since the first edition's publication. Complementing the original profiles are several new chapters featuring established value investors including Howard Marks, as well as rising personalities and fund managers such as Álvaro Guzmán de Lázaro and Fernando Bernad Marrase. Author Ronald Chan, founder of Hong Kong-based investment management Chartwell Capital Limited, highlights how and why the value investors have consistently beaten the stock market through the years. This book: Covers multiple generations, geographies, and value investing styles Presents updated profiles of notable value investors such as Walter Schloss, Irving Kahn and Thomas Kahn, Jean-

Marie Eveillard, Mark Mobius, and Teng Ngiek Lian Profiles international fund and asset managers from the North America, Europe and Asia Includes a chapter on the making of a successful value investor The Value Investors: Lessons from the World's Top Fund Managers, 2nd Edition is a must-read for investors looking to diversify their portfolios across different asset classes or geographic areas, finance professionals and students, and general readers with interest in value investing.

The theory of probability is a powerful tool that helps electrical and computer engineers to explain, model, analyze, and design the technology they develop. The text begins at the advanced undergraduate level, assuming only a modest knowledge of probability, and progresses through more complex topics mastered at graduate level. The first five chapters cover the basics of probability and both discrete and continuous random variables. The later chapters have a more specialized coverage, including random vectors, Gaussian random vectors, random processes, Markov Chains, and convergence. Describing tools and results that are used extensively in the field, this is more than a textbook; it is also a reference for researchers working in communications, signal processing, and computer network traffic analysis. With over 300 worked examples, some 800 homework problems, and sections for exam preparation, this is an essential companion for advanced undergraduate and graduate students. Further resources for this title, including solutions (for Instructors only), are available online at www.cambridge.org/9780521864701.

The development of communication studies has been a lively process of adoption and integration of theoretical constructs from Pragmatism, Critical Theory and Cultural Studies. Critical Communication Studies describes the intellectual and professional forces that have shaped research interests and formed alliances in the pursuit of particular goals. Hanno Hardt reflects on the need to come to terms with the role of history in academic work and locates the intellectual history within the context of competing social theories. The book provides a substantive foundation for understanding the field and will be a major text in all courses dealing with communication history and theory.

Lulu adalah gadis manis yang selalu ceria dan penuh semangat. Namun hidupnya tidak selalu berjalan dengan mulus, karena selalu dipenuhi masalah. [KKPK, DAR! Mizan, Cerita, Anak, Indonesia]

One explosion. Three women. Countless secrets. From bestselling author Catherine McKenzie comes a suspenseful, unsettling novel about what lurks in the wake of tragedy. Everybody hides. Everybody lies. On October 10th, three women's lives are forever altered by a terrible accident. Cecily was supposed to be in the building that exploded in Chicago and killed her husband. A photo taken of her as she watched the horrifying scene quickly brings her unwanted media attention as the "poster child" of the haunting event. Cecily has secrets she's desperately trying to hide but cannot find a way to divert the media's attention from her and her family. Franny lost her birth mother—Cecily's best friend—in the destruction shortly after the two met. A year later, she and Cecily team up to help families obtain financial compensation for their loss, but their budding friendship is derailed when it starts to become clear Franny's story doesn't quite add up. How did she manage to track down her mother? And why did her mother keep Franny a secret even after they'd met? A thousand miles away in Montreal, Kate is trying to create a new life. But what led her to leave Chicago in the first place? Will she succeed in moving on from her mistakes or will Kate be drawn back into her old life? With surprising twists and turns, *The Good Liar* is a riveting read by a masterful storyteller that will make readers wonder how far they'd go to hide their own secrets.

A debut that took Great Britain by storm, My Legendary Girlfriend introduced the world to the loveable, lovestruck Will Kelly. It's been three years since his heartthrob, Agnes, wrecked his life with a chat that started, "It's like that song. 'If you love somebody, set him free.'" But no matter how much time goes by, Will doesn't feel very free. He

still makes lists of each birthday present Aggi ever gave him, has gymnastic fantasies about a perfect reunion night with her, dwells on the first words she uttered to him. How long can a person stay down in the dumps after being dumped? And how much longer before Will dumps Martina, the sweet but clingy girl he's seeing? Will anyone ever measure up to his Legendary Girlfriend? Fresh, endearing, and full of humor, *My Legendary Girlfriend* tells a story that will ring true for everyone who's ever tried to mend a broken heart. This book provides a systematic exposition of the design features of constructed wetlands, and their management (in terms of siting, physical maintenance, and operation). Only very few books (or chapters) have been published on constructed wetlands in tropical conditions and none are current. The selection of plant species, managing their growth and harvesting cycles, and the impact these have on the attenuation of organic and inorganic pollutants, nutrients, and pathogens would be of interest to students and practitioners of the art working under tropical conditions. The potential of constructed wetlands as a low-cost intervention for developing countries in tropical regions that faced water pollution problems, in particular, deserves to be explored systematically. Record your encounters with nature in this fantastic, interactive book! Kids can write about and draw the plants and animals they see. They can paste photos, postcards and feathers found on the ground. Plus, there's great info to learn about nature.

True Stories of Life and Law

The Pilgrim

'As thrilling as a detective novel.' The Times 'Powerful, moving and often captivating.' Financial Times 'A compelling read for anyone who cares about fairness, justice and humanity.' Observer The Sunday Times bestseller ___ Sarah Langford is a barrister. Her job is to stand in court representing the mad and the bad, the vulnerable, the heartbroken and the hopeful. She must become their voice. Sarah weaves their story around the black and white of the law and tell it to the courtroom. These stories may not make headlines but they will change the lives of ordinary people in extraordinary ways. They are stories which, but for a twist of luck, might have been yours. With remarkable candour, Sarah describes eleven cases which reveal what goes on in our criminal and family courts: these are tales of domestic fall out, everyday burglary, sexual indiscretion, and children caught up in the law. They are sometimes shocking and they are often heart-stopping. She examines how she feels as she defends the person standing in the dock. She also shows us how our attitudes and actions can shape not only the outcome of a case, but the legal system itself. ___ What readers are saying: *** 'Absolutely fascinating . . . thought provoking, powerful and a compelling read.' ***** 'This book broke my heart at times but also contained humour and such poignant insights into the criminal justice system.' ***** 'Sarah writes incredibly well - she's informative while maintaining suspense and tension, and conveys so much emotion in her writing I just want to be in heaven. When we enter seasons of hardship or shortage, we yearn for the peace, tranquility, and abundance we know we will find in heaven. But did you know that God has given us**

access to the riches of heaven here on earth?
