This blistering novel—from the bestselling, Pulitzer Prize-winning author of *The Road*—returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and

small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. No Country for Old Men is a triumph.

A History of the Korean Language is the first book on the subject ever published in English. It traces the origin, formation, and various historical stages through which the language has passed, from Old Korean through to the present day. Each chapter begins with an account of the historical and cultural background. A comprehensive list of the literature of each period is then provided and the textual record described, along with the script or scripts used to write it. Finally, each stage of the language is analyzed, offering new details supplementing what is known about its phonology, morphology, syntax, and lexicon. The extraordinary alphabetic materials of the 15th and 16th centuries are given special attention, and are used to shed light on earlier, pre-alphabetic periods.

An explosive expose of Samsung that “ reads like a dynastic thriller, rolling through three generations of family intrigue, embezzlement, bribery, corruption, prostitution, and other bad behavior ” (The Wall Street Journal). **LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD** Based on years of reporting on Samsung for The Economist, The Wall Street Journal, and Time, from his base in South Korea, and his countless sources inside and outside the company, Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows. Seen for decades in tech circles as a fast follower rather than an innovation leader, Samsung today has grown to become a market leader in the United States and around the globe. They have captured one quarter of the smartphone market and have been pushing the envelope on every front. Forty years ago, Samsung was a rickety Korean agricultural conglomerate that produced sugar, paper, and fertilizer, located in a backward country with a

third-world economy. With the rise of the PC revolution, though, Chairman Lee Byung-chul began a bold experiment: to make Samsung a major supplier of computer chips. The multimillion-dollar plan was incredibly risky. But Lee, wowed by a young Steve Jobs, who sat down with the chairman to offer his advice, became obsessed with creating a tech empire. And in *Samsung Rising*, we follow Samsung behind the scenes as the company fights its way to the top of tech. It is one of Apple's chief suppliers of technology critical to the iPhone, and its own Galaxy phone outsells the iPhone. Today, Samsung employs over 300,000 people (compared to Apple's 80,000 and Google's 48,000). The company's revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea's exports. Yet their disastrous recall of the Galaxy Note 7, with numerous reports of phones spontaneously bursting into flames, reveals the dangers of the company's headlong attempt to overtake Apple at any cost. A sweeping insider account, *Samsung Rising* shows how a determined and fearless Asian competitor has become a force to be reckoned with.

If I were God, what would you want for Christmas?" With a thousand-yard stare, a haggard and bloodied Marine looked incredulously at the war correspondent who asked him this question. In an answer that took "almost forever," the Marine responded; "Give me tomorrow." After nearly four months of continuous and bloody combat in Korea, such a wish seemed impossible. For many of the men of George Company, or "Bloody George" - one of the Forgotten War's most decorated yet unrecognized companies - this would be their last day. This is the epic story of "Bloody George," Spartans for the modern age. After storming ashore at Inchon and fighting house-to-house in Seoul, George Company, America's last reserve unit, found itself on the frozen tundra of the Chosin

Reservoir facing an entire division of Chinese troops. Little did this small band of men - green troops who had been rushed through training to bring fresh forces to the war - know, they would soon be saviors. This is their story, and it will never again be forgotten.

GET DIRTY Next time you're traveling or just chattin' in Korean with your friends, drop the textbook formality and bust out with expressions they never teach you in school, including: •Cool slang •Funny insults •Explicit sex terms •Raw swear words Dirty Korean teaches the casual expressions heard every day on the streets of Korea: •What's up? Wasseo? •Holy shit, I'm trashed. Ssibal, na manchiwi. •I gotta piss. Na swi ssayahae. •Who farted? Bangu nuga ggyeosseo? •Wanna try doggy-style? Dwichigi haeboja? •That bitch is crazy! Heo nyeon michin nyeoniya! •I could really go for some Korean BBQ. Na cheolpangui meokgospieo.

"Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain."—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is

neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the new brain science explains all of this and more. An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

I have a mouth, but I mustn't speak; Ears, but I mustn't hear; Eyes, but I mustn't see. 1800, Joseon (Korea). Homesick and orphaned sixteen-year-old Seol is living out the ancient curse: "May you live in interesting times." Indentured to the police bureau, she's been tasked with assisting a well-respected young inspector with the investigation into the politically charged murder of a noblewoman. As they delve deeper into the dead woman's secrets, Seol forms an unlikely bond of friendship with the inspector. But her loyalty is tested when he becomes the prime suspect, and Seol may be the only one capable of discovering what truly happened on the night of the murder. But in a land where silence and obedience are valued above all else, curiosity can be deadly. June Hur's elegant and haunting debut The Silence of Bones is a bloody tale perfect for fans of Kerri Maniscalco and Renée Ahdieh.

But Sides tells it exceedingly well, with fresh research, gritty scenes and cinematic sweep."–Washington Post From the New York Times bestselling author of Ghost Soldiers and In the Kingdom of Ice, a chronicle of the extraordinary feats of heroism by Marines called on to do the impossible during the greatest battle of the

*Korean War On October 15, 1950, General Douglas MacArthur, Supreme Commander of UN troops in Korea, convinced President Harry Truman that the Communist forces of Kim Il-sung would be utterly defeated by Thanksgiving. The Chinese, he said with near certainty, would not intervene in the war. As he was speaking, 300,000 Red Chinese soldiers began secretly crossing the Manchurian border. Led by some 20,000 men of the First Marine Division, the Americans moved deep into the snowy mountains of North Korea, toward the trap Mao had set for the vainglorious MacArthur along the frozen shores of the Chosin Reservoir. What followed was one of the most heroic--and harrowing--operations in American military history, and one of the classic battles of all time. Faced with probable annihilation, and temperatures plunging to 20 degrees below zero, the surrounded, and hugely outnumbered, Marines fought through the enemy forces with ferocity, ingenuity, and nearly unimaginable courage as they marched their way to the sea. Hampton Sides' superb account of this epic clash relies on years of archival research, unpublished letters, declassified documents, and interviews with scores of Marines and Koreans who survived the siege. While expertly detailing the follies of the American leaders, *On Desperate Ground* is an immediate, grunt's-eye view of history, enthralling in its narrative pace and powerful in its portrayal of what ordinary*

men are capable of in the most extreme circumstances. Hampton Sides has been hailed by critics as one of the best nonfiction writers of his generation. As the Miami Herald wrote, "Sides has a novelist's eye for the propulsive elements that lend momentum and dramatic pace to the best nonfiction narratives."

NEW YORK TIMES BESTSELLER • *The master of military historical fiction turns his discerning eye to the Korean War in this riveting novel, which tells the dramatic story of the Americans and the Chinese who squared off in one of the deadliest campaigns in the annals of combat: the Battle of Chosin Reservoir, also known as Frozen Chosin. June 1950. The North Korean army invades South Korea, intent on uniting the country under Communist rule. In response, the United States mobilizes a force to defend the overmatched South Korean troops, and together they drive the North Koreans back to their border with China. But several hundred thousand Chinese troops have entered Korea, laying massive traps for the Allies. In November 1950, the Chinese spring those traps. Allied forces, already battling stunningly cold weather, find themselves caught completely off guard as the Chinese advance around the Chosin Reservoir in North Korea. A force that once stood on the precipice of victory now finds itself on the brink of annihilation. Assured by General Douglas*

MacArthur that they would be home by Christmas, the soldiers and Marines fight for their lives against the most brutal weather conditions imaginable—and an enemy that outnumbers them more than six to one. The Frozen Hours tells the story of Frozen Chosin from multiple points of view: Oliver P. Smith, the commanding general of the American 1st Marine Division, who famously redefined retreat as “advancing in a different direction”; Marine Private Pete Riley, a World War II veteran who now faces the greatest fight of his life; and the Chinese commander Sung Shi-Lun, charged with destroying the Americans he has so completely surrounded, ever aware that above him, Chairman Mao Tse-Tung watches his every move. Written with the propulsive force Jeff Shaara brings to all his novels of combat and courage, The Frozen Hours transports us to the critical moment in the history of America’s “Forgotten War,” when the fate of the Korean peninsula lay in the hands of a brave band of brothers battling both the elements and a determined, implacable foe. “A military story as dramatic and heroic as any that exists.”—The American Interest “The Frozen Hours . . . illustrates again Shaara’s mastery. . . . This is fiction and history at their blended best.”—Marine Corps Gazette “Marvelously effective storytelling . . . that shows us what warfare feels like both to those who plan campaigns and those who execute them . . . gripping, precisely detailed historical fiction.”—Booklist (starred review)

"I Can Speak Korean" Book One is a crash course for students beginning the study of the Korean language. With the book you can master the beginner's level even though you are an absolute beginner. Also, you can learn grammar in a simple and easy way while making sentences.

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do.

What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn

how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you

break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.

“A meaty, fast-paced portrait of North Korean society, economy, politics and foreign policy.”
-Foreign Affairs The definitive account of North Korea, its veiled past and uncertain future, from the former Director for Asian Affairs at the National Security Council In *The Impossible State*, seasoned international-policy expert and lauded scholar Victor Cha pulls back the curtain on this controversial and isolated country, providing the best look yet at North Korea's history, the rise of the Kim family dynasty, and the obsessive personality cult that empowers them. He illuminates the repressive regime's complex economy and culture, its appalling record of human-rights abuses, and its belligerent relationship with the United States, and analyzes the regime's major security issues—from the seemingly endless war with its southern neighbor to its frightening

nuclear ambitions—all in light of the destabilizing effects of Kim Jong-il's recent death. How this enigmatic nation-state—one that regularly violates its own citizens' inalienable rights and has suffered famine, global economic sanctions, a collapsed economy, and near total isolation from the rest of the world—has continued to survive has long been a question that preoccupies the West. Cha reveals a land of contradictions, one facing a pivotal and disquieting transition of power from tyrannical father to inexperienced son, and delves into the ideology that leads an oppressed, starving populace to cling so fiercely to its failed leadership. With rare personal anecdotes from the author's time in Pyongyang and his tenure as an adviser in the White House, this engagingly written, authoritative, and highly accessible history offers much-needed answers to the most pressing questions about North Korea and ultimately warns of a regime that might be closer to its end than many might think—a political collapse for which America and its allies may be woefully unprepared.

NEW YORK TIMES BESTSELLER • ONE OF THE MOST ANTICIPATED COOKBOOKS OF 2022—Time, Food52, Eater, Food & Wine, Thrillist, Book Riot An homage to what it means to be Korean American with delectable recipes that explore how new culinary traditions can be forged to honor both your past and your present. “This is such an

important book. I savored every word and want to cook every recipe!”—Nigella Lawson, author of *Cook, Eat, Repeat* New York Times staff writer Eric Kim grew up in Atlanta, the son of two Korean immigrants. Food has always been central to his story, from Friday-night Korean barbecue with his family to hybridized Korean-ish meals for one—like Gochujang-Buttered Radish Toast and Caramelized-Kimchi Baked Potatoes—that he makes in his tiny New York City apartment. In his debut cookbook, Eric shares these recipes alongside insightful, touching stories and stunning images shot by photographer Jenny Huang. Playful, poignant, and vulnerable, *Korean American* also includes essays on subjects ranging from the life-changing act of leaving home and returning as an adult, to what Thanksgiving means to a first-generation family, complete with a full holiday menu—all the while teaching readers about the Korean pantry, the history of Korean cooking in America, and the importance of white rice in Korean cuisine. Recipes like Gochugaru Shrimp and Grits, Salt-and-Pepper Pork Chops with Vinegared Scallions, and Smashed Potatoes with Roasted-Seaweed Sour Cream Dip demonstrate Eric's prowess at introducing Korean pantry essentials to comforting American classics, while dishes such as Cheeseburger Kimbap and Crispy Lemon-Pepper Bulgogi with Quick-Pickled Shallots do the opposite by tinging traditional Korean

favorites with beloved American flavor profiles. Baked goods like Milk Bread with Maple Syrup and Gochujang Chocolate Lava Cakes close out the narrative on a sweet note. In this book of recipes and thoughtful insights, especially about his mother, Jean, Eric divulges not only what it means to be Korean American but how, through food and cooking, he found acceptance, strength, and the confidence to own his story.

Korean from Zero! From Zero!

Recounting his three years in Korea, the highest-ranking non-Korean executive at Hyundai sheds light on a business culture very few Western journalists ever experience, in this revealing, moving, and hilarious memoir. When Frank Ahrens, a middle-aged

bachelor and eighteen-year veteran at the Washington Post, fell in love with a diplomat, his life changed dramatically. Following his new bride to her first appointment in Seoul, South Korea, Frank traded the newsroom for a corporate suite, becoming director of global communications at Hyundai Motors. In a land whose population is 97 percent Korean, he was one of fewer than ten non-Koreans at a company headquarters of thousands of employees. For the next three years, Frank traveled to auto shows and press conferences around the world, pitching Hyundai to former colleagues while trying to navigate cultural differences at home and at work. While his appreciation for absurdity enabled him to laugh his way through many awkward encounters, his job began to take a toll on his marriage and family. Eventually he became a vice president—the highest-ranking non-Korean at Hyundai headquarters. Filled with unique insights and told in his engaging, humorous voice, Seoul Man sheds light on a culture few Westerners know, and is a delightfully funny and heartwarming adventure for anyone who has ever felt like a fish out of water—all of us.
