Discusses the results of the International Crime Victim Survey (ICVS) in Eastern Europe.

More than twenty years have passed since Walter Auffenberg's monumental *The Behavioral Ecology of the Komodo Monitor*. In the intervening years the populations of Komodo dragons—native only to a handful of islands in southeast Indonesia—have

dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The second part of the book is dedicated to step-by-step

management and conservation techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter Auffenberg note, "The species may well indeed survive in the wild for generations to come while countless other organisms are lost." This book centers on business decision-making and managerial problem-solving, consistent with

Criminal Victimization in Seventeen Industrialised Countries

At the start of each decade the World Development Report focuses on poverty reduction. The World

Development Report, now in its twenty-third edition, proposes an empowerment-security-opportunity framework of action to reduce poverty in the first decades of the twenty-first century. It views poverty as a multidimensional phenomenon arising out of complex interactions between assets, markets, and institutions. This Report shows how the experience of poverty reduction in the last fifteen years has been remarkably diverse and how this experience has provided useful lessons as well as warnings against simplistic universal policies and interventions. It shows how

current global trends present extraordinary opportunities for poverty reduction but also cause extraordinary risks, including growing inequality, marginalization, and social explosions. The World Development Report 2000/2001 explores the challenge of managing these risks in order to make the most of the opportunities for poverty reduction.

The dramatic, tumultuous, often tragic human events that erupted in the Balkan Peninsula following the collapse of communism between 1989 and 1991 have captured the Western world's attention throughout the past decade. The Palgrave Concise

Historical Atlas of the Balkans provides 50 two-color, full-page maps, each accompanied by a facing page of explanatory text. These maps illustrate key moments in Balkans history in a way that is immediate and comprehensible, making it come alive. Students will regard it as a useful reference, and general readers will enjoy it for its clarity and wealth of information.

The consequences of globalization for the world's poor are uncertain and fierce rhetoric is dividing its supporters and detractors. The channels of effect of essentially macroeconomic

shocks on the microeconomic position of individuals and households in poor countries are many and various. This book addresses three core issues: 1) what are the main channels of effect? 2) what are the lessons to be learned from policy measures to alleviate negative poverty consequences? and 3) do the proposed analytical approaches assist in providing a monitoring capability? This volume assesses the more easily quantifiable effects resulting from price and quantity responses in the goods and labour markets. It includes studies of Colombia, Ghana, India, Nepal, Bangladesh and Vietnam. It

uses key analytical approaches, most of which are based on numerical simulation methods employing models with different levels of complexity. These models capture the features of an economy, how it functions, and how it might respond to globalization shocks. The most important collective contribution of the authors is their establishment of directions and magnitudes of effect, based on empirical evidence.

This book concerns an insufficiently recognized form of organized crime : crime-enterprises operating on the legitimate market under the veil of respectable companies. The volume concentrates on the situation in the European Union.

Strategic Marketing

This is the only book on the market that comprehensively covers both international marketing and export management. This is a focus on

Acces PDF Kriminologjia Ragip Halili

marketing decisions and management processes involved in exporting and not simply a 'how to' treatment of technical export details. This 5th edition has been written in response to the continually rapid changes in international marketing and the new challenges that are arising. This book is suitable for Undergraduates and Postgraduates/MBA courses in International Marketing, Export Marketing and International Trade. The 7th Edition of Global Marketing Management prepares students to become effective managers overseeing global marketing activities in an increasingly competitive environment. The text's guiding principle, as laid out concisely and methodically by authors Kotabe and Helsen, is that the realities of international marketing are more "multilateral." Suitable for all business majors, the text encourages students to

learn how marketing managers work across business functions for effective corporate performance on a global basis and achievement of overall corporate goals. Global Marketing Management brings timely coverage in various economic and financial as well as marketing issues that arise from the acutely recessionary market environment. Pacesetter is a four-level course that takes teenage students from beginner to intermediate level. Each level contains 15 teaching units and three consolidation units. The series is designed for mid-teen students who are highly-motivated and academic. The content is challenging and the language teaching moves at a quicker pace than in titles that were developed for markets where there are low expectations of students.

It is nearly impossible to overestimate the significance of a professional ethos in pedagogical situations.

Most theories of education understand ethos and ethical acting as belonging to the core of the pedagogical profession. Despite this evidence, remarkably few empirical studies exist on ethos. This book has three

main aims: 1) to conceptualize the pedagogical ethos at the theoretical level, 2) to operationalize it systematically, and 3) to study it empirically from the trainers' perspective but also from that of apprentices. Part 1 offers a critical discussion on different theoretical approaches of professional morality. These include theories on moral values or professional codes, virtue ethics, professional sensitivity, moral commitment, and caring. Identified

communalities are combined to form a new model of professional ethos. More intensively than other existing theories, the ethos approach presented in this book stresses the content's situational impact on decision-making and motivation. The main question guiding the instrument development, dealt with in Part 2, asks how we can distinguish professional morality from the general notion that people should be good. In order to answer this question, vocational education but also a

trainer's pedagogical duties and responsibilities are discussed. Part 3 then presents the result of two empirical studies with vocational trainers and apprentices. It offers some interesting findings for further reflection - input not only relevant for researchers but also educational institutes, professional associations, and practitioners themselves. In short: this book contributes significantly to research on professional morality as well as vocational

Il lavoro in oggetto costituisce un'analisi esauriente ed aggiornata della disciplina penale del "terrorismo". Attraverso una attenta analisi sia ricostruttiva, che dogmatico-interpretativa, l'Autore offre un compiuto quadro sul fenomeno sia in una prospettiva storica che tecnico-giuridica. Ed invero, nell'opera vengono analizzate con particolare attenzione le forme di sovversione contro i poteri precostituiti, riconducibili alla categoria degli atti terroristici, dall'antichità fino ai giorni nostri, così come le tecniche di incriminazione, le fondamenta culturali e morali che

stanno alla loro base ecc. È soprattutto sul versante della comparazione che l'opera si pone di particolare interesse, offrendo al lettore un panorama chiaro e sistematico con riferimento alla legislazione della Francia e della Repubblica d'Albania. Del resto, se il terrorismo rappresenta il punto di convergenza dei principali cambiamenti conosciuti recentemente dal diritto penale a livello mondiale, un'opera di comparazione rappresenta lo strumento migliore per comprendere fino in fondo non solo il fenomeno, ma anche le forme di contrasto allo stesso, le

quali non possono prescindere da una attenta collaborazione tra gli Stati. In questa prospettiva, l'opera si occupa non solo della struttura delle norme incriminatrici e delle relative sanzioni in materia di terrorismo, sia verso le persone fisiche che quelle giuridiche, in Albania e Francia, ma si spinge ad un esame dettagliato del sistema procedurale attinente alle investigazioni, il regime delle intercettazioni, del controllo della corrispondenza, le forme speciali di monitoraggio dei soggetti sospettati o degli ambienti in ordine ai quali si hanno fondati motivi per ritenere che si

svolgano attività con finalità terroristiche ecc. Una particolare attenzione viene dedicata infine al trattamento delle vittime del terrorismo e all'istituto del risarcimento dei danni verso le stesse in entrambi i paesi. Oltre ad analizzare l'effettività delle discipline antiterrorismo in Francia e Albania, nonché la loro compatibilità con la tutela dei diritti fondamentali dell'individuo, l'opera si conclude con una serie di raccomandazioni de lege ferenda, che potrebbero risultare utili per il miglioramento non solo delle legislazioni di entrambi i paesi, ma anche della disciplina antiterrorismo a livello

internazionale.

The tragedies of Bosnia and Kosovo are often explained away as the unchangeable legacy of 'centuries-old hatreds'. In this richly detailed, expertly balanced chronicle of the Balkans across fifteen centuries, Hupchick sets a complicated record straight. Organized around the three great civilizations of the region - Western European, Orthodox Christian and Muslim - this is a much-needed guide to the political, social, cultural and religious threads of Balkan history, with a clear, convincing account of the reasons for nationalist violence and terror.
