Oranges Are Not the Only Fruit, Jeanette Winterson's delectable first novel, announced the arrival of 'a fresh voice with a mind behind it,' as Muriel Spark has written. 'She is a master of her material, a writer in whom great talent deeply abides'—and her reputation and accomplishment have grown with each of her five subsequent novels. Now, with her first collection—seventeen stories that span her entire career—Jeanette Winterson reveals all the facets of her extraordinary imagination. Whether transporting us to bizarre new geographies—a world where sleep is illegal, an island of diamonds where the rich wear jewelry made of coal—or revealing so perfectly, so exactly, the joy and pain of owning a brand-new dog, she proves herself a master of the short form. For her readers, a celebration—and for everyone else, a wonderful introduction to this highly original and consistently daring writer, who has become 'one of our most brilliant, visionary storytellers' (San Francisco Chronicle)

In this volume Tabari takes up the history of the ancient world, focusing on the Iranians and the Israelites after the time of Solomon. He establishes a comparative chronology between the two nations; viewing Bahman, the Persian king, as the son of Esther, and his daughter, Khumani, the mother of Darius. Tabari's synchronization also leads him into a discussion of North and South Arabia, in which stories about King Jadhimah, Queen Zabba, and the tribes of Tabari and Jadis appear. Falling outside the general scheme of the volume, are other details. These are concentrated in five chapters on the biblical stories of Samson and Delilah, and on Jonah, commentary on a Quranic passage concerning three divine envoys, and on two stories of Christian antiquity, the Seven Sleepers and the martyr Jirjis. Tabari presents a mass

of Iranian, Jewish, Christian, and Arabian lore in order to create a unified view of the material. His treatment of the mythical Iranian kings, as they battle Turanians and other foes, extends beyond the time of Alexander and his successors to the era of the Gospels, John the Baptist, and Jesus. Tales of the Israelites include the story of Asa and Zerah the Indian, remarkable for its development of the Biblical nucleus and variants of the history of the destruction of Jerusalem by Nebuchadnezzar.

But then he starts showing up by my side at sporting events. At galas. And his eyes are saying all sorts of flirty, dirty things. Like maybe we should cross the friends line and head right into benefits?

**This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.**

The rich civilizations of ancient China and Greece built sciences of comparable sophistication—each based on different foundations of concept, method, and organization. In this engrossing book, two world-renowned scholars compare the cosmology, science, and medicine of China and Greece between 400 B.C. and A.D. 200, casting new light not only on the two civilizations but also on the evolving character of science. Sir Geoffrey Lloyd and Nathan Sivin investigate the differences between the thinkers in the two civilizations: what motivated them, how they understood the cosmos and the human body, how they were educated, how they made a living, and whom they argued with and why. The authors' new method integrally compares social, political, and intellectual patterns and connections, demonstrating how all affected and were affected by ideas about cosmology and the physical world. They relate conceptual differences in China and Greece to the diverse ways that intellectuals in the two civilizations earned their living, interacted with fellow inquirers, and were involved with structures of authority. By A.D. 200 the distinctive scientific strengths of both China and Greece showed equal potential for theory and practice. Lloyd and Sivin argue that modern science evolved not out of the Greek tradition alone but from the strengths of China, Greece, India, Islam, and other civilizations, which converged first in the Muslim world and then in Renaissance Europe. With the release of *Ladlad I*, editors J. Neil Garcia and Danton Remoto have challenged oppressive and homophobic ideologies. Now on its second installment, *Ladlad 2* delivers more insights about gay life in the Philippines. It delves deeper on the closeted lives of gays—finding lifelong partner, seeking happiness, and accepting one's true self.

*Chasing the Spotlight* is the fourth book in a series that travels alongside four friends as they deal with teen life in Riverbend, Indiana. The novel inspires girls and young women to deepen their relationships with God and solve their problems in God-honoring ways. Amelia's feeling a bit lost these days. Her parents are very involved (make that over-involved) volunteering as marriage counselors with their church. Her big brother Josh, the only one who truly understands her, just got married. And her big sister, Maggie? Let's just say they don't exactly get along. Maggie is perfectly pretty, perfectly smart, and dates the perfect guy. On the other hand, everything about Amelia feels big—her hair, her weight . . . and her personality. Amelia's refuge, her passion, her place of belonging is theater. Someday she's going to be on Broadway, but this year, she'll settle for the lead in the spring musical. And she'll do whatever it takes to make it happen. She's committed, she's motivated, she's talented—and she's completely confident about her abilities. Really, she is! But somehow, despite her best efforts, reality is playing out a little differently than how she dreamed. Will chasing the spotlight lead to the fame and fulfillment she's longed for, or will it cost her the friends she's made this year? "I need you to find me a bride." Marco Orsini demanded this from the etiquette teacher, Francesca Marcolini. His grandfather's mandate was simple: Present a bride on the day of his 86th birthday—and thereby secure the continuity of his clan and the massive Orsini empire—or he will be disinherited. But Marco doesn't want just any woman. He wants the perfect woman, and he knew that only Francesca can help him find the perfect bride. She had all the connections to the best women in Italian society after all—She may have even taught them in the ways of the social graces, which intrigues Marco. The two will go to great lengths to find the perfect woman, but how far must they search to find the perfect Orsini bride?
