

La Carne La Morte E Il Diavolo Nella Letteratura Romantica

During the final decades of the nineteenth century, a common mind-set emerged among many intellectuals--"la decadence." Many novels and novellas of the period were populated with protagonists who were fragile, refined, self-absorbed, and preoccupied with a trivially exquisite aesthetic. A Baedeker of Decadence presents thirty-two international works of literary decadence written between 1884 and 1927. George C. Schoolfield, a world authority on the decadent novel, offers an entertaining and wide-ranging commentary on this highly significant literary and cultural phenomenon. Schoolfield tracks down the symptoms of decadence in narrative works written in more than a dozen languages, providing synopses and passages in English translation to give a sense of each author's style and tone. Schoolfield throws new light on the close intellectual kinship of authors from August Strindberg to Bram Stoker to Thomas Mann, and on the ingredients, themes, motifs, and preconceptions that characterized decadent literature.

Umberto Eco's wise and witty guide to researching and writing a thesis, published in English for the first time. By the time Umberto Eco published his best-selling novel *The Name of the Rose*, he was one of Italy's most celebrated intellectuals, a

distinguished academic and the author of influential works on semiotics. Some years before that, in 1977, Eco published a little book for his students, *How to Write a Thesis*, in which he offered useful advice on all the steps involved in researching and writing a thesis—from choosing a topic to organizing a work schedule to writing the final draft. Now in its twenty-third edition in Italy and translated into seventeen languages, *How to Write a Thesis* has become a classic. Remarkably, this is its first, long overdue publication in English. Eco's approach is anything but dry and academic. He not only offers practical advice but also considers larger questions about the value of the thesis-writing exercise. *How to Write a Thesis* is unlike any other writing manual. It reads like a novel. It is opinionated. It is frequently irreverent, sometimes polemical, and often hilarious. Eco advises students how to avoid “thesis neurosis” and he answers the important question “Must You Read Books?” He reminds students “You are not Proust” and “Write everything that comes into your head, but only in the first draft.” Of course, there was no Internet in 1977, but Eco's index card research system offers important lessons about critical thinking and information curating for students of today who may be burdened by Big Data. *How to Write a Thesis* belongs on the bookshelves of students, teachers, writers, and Eco fans everywhere. Already a classic, it would fit

Giovanni Pascoli (1855–1912) is one of Italy's most canonical and beloved poets. In *Beyond the Family Romance*, Maria Truglio offers fresh insight into the uncanny qualities of Pascoli's domestic verse. As suggested by the Freudian title, this study opens a dialogue between Pascoli's literature and Freud's theories, with a particular focus on each author's interrogation of origins. Through close readings and historical contextualization, themes of regression, memory, and other manifestations of 'origins' are analyzed, moving Pascoli's poetry beyond the biographical strictures that have hitherto confined it. Truglio's post-structuralist readings question the dichotomy between 'safety within the home' and the 'threatening outside world,' revealing the

ambivalences with which images of the home are fraught in Pascoli's poetry. In addition to the sustained comparison with Freud's writing, *Beyond the Family Romance* explores parallels between Pascoli's work and such writers as Tarchetti, Boito, Poe, and Invernizio. Rethinking the concept of the fanciullino ('little child'), Truglio shows that Pascoli's poetry enacts a symbiosis between the logic of the rational modern adult and the mythic vision of the child.

This innovative new book examines the ways in which writers' houses contribute to the making of memory. It shows that houses built or inhabited by poets and novelists both reflect and construct the author's private and artistic persona; it also demonstrates how this materialized process of self-fashioning is subsequently appropriated within various strategies and policies of cultural memory.

Annie Chartres Vivanti: Transnational Politics, Identity, and Culture explores the work of British Italian writer Annie Chartres Vivanti (1866-1942). This volume provides a multidisciplinary approach to the study of Vivanti in order to analyze the diverse and complex writing experiences in which she engaged. Essays examine Vivanti's work through multiple perspectives, taking into account her politics and her career as journalist, writer, and singer as well as her literary works.

This book examines how in Italian literature and film, as well as in society, women were confined to traditional roles and illness often represented the consequence for transgressing those roles. Feigning illness offered women a way to "own" the illness and become masters of their bodies as well as their stories and destinies.

An original and challenging work, The Quest

for Epic documents the development of Italian narrative from the chivalric romance at the end of the fifteenth century to the genre of epic in the sixteenth century. This volume is the first comprehensive study of the influence of English Pre-Raphaelitism on Italian art and culture in the late nineteenth century. Analysis of the cultural relations between Italy and Britain has focused traditionally on the special place that Italy had in the British imagination, but the cultural and artistic exchanges between the two countries have been much misunderstood. This book aims to correct this imbalance by placing Pre-Raphaelitism in its European context. It explores the nature of its influence on Italy, how it was transmitted, and how it was manifested, by focusing on the role of Italian Anglophiles, the English communities in Florence and Rome, the writings of Gabriele D'Annunzio, and a number of Italian artists active in Tuscany and Rome. The works of Cellini, Ricci, Gioja, De Carolis, and Sartorio in particular fully demonstrate the impact of Pre-Raphaelitism on the young Italian school of painting which found in the English movement an ideal link with its glorious past on which it could build a new artistic identity. These artists show that

English Pre-Raphaelitism was one of the most powerful single influences on fin-de-siecle Italian culture.

The Portrait of Beatrice examines both Dante's and D. G. Rossetti's intellectual experiences in the light of a common concern about visuality. Both render, in different times and contexts, something that resists clear representation, be it the divine beauty of the angel-women or the depiction of the painter's own interiority in a secularized age. By analyzing Dante's *Vita Nova* alongside Rossetti's *Hand and Soul* and *St. Agnes of Intercession*, which inaugurates the Victorian genre of 'imaginary portrait' tales, this book examines how Dante and Rossetti explore the tension between word and image by creating 'imaginary portraits.' The imaginary portrait—Dante's sketched angel appearing in the *Vita Nova* or the paintings evoked in Rossetti's narratives—is not (only) a non-existent artwork: it is an artwork whose existence lies elsewhere, in the words alluding to its inexpressible quality. At the same time, thinking of *Beatrice* as an 'imaginary Lady' enables us to move beyond the debate about her actual existence. Rather, it allows us to focus on her reality as a miracle made into flesh, which language seeks incessantly to grasp. Thus, the intergenerational dialogue between Dante and Rossetti—and between thirteenth and nineteenth centuries, literature and painting, Italy and England—takes place between different media, oscillating between representation and denial, mimesis and difference, concealment and performance. From medieval Florence to Victorian London, *Beatrice's*

This international and intercultural book examines translation histories and outstanding readings of the words of Edgar Allan Poe in nineteen national and literary traditions. It maps out Poe's global dissemination and examines the different designs, processes, and offshoots of the appropriations of his works.

Born and brought up in Poland bilingually in French and Polish but living for most of his professional life in England and writing in English, Joseph Conrad was, from the start, as much a European writer as he was a British one and his work – from his earliest fictions through *Heart of Darkness*, *Nostromo* and *The Secret Agent* to his later novels– has repeatedly been the focal point of discussions about key issues of the modern age. With chapters written by leading international scholars, this book provides a wide-ranging survey of the reception, translation and publication history of Conrad's works across Europe. Covering reviews and critical discussion, and with some

The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. The widespread and culturally significant impact of Percy Bysshe Shelley's writings in Europe constitutes a particularly interesting case for a reception study because of the variety of responses they evoked. If radical readers cherished the 'red' Shelley, others favoured the lyrical poet, whose work was, like Byron's, anthologized and set to music. His major dramatic works, The Cenci and Prometheus Unbound, inspired numerous fin-de-siècle and expressionist dramatists and producers from Paris to Moscow. Shelley was read by, and influenced, the novelist Stendhal, the political theorist Engels, the Spanish symbolist Jiménez, and the Russian modernist poet Akhmatova. This exciting

collection of essays by an international team of leading scholars considers translations, critical and biographical reviews, fictionalizations of his life, and other creative responses. It probes into transnational cross-currents to demonstrate the depth of Shelley's impact on European culture since his death in 1822. It will be an indispensable research resource for academics, critics, and writers with interests in Romanticism and its legacies. This monograph makes a seminal contribution to existing literature on the importance of Roman law in the development of political thought in Europe. In particular it examines the expression 'dominus mundi', following it through the texts of the medieval jurists - the Glossators and Post-Glossators - up to the political thought of Hobbes. Understanding the concept of dominus mundi sheds light on how medieval jurists understood ownership of individual things; it is more complex than it might seem; and this book investigates these complexities. The book also offers important new insights into Thomas Hobbes, especially with regard

to the end of dominus mundi and the replacement by Leviathan. Finally, the book has important relevance for contemporary political theory. With fading of political diversity Monateri argues "that the actual setting of globalisation represents the reappearance of the Ghost of the Dominus Mundi, a political refoulé - repressed - a reappearance of its sublime nature, and a struggle to restore its universal legitimacy, and take its place." In making this argument, the book adds an important original vision to current debates in legal and political philosophy.

borrowed the tones, figures and spectacular nature of the melodramatic imagination feeding the theatre and literature of the time, and how it could resonate with a largely uneducated audience. An important contribution to the new historiography on the Italian Risorgimento and on nineteenth-century nationalism in Europe, it offers a fresh perspective on the public sphere during the Risorgimento, focusing on the transnational links between political mobilisation and the growth of new media and burgeoning mass culture.

*Much has been written on Beckett and Sade, yet nothing systematic has been produced. This Element is systematic by adopting a chronological order, which is necessary given the complexity of Beckett's varying assessments of Sade. Beckett mentioned Sade early in his career, with Proust as a first guide. His other sources were Guillaume Apollinaire and Mario Praz's book, *La Carne, La morte e il Diavolo Nella Letteratura Romantica* (1930), from which he took notes about sadism for his *Dream Notebook*. Dante's meditation on the absurdity of justice provides closure facing Beckett's wonder at the pervasive presence of sadism in humans.*
